Ancient English Universities.
FALL ON EVIL DAYS FINANCIALLY.
LONDON (Associated Press)—Oxford and Cambridge Universities, for the first time in their long histories, are unable to support themselves, and have called upon the public for assistance. This was disclosed in a report issued by the Royal Commission appointed under the chairmanship of ex-Premier Asquith to investigate the financial condition of the two institutions, which two years ago was admittedly so satisfactory that the Government granted each of them an emergency subsidy of £30,000 annually, thus saving both colleges from collapse. Including these subsidies, Oxford had an income of £224,710 in 1920 while that of Cambridge totalled £279,554. The Commission's report recommends increasing the annual grants to £100,000 each, with additional provisions for extending educational facilities for women and pension arrears. The commission stresses the point that to-day the universities have largely returned to their function of ministering to the non-wealthy student, and have, in fact, become "student democracies."

REPORT ASKS FOR EXTENSIONS.
In addition to recommending ample facilities for the education of women, the report pleads for more state scholarships, cheaper living costs and better pay, with pension prospects, for professors. Although the report regrets "the comparative neglect of living languages" at both universities, it notes that there is an increasing tendency on the part of businessmen to look to universities for trained men for future assistants and partners. It adds that "business salaries now offered to first-class science men would make it impossible to keep enough of the best men to do the teaching at Oxford and Cambridge, were it not for their devotion to academic research and teaching and their attachment to the university." As regards the cost of living for undergraduates, the report finds that it is too high. In 1920 the average total year's cost for an art student, including food but not clothes, washing, books, stationery and personal expenses, was £156 for Oxford and £145 for Cambridge. The cheapest college during that year was Oxford, £114; Cambridge £123. The dearest was at Oxford, £202; Cambridge, £172. Marquis Curzon is chancellor of Oxford, where the number of resident undergraduate students according to the latest statistics is 4,651, while at Cambridge, where Sir Arthur Balfour is chancellor, there are 5,733 students.

This Man Could Not Walk a Mile.
WILLIAM GRAHAM SHOUTS THE PRAISES OF DODD'S KIDNEY PILLS.
Here in 1919 He Searched in Vain for the Remedy He Needed Till He Started to Use Dodd's Kidney Pills.
Lindsay, Ont., April 4th (Special)—Mr. William Graham, who lives at 162 Queen St. here, is shouting the praises of Dodd's Kidney Pills. And when he tells the reason why the story is truly wonderful.
"I was hurt in 1919, Mr. Graham states, "the nerves in my left leg and arm were paralyzed. I was in such shape I could not walk a mile. I could not go out at night as I would be sure to fall over."
"I tried eleven doctors and used different liniments but got no benefit. Then I started to use Dodd's Kidney Pills and they did me a lot of good. Now I can walk fifteen miles. I recommend Dodd's Kidney Pills to all sufferers."
Dodd's Kidney Pills put the kidneys in shape to strain all the impurities out of the blood. That means pure blood. Pure blood means good circulation and that means new strength carried to all parts of the body.
Ask your neighbors if Dodd's Kidney Pills do not make strong, healthy kidneys.

Peru's Financial Condition.
TO BE REVISED.
Lima, Peru (A.P. Mail)—Millions of dollars in Peruvian gold, lying idle in government depositories here as a currency reserve, will be placed at interest in New York and London under legislation adopted by the Peruvian Congress to establish a federal reserve bank and revise the country's financial system. The reserve bank act, patterned after similar legislation in the United States, provides for an elastic currency which cannot be tampered with. Notes of the bank will be payable in gold in Peru, and in gold drafts in New York and London. The institution's reservoir of credit will be available to any Peruvian bank in an emergency, thus permitting private financial institutions to extend greater commercial accommodations from their gold resources. Dr. W. W. Cumberland, American financial representative of the Peruvian Government, will be a permanent member of the new bank's board of directors.

ANNUAL SERVICE AND PRIZE-GIVING.
The annual Festival was held on Thursday, 27th inst. There was Holy Communion in the Cathedral at 7 a. m. The Bishop was celebrant and a most helpful address was given by the Rev. E. C. Earp. A very large number of members were present. In the evening a delightful entertainment was held in the Synod Hall; a pianoforte selection by Miss Dorothy White; a dance by Miss Fern Morris, and songs by Mrs. Job. The little play "Pros and Cons" by Mrs. Baxter, Mrs. H. Outerbridge, Miss K. Frazer, and Mr. Karl Trappell was very much enjoyed. His Lordship the Bishop, who presided, thanked the performers for such a pleasant entertainment and distributed prizes to the members for their year's work. A letter was read from Lady Bertha Dawkins thanking the G.F.S. for their donation to the Princess Mary Fund. After the singing of the National Anthem, refreshments were served.

Betty Donn Pleases Crescent Patrons.
A FEAST OF SONG AND PICTURES.
Betty Donn, the charming Soprano, treated Crescent patrons last night to an excellent program of popular vocal items. Vocally, Miss Donn's work was a delight and her audience were loud in their praise as clearly shown by the huge plaudits tendered. This talented lady gives new life to each of her selections.
The Goldwyn picture, "Roads of Destiny," is really a tremendously and dramatic presentation of three complete stories, each subtly interwoven. In the North David Marsh takes a central part in a powerful Alaska drama which follows the course of the Iron Law Fate has willed him. Pauline Frederick plays the part of a roulette dealer in a gambling den. In the East, David is the young inventor, for whom a beautiful society favorite, played by Miss Frederick, sacrifices herself. The picture swings back to reality and culminates in a climax that is typically O. Henry in its electrical consequences. The supporting cast contains names that are a drawing-card themselves to all picture-goers.
