## HOWARD COUNCIL.

The Municipal Council of the township of Howard, met at the township hall, Saturday, June 1st, 1901, as per adjournment. All members present. Minutes of previous meeting read and adopted.

Communications.

From O. M. Arnold, barrister, Bruce bridge in reference to the state of repair of the Brown drain, stating

**IT IS EASY WORK**

when you are well, but when the back aches and the head throbs, a woman's work is hourly torment. No woman can be strong and healthy of body who is the victim of those womanly diseases which are often responsible for feminine sufferings. Women who have used Dr. Pierce's Favorite Prescription for the cure of diseases of the womanly organs, say that work doesn't tire them any more. "Favorite Prescription" regulates the periods, dries enfeebling drains, heals inflammation and ulceration, and cures female weakness, makes weak women strong and sick women well.

There is no alcohol in "Favorite Prescription," neither opium, cocaine or any other narcotic.

"I had poor health for nine years (ever since the birth of my child)," writes Mrs. Armitage Watkins, of Acme, Kansas, "and I was a feeble female weakness, was very irregular and would suffer untold misery. Our family doctor did not do me any good and I could not write to you. When I wrote I had no idea that I would ever get well, but when your letter reached me I began to have hope. I commenced taking Dr. Pierce's medicines as directed and began to improve in strength. I was soon able to do the work for my family of six. I think there never were such medicines in the world. I took eight bottles of 'Favorite Prescription' and five of 'Golden Medical Discovery' and two vials of Dr. Pierce's Pellets cure constipation."

that since the construction of the Brown drain—that his father's lot has been flooded each year, as they have taken down water and not given a proper outlet, asked to have same repaired so as to relieve said lot, if not, will persist in damages for loss sustained.

From Geo. M. Baird, clerk, Harwich, wishing J. C. Williams to have the ground staked on lot 1, con. 1, W. B. that will be required for grading at Kent Bridge, and appoint a day to meet at Ridgeway for the signing of agreement.

From the Wilkinson Plough Co., quoting prices for road planer.

From J. S. Boothroyd and David Wilson, re bridge east of Morpeth, stating that with some repairing will be perfectly safe for another year.

Petitions.

From John Dick and 24 others, asking council to pass a law prohibiting the use of public highways for the playing of ball or any other games that would interfere with the safety of public travel and the annoyance of passers by.

Accounts.

John Hitch, to 132 10-inch tile, \$7.92.

Jas. Hurst, to attending Court of Revision, \$2.00; to postage paid on notices, \$2.80; J. S. Boothroyd, attending D. & W. notices, \$1.50; J. C. Williams, locating ownership of two dead horses, \$1.50; Walter Cudmore, burying two dead horses, \$2.00; Jno. Green, getting road scraper and repairing same, \$2.00; Standard advertising Court of Revision, \$2.00; H. D. Smith, services as solicitor re Pangburn suit, \$13.00; Delos Myers, drawing tile and putting same in D. & W. \$4.90; M. C. Co., freight on two car loads of sewer pipe, \$33.65; Angus Smith, C. E., to plans, profiles, estimates in duplicate Crouch drain, \$135; Geo. McDonald, publishing and serving by law Crouch drain on the ratepayers of Howard and on the Reeve and ratepayers township of Orford, \$32.00.

The following persons addressed the council: E. Donahoe, J. B. Tape, W. H. Harris, Collins Handy, V. Springsteen, Chas. Gillard, John McKerricher, Thos. Barrett and J. C. Wilson, in reference to sheep killed by dogs, hoping that the council would adopt some method for the lessening of sheep killed by dogs; Ralph Gardner asking the council for the usual grant of \$50 to the village of Morpeth.

Donald Smith in reference to the charges on the west branch Bell or Crawford drain, stating that he did not understand the charges made on his assessment as he thought that when he signed the agreement for

\$25, it was the full amount, and hoped the council would deal justly with him.

F. Rache and Cyrus Craig, trustees S. S. No. 7, stating that there was some misunderstanding in the amount asked from 1900, and wished the council to borrow the sum of \$150.

Archibald McBrayne in reference to repairing road on con. 6, left with commissioner.

John McCully, Reeve, and George M. Baird, Clerk of Harwich, in reference to earth from F. Arnold, Mr. Arnold refusing to sign said agreement, as it was not in conformity with agreement signed by him on May 1st, at Kent Bridge.

Mr. Arnold also addressed the council in reference to the Brown drain, stating that the water is brought from the upper lands in Howard, and also water brought from Harwich, and was no better outlet than before the drain was constructed.

IN JUNE.

At night the garden calls me out; Through perfumed aisles I go. Red lilies with strange spotted cups Sway softly to and fro.

Great, dusky moths drift silently About the half-closed flowers, And from a deep-blue sky the moon Lets fall her silver showers.

Throughout the fragrant gloom, dear love, Each night I search for thee; Behind each clump of shimmering leaves I peer expectantly.

Into each corner, dark and still, Whence blackest shadows start, I seek for thee, and find thee, love, Nowhere but in my heart.

## A SEVERE TEST.

### Suffered Very Little Damage By The Hull Fire.

From the Evening Journal, Ottawa, under date June 7th, 1900.

Since many years "The Wrought Iron Range Co., limited," manufactures the "Home Comfort" stove, which they guarantee to be as resistant and durable as it is possible for the art and labor of men to make them. Their qualities have been fully shown on the occasion of the terrible Hull fire, the 26th of April last. There were eight of these stoves in that part of the city which was devastated by the conflagration; in spite of tumbling walls and chimneys, in spite of the water which flooded them, they were found perfectly preserved in the middle of the ruins. In one case, however, a cast iron pot which happened to be on one of these stoves, melted all over it; the bronze reservoirs were necessarily melted by the terrible heat of the fire and the fancy work was twisted by the fall of roofs and walls; but not a single piece of the main body was deformed, not a lid nor a single dish was broken nor cracked. The company has generously repaired these damages and returned these stoves to their owner in as good a condition as if they were new. The malleable iron and amiantum which enters into, as well as the method used in their manufacture, is what gives these stoves, the "Home Comfort Ranges," their admirable force of resistance. The chemical analysis and the mechanical experiences have proved that the malleable iron has against the heat, a force of resist-

ance twelve times and a half greater than cast iron has. The frame of these stoves, the doors and all of which is exposed to the danger of being broken, are made of that metal. The interior pipe and all the principal parts are carefully lined with amiantum, thus making them as durable, as strong and as perfect as possible.

The following certificate received from the proprietors of these stoves, confirm the above:

We the undersigned citizens of Hull, have bought before the last fire, Home Comfort stoves from the Wrought Iron Co., limited, of Toronto. These stoves were, during the terrible conflagration, exposed to the most ardent heat and we thought them entirely destroyed. After examining them, however, we found them well preserved, without any bump or displacing of any kind. A vase of cast iron left on one of them, we found all melted on the malleable iron lid on which it had been placed. The company most generously repaired them free of any charge and returned them to us in perfect condition. We do not know of any other style of stove which could have resisted this terrible disaster. Since our experience, we have no doubt whatever that the "Home Comfort Range" stove is without a rival.

Moved by Williams and Brien, that a grant of \$50 be made to village of Morpeth and Mr. John Duck be appointed commissioner to expend same.—Carried.

The young man stood before the great steel magnifying glass. A moment later the latter looked up.

He stared at the rough clothing, the muddled shoes and the unkempt hair of the youth.

"Wall!" he said.

"The youth retained his presence of mind. He wanted a job because he needed it."

"Sif!" he said. "I have come—"

He got no farther. A smile irradiated the magnate's face.

"That's all right," he said; "the job is yours. I was afraid at first that you might be one of those worthless college graduates."

And when the youth, the valetudinarian of his class and the pride of the university, again faced his mirror he winked expressively at his own reflection.
