

Important to Separator Buyers

make the mistake of buying that the inexperienced buyer can't see the difference between cream separators.

can't see the difference in results, in quantity, quality of product, ease of operation, cleaning and durability, of course, with comparative use of different machines.

There is not a sensible anywhere who in comparison the DE LAVAL and her cream separator side-by-side—the design, action, finish, assembly and unassembly of simplicity, manifest of cleaning and all practicality—can appreciate the superiority of the DE LAVAL to the other.

when it comes to all test, every responsible person who wishes to have the free trial of a DE LAVAL machine at his home without advance payment or any obligation.

make so important investment as a cream separator without being that you are right? apply to ask the DE LAVAL local agent or write the Company.

WINTERS' PATENT'S PATENTLY SECURED

the business of Manufacturers and others who realize the advisability of their Patent. Charges transacted preliminary advice free. Charges of Inventor's Adviser sent upon request to Mr. Winters, New York Life Bldg., and Washington, D.C. U.S.A.

Remedy for Dyspepsia.

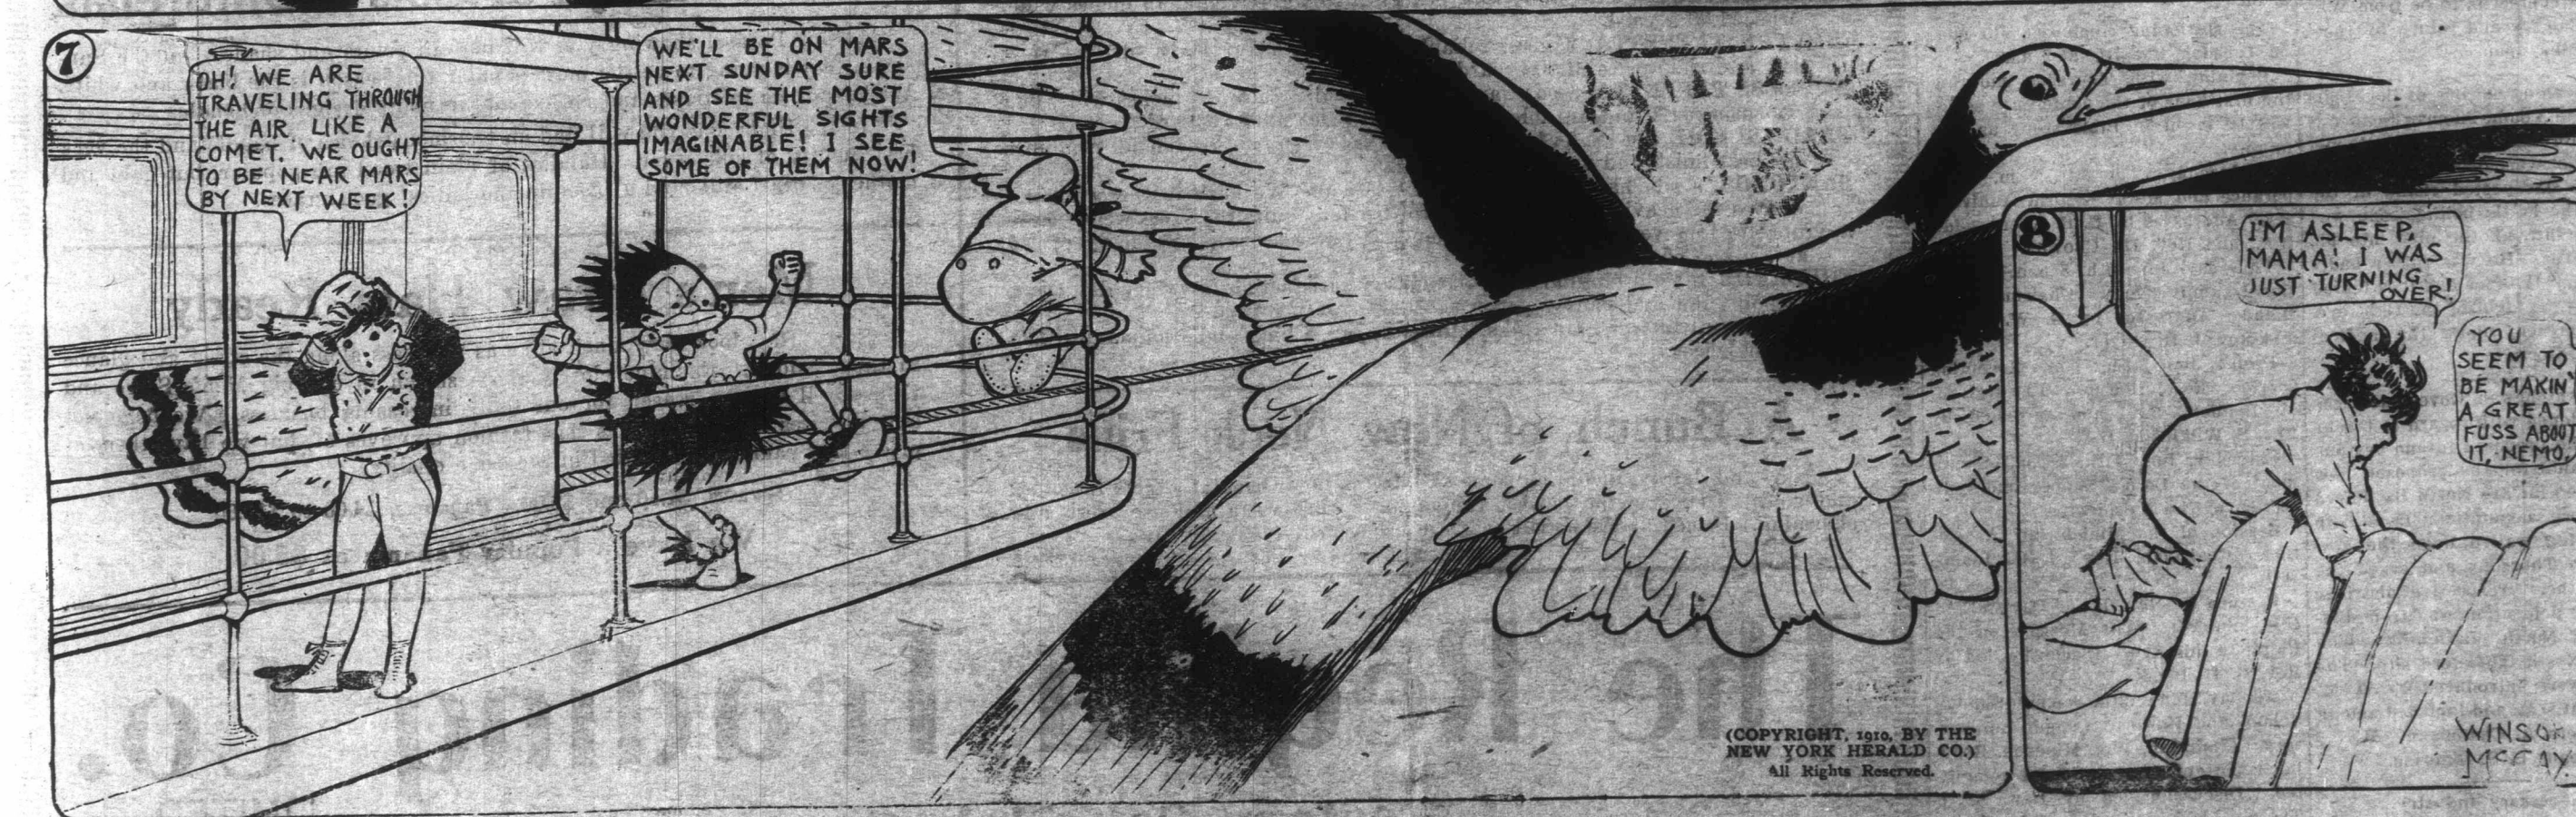

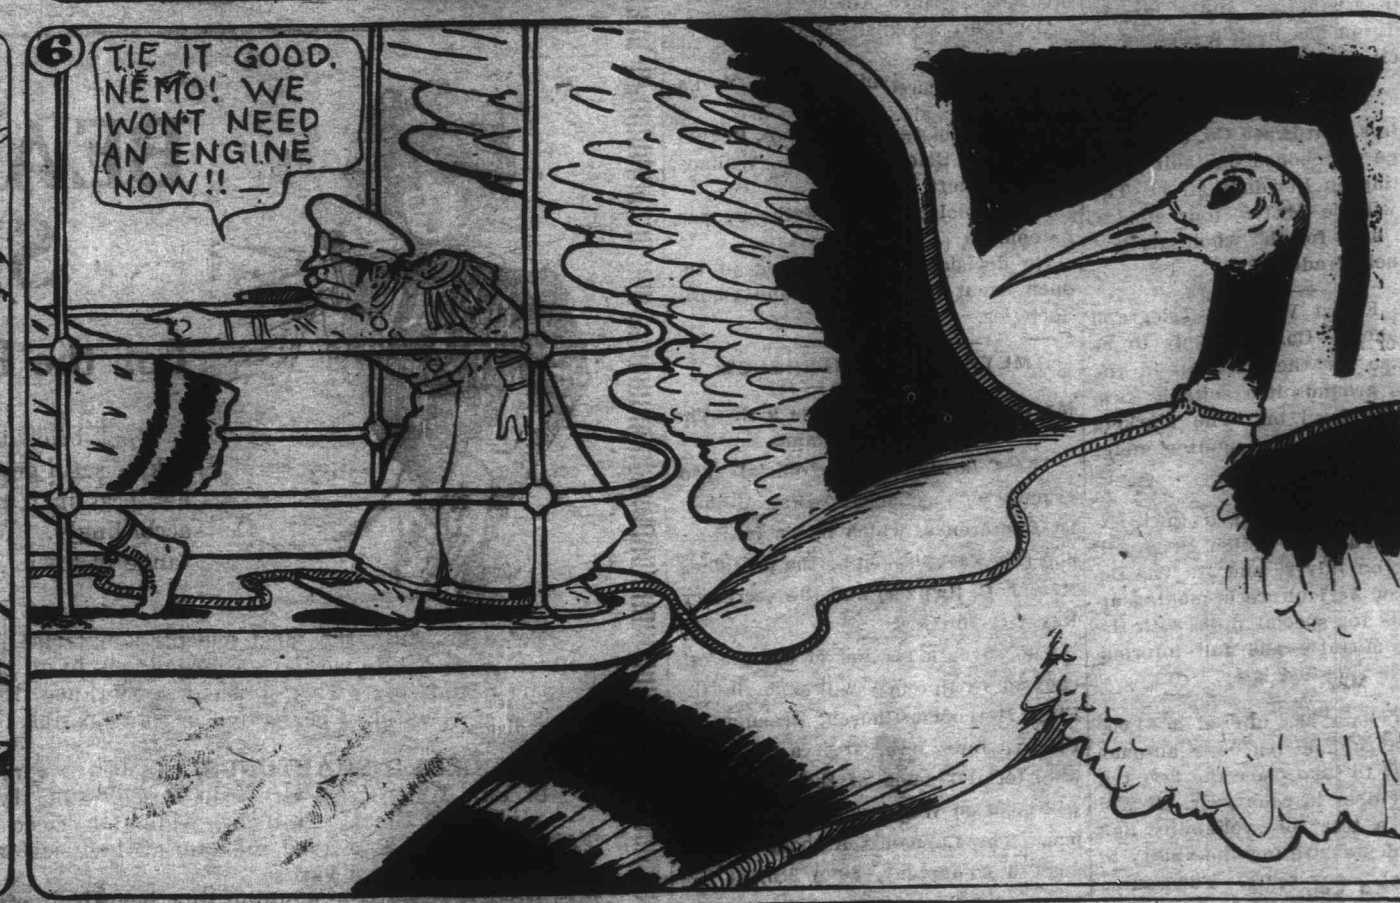

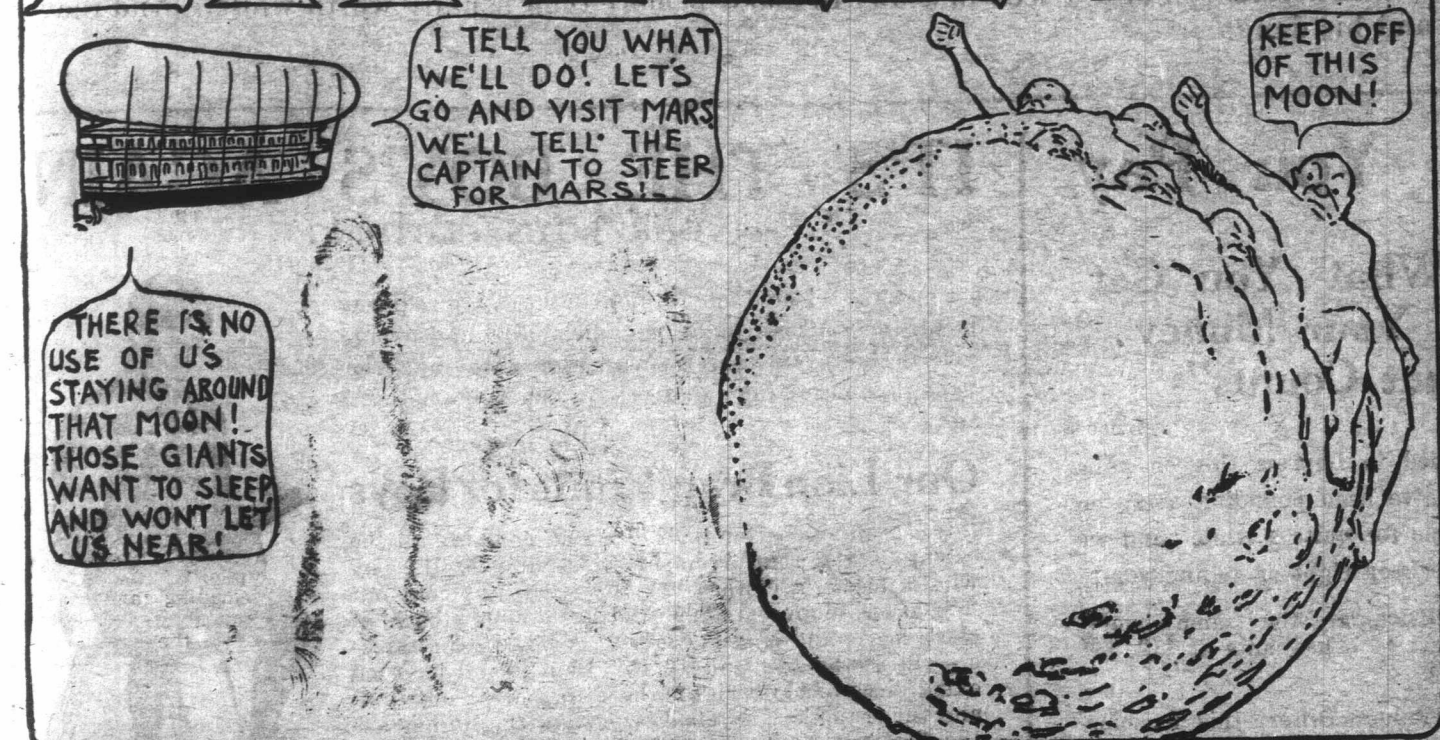

May 30.—In an interview James Grant, Ottawa, states that the application of electricity on the system was only in its infancy. A day was not far distant when the hands who were suffering from indigestion as the result of impurities of the blood will have such relief corrected to a remarkable degree by the scientific application of electricity and massage to the great blood centres. "I feel confident at the commencement of my recovery of the uses of electricity for years has been employed as a tonic than anything else."

Plowing Match.

A plowing match under the auspices of the Canadian Agricultural Society will be held on the farm of James Grant, on Wednesday, June 1st-2nd, on Wednesday, June 1st. The usual events will be plowing, and handsomeness will be awarded the winners. Mr. Motherwell and others will be present at the assembly.
