The Success of the NEW CHEVROLET
There were more New 1925 Chevrolet motor cars sold in Newfoundland this year than any other make—Why? Because in the New Chevrolet the public and experienced motorists recognised quality and strength not to be found in any car selling near the Chevrolet price.
The New Chevrolet has larger and stronger frame—new semi-elliptic chrome vanadium steel springs—stronger axles, rear axle of the finest construction, banjo type with greatly strengthened gears; improved, fully enclosed dry plate disc clutch requiring no lubrication and very smooth in action; extra heavy brake bands and many improvements on the powerful Chevrolet motor.
All models now finished in Duco—the new finish that retains its color and lustre almost indefinitely and withstands very hard usage. In the Chevrolet you will find many quality features that you would expect to find only on cars of much higher price.
Chevrolet cars have demonstrated their ability to perform most satisfactorily on almost impassable roads and especially in the Outports where roads are rough.
Chevrolets are equipped with 3-speeds forward. We will gladly send you a catalog upon request.
BERT HAYWARD, Water Street.
