Fishermen!

This is the Jigger that catches all the fish all the time. Use an ordinary or wedge-shaped lead with two swivels and the jigger will spin like a Minnow.

It's marvellous how it catches so much fish. Used exclusively in Norway. Try it.

PUBLIC NOTICE

NEWFOUNDLAND PATRIOTIC ASSOCIATION EMPLOYMENT COMMITTEE.

The Employment Committee has been appointed by the Newfoundland Patriotic Association "to take into consideration applications for employment in civil life from returned Soldiers and Sailors of the Newfoundland Regiment and Newfoundland Royal Naval Reserve who have been granted honourable discharges." The Committee can only perform this duty to our returned soldiers and sailors with the fullest help and co-operation of all those in the Colony who employ labour or require help or service of any kind in which these men may be employed. The Committee will prepare and keep on file a register of all men seeking employment, giving their age, qualifications and experience, so far as possible, of each applicant. This information will be available to prospective employers, and steps will be taken to bring about interviews or correspondence between employers and soldier or sailor applicants. Every person or firm when requiring such help for either domestic or business purposes is therefore invited to communicate to the Committee the nature of the help required, and of the work to be done, and such other information as may be useful.

For the present the Headquarters of the Committee are at the Colonial Building, St. John's, and communications should be addressed to A. E. Parsons, Secretary of the Employment Committee.

Does Your Stenographer Use a LINE-A-TIME?

It enables her to increase her speed 30 to 50 per cent. daily and frees her from eye-strain, nervousness and headaches. And the cost is comparatively trivial.

The Line-a-time is made in a variety of sizes to support any "copy" from stenographer's note book to any size statistical report sheet, for billing, and copying from mailing lists, etc.

Stands on its base behind and separate from the typewriter, with an operating lever beside the keyboard. May be used on any desk with any typewriter, with a bookkeeping and billing machine, and with a check-writer.

A slight pressure on the operating lever with the right-hand little finger brings up the line next to be copied into view from behind the stationary line-finder, so that the line of "copy" being transcribed is on a level with the typist's eyes. Thus the typist is free from eye-strain, nervousness and headaches that go with following "copy" without a line-finder, or with one that moves.

It practically eliminates the making of errors in transcribing and copying, because it removes the condition that is the cause of errors.

Used by many of the largest firms in town. We will gladly send you one for a day, a week or a month free trial; no obligation to buy.
