

Kitchener was right

when he said—

"Either the civilian population must go short of many things to which it is accustomed in times of peace or our armies must go short of munitions and other things indispensable to them."

NOW the only way we can possibly live up to that obligation is by going without in order that our soldiers may have. For the money we waste is not money at all—it is equipment, clothing, shot and shell that are urgently needed in France. By denying ourselves, therefore, we enable Canada to procure to the fullest extent the materials and labor which she and our Allies need for the successful prosecution of the war. What happens when we fail to save? A pull on labor by the Government in one direction and a pull on labor by the people in the opposite direction.

Hundreds of millions of dollars are of no use to the country if goods and services can be secured only to the extent of eighty millions of dollars. So we must do everything in our power to release both goods and labor for the purposes for which Canada needs them.

WHETHER it be food, coal, wool, steel, leather, labor or transportation, the result in all cases is the same. Whoever competes with the nation by freely satisfying his own desires, selfishly appropriates to his own use that which is so urgently required for our fighting men in France.

For the sake of your country and the boys "over there," spend cautiously. Think of what Lord Kitchener has said, and ask yourself first, "Is this something I really need or can I do without it?"

Sheep Pay Best of all Live Stock in Nova Scotia

High Prices for Wool and Mutton are assured for some years AFTER THE WAR Now is THE TIME TO INCREASE Nova Scotia Flocks. Keep Your Ewe Lambs

If you have more than you need induce your neighbours to purchase them for breeding purposes. Do not sell them to the butcher unless you cannot help it.

1918 legislation requires the compulsory taxation of every dog in Nova Scotia and provides for pay in compensation to owners of sheep destroyed by dogs, the owners of which are not known. Now let every farmer who can, help meet war demands by keeping sheep.

The Nova Scotia Department of Agriculture in co-operation with the Live Stock Division of the Dominion Department of Agriculture, announce the following policies.

1.—Several hundred selected grade ewe lambs have been purchased and will be sold at cost to bona fide sheep breeders wishing to secure them.

2.—The Departments will pay transportation on these ewe lambs from place of purchase to destination.

3.—If parties wishing to secure ewe lambs for breeding purpose will write the Nova Scotia Department of Agriculture, Truro, they will get advice relative to price and other particulars. If all lambs already secured are disposed of, an effort will be made to purchase more. Get orders in early, as later prices may be higher.

4.—The Live Stock Division of the Federal Department of Agriculture will assist as heretofore the distribution of pure bred rams.

5.—To supplement the distribution of pure bred rams, the Provincial Department of Agriculture will secure and ship at cost, high class unregistered ram lambs at slightly higher than butcher prices.

6.—Mr. S. A. Logan, in charge of Sheep Extension Work of the Nova Scotia Department of Agriculture will, as far as possible, call on parties wishing help with their sheep flocks or requiring further information in regard to the increasing of their flocks.
