Greatest Clearing Sale of the Season

For 2 weeks only, commencing Saturday the 22th, and ending Saturday July 6th. Our big spring trade has left many broken lines. The railway delivered some lines somewhat late, so we must sacrifice our profits to make matters right—no old shopworn goods. The public have confidence in our statements, and when we advertise special prices—the reduction is genuine—some lines are marked below actual cost, but we could not afford to do this more than once a season. Every department is teeming with money-saving opportunities, and you cannot afford to stay away
