#### No Cheap Coal.

Now that the Premier and two of his Executive colleagues, including the Minister of Agriculture and Mines, have returned from their latest picnic, perhaps they will give some attention to the performance of their pre-election pledges which affect the homes of the people. Excessive attention has already been given to the distribution of patronage, fees, and timber grants to rich and well-to-do members of the party. But promises which affect the well-being of the homes of the people have so far melted into thin air. For instance, the people at large have so far received cold comfort from the coal and fuel promises of the Premier. The patronage extended to the firm of which the Hon. J. C. Crosbie is a partner in the supplying of light houses and in the distribution of coal supplies to light houses will not warm any homes this winter. In his manifesto, Sir Edward declared that:

"The serious situation created by the present price of coal is so far-reaching, touching as it does every freeman in the colony, as well as every industry, that it becomes a national grievance. . . . A means must be found for effecting a reduction in the price of coal, and, if elected, we shall take steps to bring about such a result."

More than three years have passed since this pledge was made to the people, and now as another winter is approaching the people will have a telling, if comfortless, object lesson in pondering over the reductions promised when they are paying for the coal to keep them warm during the severity of the cold season.

Sir Edward was also going "to de-

termine once and for all," "by the exploration of our coal areas," "whether we can rely on them as an industrial and commercial factor."

Has he done so? If so, will he tell us once for all what he has determined. The evidence available so far is purely negative. There are no steamers being run, no machinery being worked, or houses being warmed, as a result of any exploration which Sir Edward has set on foot.

We hear of plenty of picnics, lashings of patronage, plenty of fees, millions of acres of timber, for the rich party man, but no cheap coal for the people.

It also conveys expressions of condolence and sympathy with the family of the deceased. At the funeral this afternoon His Excellency the Governor will be represented by Commander Woolcombe of H.M.S. ## Uncle Walt

THE POET PHILOSOPHER.

Another hope is gone to pieces, another "lion" was a sheep, and where he stood a spot of grease is—well may the sports wring hands and weep! The white man's feet are growing colder, he cannot find a "champ" that wins; and o'er the sea the swarthy holder MORRIS of Jeffries' laurels grins. This thing is true—and all men know it—the false "phenomena" are things to scorn; you cannot make a pug or pug—such birds as these are simply born. When Morris heard of how the dingie in a few short bounds brought Jeffries' grief, he quit his work upon an engine, and thought because he had some beef that he could bring us back the bacon and make our hearts with gladness jump, but now his heart and eyes are aching, as he sits brooding on the dump. And here there are some fruitful morals, if any wise man for them digs; so many men go after laurels who should be busy feeding pigs.

### Hon. W. T. White, Dom. Minister Finance

It may be remembered that we stated at the time we announced the Borden Cabinet we were unable to find the name W. T. White among the members returned to the Dominion Parliament. There was a Gerald White and a W. H. White. We thought that possibly there might have been an error in the transmission of the initials of the name. It now appears that the new Finance Minister is neither of these men, but a well known financier, who was not a candidate at the elections. Mr. W. T. White is the Manager of the National Trust Co. According to a message which appears from Toronto in the Halifax Morning Chronicle, a Liberal newspaper, there is dissatisfaction among some of the Conservatives of Toronto. Mr. Thomas Hook, President of Ward 3, Conservative, admits that a telegram conveying a protest was sent to Premier Borden. The following words are attributed to Mr. Hook:—

"The whole town will be up in revolution if Mr. Borden appoints a man who has been a Liberal all his life and who is a representative of the Trusts, to a place in the Cabinet. I know what is the feeling of my association."

Arrangements have been made for one of the Conservatives with a large majority to retire with the object of providing a seat for the new Finance Minister.

It is rumored also that there will be no contests at the bye-elections at which the new ministers will be candidates, and that Mr. Fielding and one or two other defeated Liberal leaders will not be opposed in seats whose members will retire to allow them to be elected to the Dominion House of Commons.

### Unknown Vessel Went Down.

Boston, Oct. 9.—Reports of a British barkentine in distress off Cape Sable, and the Bay of Fundy ten days ago have been received both in New York and this city, and the derelict destroyer Seneca made an unsuccessful attempt to locate the vessel. According to Capt. Goodwin, of the schr. Good Luck, the barkentine was sighted on the afternoon of Sept. 29 with distress signals flying and the crew at the pumps. The Good Luck ran down to within halting distance, but a heavy northwest gale prevented the launching of a boat.

Name Not Ascertained.  
The captain of the barkentine shouted that his own boats were gone. Captain Goodwin replied that he would stand by until morning for more moderate weather, and told the barkentine to hang out lights. Those on the Good Luck could not catch the name of the barkentine, but just heard the word "Bridgetown."

No barkentine halting from Bridgetown or Bridgewater, N.S., appears in the Maritime Register.  
The Good Luck cruised in the vicinity all night and shortly after midnight the lights disappeared. The next day all that could be discovered was a few spars floating in the vicinity.

### Duke Enjoyed Trip Across Atlantic.

Montreal, Oct. 9.—The Montreal Star to-day publishes the following wireless despatch:

"On board the steamer Empress of Ireland, via Malin Head, Oct. 8.—Fine weather continues to attend the Duke of Connaught's trip across the Atlantic. The Duke and his party are proving themselves the best of sailors and are enjoying every minute of the time aboard ship.

"The Star's correspondent was granted an informal chat with His Royal Highness yesterday. He found the Duke to be most affable and eager to discuss Canadian affairs. His Highness is apparently losing no opportunity to acquaint himself with conditions in the Dominion.

"Upon being asked if he had any message that he would like to send to Canada in advance of his arrival there, he replied, 'No, I could not give you an official message of any kind, as that would be contrary to etiquette. Earl Grey being still in Canada, official messages can only come from Ottawa. But everybody knows that I am most glad to return to Canada, whose acquaintance I first made forty-two years ago, and renewed in the nineties, while on my way to India. I shall be delighted to be in the Dominion once again.'

"I am officially informed that the winter programme of their Royal Highnesses will include visits to the important cities in Eastern Canada. The dates are at present unfixd.

"I have also been requested to state that the Duke is not going up to Montreal on his arrival at Quebec, because he feels that he could not do a visit to that city justice in the present circumstances of his divided establishment. He will, however, make an official and formal visit to Montreal at the earliest opportunity.

"The Duke is most popular with the passengers and the staff aboard ship. There is no attempt to isolate him from the other passengers, and he is a familiar figure on the promenade deck."

### Tells Others His Secret

Wants them to know how he was cured of itching, protruding piles by DR. CHASE'S OINTMENT.  
Doctors usually recommend the knife as the only cure for piles. They overlook the risk, the expense and the suffering of mind and body entailed in a surgical operation.  
Dr. Chase's Ointment will bring relief quickly and will cure thoroughly if you will but persist.

Mr. A. Honington, 63 Bronson Place, Montreal, Que., writes:—I cannot help praising Dr. Chase's Ointment as I suffered many years with itching and protruding piles, and was cured by this ointment. I became tired of the efforts of the best specialists to cure me, and hearing of Dr. Chase's Ointment just as I had of hundreds of other medicines began its use. But oh, great joy, at the very start the sharp pains left me and I was gradually cured. I hope that every sufferer will follow my example with the same success. Every form of piles or hemorrhoids is cured by Dr. Chase's Ointment. 50 cents a box, at all dealers, or Ed. Manson, Bates & Co., Toronto.

### Worked Overtime.

"You don't remember, I reckon," said the sour-faced man, putting his arms on the show case, "that I bought a clock of you twenty-five years ago?"

"I certainly do not," answered the elderly jeweller; "but I'll take your word for it if you say you did."  
"Well, I did. It was twenty-five years ago last Monday."
