WATER HARD ON BABY

The winter season is a hard one on the baby. He is more or less confined to stuffy, badly ventilated rooms. It is so often stormy that the mother does not get him out in the fresh air as often as she should. He catches colds which rack his little system; his stomach and bowels get out of order and he becomes peevish and cross. To guard against this the mother should keep a box of **Baby's Own Tablets** in the house. They regulate the stomach and bowels, and break up colds. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Way of Life.
To swing along—sing along
And keep the vision clear,
How many in the moving throng
Can come so very near
The measure of that mighty love
Which makes the way of life
A blessed way, a happy way,
A betterment of strife?

Mother! Move
Child's Bowels With
California Fig Syrup

Hurry mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful to-day may prevent a sick child to-morrow. If constipated, bilious, feverish, fretful, cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary.

"Ask your druggist for genuine 'California Fig Syrup' which is as directions for babies and children of all ages printed on bottle. Mother! You must say 'California' or you may get an imitation fig syrup."

She'd Learned.
The puppy had been punished and was sulking in a corner. To him came the small daughter of the house to administer, not comfort, but advice.
"You may just as well be good first as last, Spot," she administered.
"Everybody that belongs to mother all and I know."

After the Honeymoon.
"Well, well," he exclaimed, as he tackled her first meat pie, "where did you get this?"
"I made that out of Mrs. Shorter's cookery book," replied the young wife.
"It's a..."
"Ah!" he broke in. "This leathery part is the binding, I suppose?"

Scientific Proof.
One day a teacher was having a first grade class in physiology. She asked them if they knew that there was a burning fire in the body all the time. One little girl spoke up and said:
"Yes'm; when it is a cold day, I can see the smoke."

Good Verse.
A young fellow, who is given to versifying, recently asked his fiancee, "Dearie, did you like the poem I sent you?"
"Did it seem too sweetly tender?"
"Oh," she said, "it was lovely. I got \$3.50 for it at the church fair."

In the Dark.
Professor—"Every day we breathe oxygen. Now, Willie, what do we breathe at night?"
Willie—"Nitrogen."

as the result of holy lives led by some of the converts of that name. At any rate, the Normans brought the name to England in the forms "Pagan," "Paxa" and "Pain," and there it became a family name in the normal course.

Surnames and Their Origin

HAMMOND
Variations—Hammonds, FitzHamond, Hampson, Amundsen.
Racial Origin—Norman French, also Scandinavian.
Source—A given name.

Here is another group of family which traces back to the Anglo-Saxon given name of "Amal," though it should be recognized in the groupings in this article. It preceded it and is more or less of the same lineage.

These family names are really the same word as our modern words pagan and peasant, and their evolution has been a peculiar and interesting one. At a period before the Norman invasion of England the root word had the same meaning as our modern peasant; that is, a countryman as opposed to townsman. This was in the days when the early Normans first were introduced to Christianity. It happened among them as among many other nations, that Christianity made more rapid progress in the towns and more congested centres of population than it did in the outlying districts, a phenomenon undoubtedly largely due to problems of travel and communication.

But gradually the word pagan, denoting a countryman, came to denote, as well, one who refused to accept Christianity, and in the defiant stand of those who resisted the new religion was accepted as a term of honor to such an extent that they began to give it to their children as a given name. In the end, of course, Christianity triumphed, but the given name survived and remained popular, probably

One third of your life is allotted to sleep. Do you get your share?

The most important period in the process of applying nutrition to the repair of the body is while you are asleep. For the most favorable transformation of digested food into nerve and cell tissue, so doctors tell us, sleep is absolutely essential.

Is it any wonder that those who suffer from lack of proper sleep are weak, pale and lacking in energy or ambition?

One of the causes of insomnia is nerve-irritation from tea and coffee drinking. Tea and coffee both contain caffeine, which has a tendency to cause undue stimulation. The irritating effect of caffeine often results in insomnia, depression, and a weakened nervous system.

You can easily overcome these troubles by drinking Postum instead of tea or coffee. Postum is a delicious, satisfying cereal beverage, and it is absolutely free from caffeine, or any other harmful substance.

Ask your grocer for Postum. Drink this delicious, refreshing beverage for ten days. Then see if you do not feel better and more clear headed, and if you do not sleep better at night—as so many other people have proved for themselves.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

TORONTO WOMAN
GAINED 35 POUNDS

ONLY WEIGHED NINETY POUNDS WHEN SHE BEGAN TAKING TANLAC.

Was So Weak and Ill from Stomach Trouble Life Was a Burden.

"Tanlac has built me up from a mere frame weighing only ninety pounds to a strong woman weighing one hundred and twenty-five pounds, and my gratitude is unbounded," said Mrs. Lydia Pickup, 12 Ramsay Lane, Toronto, Ont.

"My stomach troubled me so much during the past three years that my life was a perfect burden. My appetite was gone entirely, gas would form and nearly set me wild with pain in the pit of my stomach. The gas nearly smothered me and my heart acted so queerly that it alarmed me. I could get scarcely any sleep and was tired and dull and so dizzy I could hardly stand up, and at times my head hurt like it would burst open. I lost weight until my clothes were entirely too large and I was so weak I could hardly move."

"One day I saw a statement about Tanlac and I determined to try it. I have now taken ten bottles in all and my appetite has come back. I eat anything I want and as much as I want at every meal without pain or any uncomfortable feeling afterwards. I do not have headaches or dizzy spells any more, I sleep soundly every night and get up feeling fine and strong in the morning."

Tanlac is sold by all good druggists.—Adv.

If Headachy, Bilious or Stomach is Bad, Take "Cascarets"

Get a 10-cent box now.

Furred Tongue, Bad Colds, Indigestion, Sallow Skin and miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, everything that is sickening. A Cascaret to-night will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too.

Her Martial Creed.
Mrs. Worth had just learned that her colored workwoman, Aunt Dinah, had at the age of seventy married for the fourth time.
"Why, Aunt Dinah," she exclaimed, "you surely haven't married again!"
"Yassum, honey, I has," was Aunt Dinah's smiling reply. "Jes' as afen as de Lawd takes 'em, so will I."

MONEY ORDERS.
A Dominion Express Money Order for five dollars costs three cents.

"Daddy sent me over to see if he could borrow one of Mr. Smith's hoes," "Goodness me! Tell him he has them both on."

INSTRUMENTS THAT MEASURE
Earthquakes.

If an earthquake takes place at the other side of the world, it writes its own record on the delicate instruments kept in the observatories in Britain, says a London magazine.

Next morning you will see in the papers that our instruments have recorded an earthquake of great violence which took place in South America. It may be days before news comes through by telegraph from the scene of the upheaval to confirm the instrument's message.

The seismograph, as the earthquake recorder is called, consists of a revolving drum and a tiny mirror. The latter is balanced so delicately that the slightest tremor of the earth's crust will set it dancing. The drum, which is turned by clockwork, is covered with a roll of sensitized photographic paper. The mirror focuses a little point of light, reflected from a brilliant lamp, on to the paper.

So long as nothing is happening the mirror remains at rest, and as the drum revolves a perfectly straight line is traced on the paper by the point of light. But as soon as a shock occurs the mirror is agitated and the line becomes a zigzag.

A stone thrown into a pond sets up ripples which reach the edge. An earthquake produces the same result, except that the ripples are formed in the earth's hard but slightly elastic crust.

Fortunately, serious earthquakes are rare, but hundreds of small shocks take place every day, and seismographs of the most delicate type record them all.

Every broken promise left behind becomes a broken bridge ahead.

What you can do to-morrow will depend on what you have done to-day.
