TORONTO. Toronto, Ont., May 22.-The Toronto cattle market today was a poor one. Recipts were 59 cars, including 2,700 hogs, 252 sheep and lambs, and 138 calves. There was scarcely any buy-ing for Montreal. Export cattle were slow. Reports from Britain were bad and dealers here are advised that prices in France and Belgium have fallen off to the extent of 10 cents per head. This had a depressing effect on trade. The demand for export cattle was slow, and very few sold at over 4c per lb, while ruling prices were \$3 75 to \$3 90 per cwt for good cattle. In butchers' cattle the very best sold at 3c per lb, and only a few sold higher than that. Medium sold at 2 1-2c to 2 3-4c, and common at 2c to 2 1-4c per lb. Sheep and lambs were dull. There

was practically no demand for them. Good grain-fed yearlings and lambs were steady at 4 3-4c to 5c per lb; spring lambs sold well at \$3 to \$4 Calves were steady at \$3 to \$5 each. Bulls quiet and prices nominal at 2 3-4c to 3c per lb. Stockers and feeders were not offered in any quan-

tity, and good feeders were quoted at \$2 75 to \$3 50 per cwt, and light stockers at 2 1-4c to 2 1-2c per lb.

Hogs were firmer for best bacon at 4 1-4c per lb. Heavy, thick, fat dull and not wanted; they were quoted at \$3 50 per cwt. Stores steady at 3 3-4c to 4c per lb. Sows for breeding purposes, 3c to 3 1-4c per lb; stags and rough hogs, 2c to 2 1-4c per lb, and not wanted.

HORSE MARKET. Reviewing the horse market outlook, the New York Herald sizes up the situation in a few words, as follows: "There is nobody in the horse business just now doing any worry.

ing. It is many years since there was such a genuine demand for good horses and at really good prices. This has been brought about mainly by three prime factors: First, the restrictions in breeding operations, which are now beginning to tell; second, the fact that the number of ose who can afford to buy and drive high-class horses are continually the increase; thirdly, and lastly, everything that Americans are smart enough to secure is gobbled up by agents for English and European

the St. Clair tunnel at Port Huron. Have a photo taken of your residence. Cooper & Sanders can do it.

Aldermen and Shade Trees. The London aldermen seem inclined

to temporize with the maple tree borer. They make a great mistake. No half-way measures, such as the council proposes, pointed agents, and at the corporaion expense. Even if some citi-

zens do purchase the liquid for the treatment of their trees and apply it, the borer will still be permitted to continue its destroying | sne was a nighty esteemed to South London Yarmouth, removing to South London work on others, and in this way hundreds of trees will be destroyed. We believe that less than \$1,000 now spent would save the trees, whereas if this is not spent, this valuable civic asset, which is worth to the city hundreds of thousands of dollars, may be destroyed in a short time. It will be a disgrace to our civic managers if this turns out to be the case. Again, we say that co-operative stamping out, and not voluntary effort, can alone Thames 5 cents each way, so that pasaccomplish the necessary work.
