Weakness, Sterility, Leucorrhea, arising from internal ulceration, and Uterine

disease, Syphilitic and Mercurial diseases, Dropsy, Dyspepsia, Emaciation General Debility, and for Purifying the

This Sarsaparilla is a combination of

vegetable alteratives — Stillingia, Mandrake, Yellow Dock — with the Iodides of Potassium and I , and is the most efficacious medicine yet known for the diseases it is intended to cure.

Its ingredients are so skilfully com-bined, that the full alterative effect of

each is assured, and while it is so mild

as to be harmless even to children, it is

still so effectual as to purge out from the

system those impurities and corruptions which develop into loathsome disease.

The reputation it copys is derived from its cures, and the infidence which

prominent physicians all over the country repose in it, prove their experience of its usefulness.

Certificates attesting its virtues have accumulated, and are constantly being

received, and as many of these cases are

publicly known, they furnish convincing

evidence of the superiority of this Sar-

saparilla over every other alterative medicine. So generally is its superi-ority to any other medicine known, that

we need do no more than to assure the

public that the best qualities it has ever possessed are strictly maintained.
