THE ASSESSMENT.

Peterboro' will publish the assessment roll this year, to satisfy the curiosity of a lot of the ratepayers who are anxious to find out how their neighbors are assessed. Wore it not for the expense, this would be a good year in which to publish the Hamilton rolls. Rents have jumped up so high and assessments have been raised more or less all over the city, that it would be quite interesting for the people who pay the taxes to see the people who pay the taxes to see if they are getting a fair deal or not.

Hamilton Times.

And the same applies to Chatham. There have been marked changes in values in this city in recent years which the ratepayers are entitled to know have been taken cognizance of in the making of assessments. The publication of the list is not necessarily a reflection on the assessor. Indeed he should welcome it as an aid to him in getting information which may not now be open to him. If everybody knew what everybody's assessment was there would be less chance for the tax dodger getting in

GOOD FOR WHITNEY.

Mr. Whitney in the Ontario Legislature has placed upon record another of the stalwart declarations in the public interest for which he has become noted, observes the Ottawa Journal, one of our few genuinely independent papers,

"I am weighing my words," he said, "when I say that we will not submit unless compelled to do so, to the removal from provincial jurisdiction of railways within the province, particularly electric rail-

wavs."

The situation is this, the oJurnal explains: Realising that the Dominion Government and Parliament are easier game for private corporations and promoters than the Ontario Legislature, electric railway, companies, big and little, are coming to Ottawa to get Dominion charters which wil exempt them from powincial jurisdiction, One excuse for this is a lie. And it is a 1e which Parliament itsel' uters nearly every time it grants an application to have a local railway declared to be incompanied in the parliament itsel' uters nearly every time it grants an application to have a local railway declared to the leading decomposition of the game and will be companied in the Dominion statutes with a definite restricted meaning that a railway to which they are applied is of significance of the general advantage of Canada. So should everything be compensated him for. But hear this country is for the general advantage of Canada. But obviously when the phrase "for the general advantage of Canada. But obviously when the phrase "for the general advantage of Canada. But obviously when the phrase "for the general advantage of Canada because every enterprise under the sun in this country is for the general advantage of Canada because every enterprise under the sun in this country is for the general advantage of Canada because every enterprise under the sun in this country is for the general advantage of Canada because every enterprise under the sun in this country is for the general advantage of Canada because every enterprise under the sun in this country is for the general advantage of Canada because every enterprise under the sun in this country is for the general advantage of Canada because every enterprise under the sun in this country is for the general advantage of Canada because every enterprise under the sun in this country is for the general advantage of Canada because every enterprise under the sun in this country is for the general advantage of Canada because every enterprise under the sun in this country is for the gen

Conservative editors have a busy time of it telling the readers of their papers what a dreadful lot of spend-thrifts the Liberals at Ottawa are, but we have at least one satisfaction, viz.: If the Liberals are spending it, they are making it, and that is more than could be said for the Conservatives previous to 1896, when it was all spent, and the worst part of it was that what was spent was borrowed.—St. Thomas Journal.

The Lournal is at last shawing faint

The Journal is at last showing faint signs of intelligence. As it very aptly points out, the Government at Ottawa is making money and is also spending it. The Journal should have come out with the whole truth by adding that the people at whose expense the Government is making the money are the ones who are forced to stand the whole shot.

This label in all genuine 'Progress' Clothing Sold by Leading Clothler Throughout Canada

Mr. Bowyer, of East Kent, has introduced a bill for the abolition of the poll tax in cities, towns and villages. The impost is one of the most offensive of personal taxes and one of the most prolific in the proone of the most prolific in the pro-duction of lying and evasion. The bill one of the most prolific in the production of lying and evasion. The bill should pass with the smoothness of a and Sunday at her home here. knotless thread. - Windsor Record

Some of the aldermen appear think that house numbering will cost money. They surely didn't think some one was going to combalong and do it for nothing?

Rockefeller recently donated a large Rockefeller recently donated a large sum of money to a university. It was a very generous act on John's part, but we suppose that the subse-quent increase of one cent in the price of oil was only a coincidence.
