In a Cottage Hospital

by George Trelawney is the book that the reading public in Great Britain is most enthusiastic about now, although just published a second edition is exhausted, with a third large edition in press. It is a epoch-making novel. It is hoped that this book will do for the sick poor of Britain what "The Jungle" did for the Chicago "linned meat" packers. This is not a novel for little people nor for fools. Extra special edition in cloth only 60c. sent post paid on receipt of price only.
