Strikes in Windsor, Ont.—
General Labor Notes.

BRADFORD, Eng., April 13.—Ten thousand of the striking weavers assembled today for the purpose of protesting against the action of the municipal authorities in forbidding the meeting which the strikers had arranged for yesterday. The police tried to disperse the gathering, but their repeated charges on the crowd proved futile. Finally the authorities determined to take decisive action, and after the strikers had for the last time been ordered to disperse, and refused, the Riot Act was read and the military summoned.

The soldiers joined the police, and a combined charge was made on the strikers. A fierce struggle ensued, but the strikers were compelled to retreat before the bayonets and batons. The police used their batons freely, and many strikers were injured. Several of the police were hurt. The authorities arrested seven gladders. It is probable the strikers will attempt to hold another meeting to-morrow, and that the scenes witnessed to-day will be renewed. The streets of Bradford are in a ferment throughout the afternoon, and the police are on duty in force, despite the police efforts to disperse it. The police were met with showers of stones, which, however, inflicted only slight injuries. The constables' summoning of the military was the signal for a regular riot.

Windows were smashed, lamps were extinguished, and an organized rush was made to break the police ranks and capture the place of meetings. This effect, however, was ineffectual. The strikers continued, and the military, provided with blank and ball cartridges, appeared at 9 o'clock. A score of arrests were made. All the prisoners are being marched on their heads from scenes of police batons, and many police were injured, but no one had bayonet wounds. The rioters were dispersed with difficulty by marching and counter-marching on the roads, converging at the town hall square. Detective Martineau received six cuts on the head and his horse was killed under him by a stab.

Local opinion in regard to the dispute is divided. Citizens admit the square is a dangerous place for a public meeting, but think the action of the authorities was injudicious, and that the question ought to be tested in the courts.

STRIKES AT WINDSOR, ONT.
Windsor, Ont., April 13.—Tailors were not the only strikers on the streets of Windsor Saturday. The colored stevedores mingled their grievances with those of the cost-makers. Stevedores have been receiving 20 cents per hour for loading and unloading vessels. They now want 30 cents, but according to their spokesman are willing to abide by the dictates of the Executive Committee. Meantime, the first load of stone of the season arrived yesterday, and is awaiting the action of the gang.

IN THE COKE REGIONS.
Pittsburg, Pa., April 13.—Everything is quiet at present in the Pennsylvania coke region, but that is due wholly to the presence of troops. The strikers are cowed by the uniforms and arms of the soldiers, and will offer no violence so long as they remain.

It was expected that Friday's convention would settle the coke strike, but the resolution to continue the fight has had a depressive effect. The arrest of the rioters still goes on. At least 200 prisoners are out and over 100 arrests have been made. The coke regions around Scottsdale, Pa., were alive with strikers and meetings Sunday. The labor leaders are sparing no efforts to solidify their ranks and strengthen up wavering points. The labor leaders assert that money is all that is needed now to prolong the strike, as the only conditions that will cause a return to work on the part of the men are starvation and sickness.

Labor Notes.
The St. Catharines electric street cars were running on Saturday for the first time since the strike.

The leaders of the recent congress at Paris are arranging to appoint a general strike executive, composed equally of representatives of French, English, German and Belgian miners. They meet in Brussels during the coming general strike in Belgium. The conference of miners at Bochum decided that in the event of a strike in Belgium, unless German colonies engage not to furnish Belgium with coal, the German miners should also strike. The English delegates also guarantee to stop the export of coal. If the new system of carrying up coal in America weakens their position in the struggle with the masters to executive will open communications with the American unions.

The employees of the Westernfield's cutlery works, Sheffield, have struck against a reduction of five per cent. in wages.

Lambton.
The first engine passed through the St. Clair tunnel on April 9.

The four locomotives for use at the tunnel are the largest ever built in the world, and were built at the Baldwin locomotive works in Philadelphia. There are five pairs of 50-inch driving wheels on each side of the boiler, extending over the two tanks. An idea of the enormous size of the monster engines may be formed from their weight. Each one with the water tanks filled and the starting supply of coal on board weighs 200,000 pounds, the average weight in running order, with tanks about half filled being 180,000 pounds.

The rails upon which they will run will weigh 100 pounds per yard. The length of the tunnel track which they are built to run over is only about four miles. They are designed to pull trains up the steep approaches at the tunnel. It requires about three ordinary locomotives for each train.

Zera Semon's Show.
The audience which welcomed the return of Zera Semon, the magician and ventriloquist, at the Grand Opera House last evening was a decidedly appreciative one. His show is almost completely remodeled and had many attractive specialties. The musical artist, Prof. Joseph Lee; Tommy Pultz, the smallest and most remarkable nondescript comedian in America; Edgar Nelson, Egyptian character juggler, in new acts; Reed brothers' wonderful shadowgraphs and the professor himself were all good. The best part of the show, though, was the exhibition of the "black art" by Sahib Ben Hommid, a large number of wonderful tricks and clever sleight-of-hand work being introduced. Johnny Thomas was a kindergarten school.
