Annual Report of the Medical Health Officer to the Board of Health—Delin-quent Dealers Will Not Be Licensed— The Garbage Crematory Matter Re-terred to the New Board.

At the last meeting of the Board of Health of 1892, held yesterday afternoon, Dr. T. V. Hutchinson, medical health officer, submitted the following

Albany, N. Y.

"I Owe My Life to Hood's

Sarsaparilla "Words are powerless to express the grati-ade I feel toward Hood's Sarsaparilla, for under God, I feel and know that to this medi-

the I over my Hic. Twelve years ago I began to bloat, followed by nausea at the stomach, and later with swellings of the Himbs, accompanied by severe plan. This gradually grew worse until three years ago. Physicians told me the trouble was

Caused by a Tumor

For several months I had been unable to retain any food of a solid nature. I was greatly emaciated, had frequent hemorrhapes, and was satisfied the doctors were right in saying ny life was nearly over. One day a friend suggested that I try Hood's Sarailla: I did on, and for 3 or 4 days I was slicter than ever, but I kept on and gradually began to feel better, but I kept on and gradually began to feel better.

I Began to Feel Hungry

Could, after a time, retain solid food, increased in weight, the saffron hue left my skin, the bloating subsided, and I felt better all over. For the past two years my leadth has been quite good, and I have been all the time to the housework for my famile all the time to do the housework for my famile. After what it has done for me I never head to recommend Hood's Sarsaparlia." MRS. HOLD SYNDER, NO. 10 Judson Street, Albany.

CURLING.

AT HIETICS.

To the Chairman and Members of the Board of Health:

I herewith submit report of inspection of dairies, herds and milk, for the last half of the year 1892. The names of venders are given in the order of merit, commencing with those having the highest percentage of butter-fat. It is perhaps unnecessary to remind the public that where herds are not kept clean or only partially clean, clean milk cannot be expected.

John Sifton, Deleware—Percentage 4.80, C. W. Hourd, 'Westminster—Herd in fair condition and clean; average percentage of two samples 4.50.

At HLETICS.

FOUGHT 106 ROUNDS WITH BARE KNUCKLES. A bare knuckle fight to a finish under old-time rules and conditions has turnished one of the latest sensations in English pugilistic circles. The principals were Denny O'Brien and G. Totchener. The latter had the worst end of the contest, but persevered pluckly until his seconds mereislly tossed up the sponge after 106 rounds. The fight came off at the "old mill stream," outside of London. O'Brien proved the stronger and eleverer, and scored repeated knockdowns. He had also the best of the in-fighting and wrestling. The only one not satisfied that the better man received the decision was Tetchener, who raised a rumpus when the sponge was thrown up, and could not be consoled until O'Brien promised to give him another battle at an early opportunity. On the threshold of 1893 we look forward with great expectation; we look backward with complacency. The year of 1892 was very kind to us. Our business was payer so large. Old us. ness was never so large. Old customers continued their generous favors; new customers came to us by the score. The "old year" made a great hit for us. It year" made a great hit for us. It gave us active business life, tremendous energy, greatvolume of trade. It gave us a chance to increase our facilities by the addition of another large store, and it clinched the fact that ours is beyond doubt the favorite drygoods house in London. A glance of Parliament, and Mr. Masuret hoped that it would pass almost as it was at present it clinched the fact that ours is beyond doubt the favorite drygoods house in London. Aglance at our store will bear us out in these assertions, and a glance at these figures will convince why our house is the favorite:

ULSTERS ONCE \$8 50 SELLING AT 85.

ULSTERS ONCE \$8 50 SELLING AT 85.

ULSTERS ONCE \$12 SELLING AT 85.

ULSTERS ONCE \$15 SELLING AT 85.

Throughout our Cloak and Mantle Department similar reductions have been made, and each purchaser of goods to the value of \$1 or upwards will be presented with a Standard Pattern. These patterns are the best made.

As our business has been built up on the broad and sure foundation of acceptable service and trustworthy methods, without bombast, we shall continue to do all that can be done with money, with special skill and restless, constant effort to make

money, with special skill and restless, constant effort to make our store the ideal shopping

AMONG THE MALAYS.

Java as a Possible Market for

Canadian Products. Interesting Information Placed Before the Board of Trade.

Action of the Council in Regard to the L. and P. S. R. Indorsed—The Amalga-mation of London West Discussed -The "Advertiser" Comes in for Compliments.

At a meeting of the Board of Trade last evening Capt. Waldeck, of Java, spoke of the trade relations between Canada and Java. He had met a number of importers and exporters in this country, and said that the export charges between there and Canada were very low. In the Board of Trade room in Java there was a sample room, to which samples of all exports and imports were sent. England was the principal place of import from Java. The tariff rate in Java was very much lower than in Canada. Ten per cent. on pianos and such articles, and 6 per cent. on provisions were the only tariff rates there, while in Canada the rates were 25, 35 and 40 per cent. and even higher. Coffee, rice Bellett Mackhon, Westminster-Herd in day State of the Control of the of the Con

ing cartage charges might be made to meet the views of the different boards of trade. The beard took no action on the matter, Mr. Hobbs reported on behalf of the joint committee of the board and council. He explained that the London and Port Stanley Railroad was being leased to Cleveland capitalists and mentioned the principal terms of the agreement. There seemed to be a concensus of opinion in the committee that the city should derive some revenue from the street railway company. The opinion was expressed that there would be more inducement for people to move to London if the rate of taxation were 18 mills on the dollar than if it were 20 mills, with reduced rates on the street railway. The chairman reported that he and Mr. Hobbs had interviewed the Ministers in Ottawa regarding the proposed insolvency act. They were courteously received and their request favorably regarded. The matter would come up at the next session of Parliament, and Mr. Masuret hoped that it would pass almost as it was at present framed.

of the general freight agents of all the lines in Canada such changes in the tariffs affecting cartage charges might be made to meet the views of the different boards of trade. The board took no action on the matter. Mr. Hobbs reported on behalf of the joint committee of the board and council. He explained that the London and Port Stanley Railread was being leased to Cleveland capitalists and mentioned the principal terms of the agreement. There seemed to be a concensus of opinion in the committee that the city should derive some revenue from the street railway company. The opinion was expressed that there would be more inducement for people to move to London if the rate of taxation were 18 mills on the dollar than if it were 20 mills, with reduced rates on the street railway.

The chairman reported that he and Mr. Hobbs had interviewed the Mnisters in Ottawa regarding the proposed insolvency act. They were courteculy received and their request favorably regarded. The matter would come up at the next session of Parliament, and Mr. Masuret boyed that the order of Parliament, and Mr. Masuret boyed that the order of Parliament, and Mr. Masuret boyed that the order of Parliament, and Mr. Masuret boyed that the city. He thought that municipality would get the advantage of the city. With such a small population three aldormen were almost too many. The matter of agood deal of money and nothing wards Mr. Campbell was grieved to know that all but one of the members of the finance committee of 1892 had been left at home, and all the manufacturers had also been defeated.

Mr. J. Campbell "That the Board of Parde tender the Apvertise Printing company a very hearty vote of thanks for

home, and all the manufacturers had also been defeated.

Mr. T. R. Hobbs seconded the motion and it carried.

Mr. Farker was asked to take the chair, and Mr. Masurer spoke regarding the amalgamation of London West, a nice little village with practically no improvements and sidewalks. And then the breakwater was worth almost nothing. The matter of annexation had not been submitted to the electors of the city. With 300 electors they should not have three representatives in the council. He was sorry that the council of 1892 could not complete the London Street Railway matter. He argued that the city should receive a revenue from the company.

Ottawa he heard the Advertiser complimented in this respect. The Ottawa Free Press was adopting the plan and advertising Ottawa in a similar way.

A hearty vote of thanks was tendered Mr. J. D. Clarke for an article written by him at the request of the board and published in the British journal, "Greater Britain."

Mr. Clarke replied briefly. With reference to the article he had written he said that he was only too glad to respond to any request from the London Board of Trade to aid in setting the splendid position of this city before the world; but in future some other members should take a hand, whose duties were not so engrossing. It was gratifying to the Advertise to promote the interests of the city and advertise it in other localities were appreciated by such a body of men as constituted the Board of Trade. The Advertise being as much interested in the progress of the city as any other institution within its bounds, was always glad to aid in the promotion of its general welfare. Though but a few weeks had elapsed since it began the publication of the summary of London's advantages and attractions, he was glad to find that already it had caused widespread interest, and
