

SULLIVAN GIVEN FIVE MONTHS' DIP

Bought Whisky for Indians and Was Convicted—Other Cases.

Timothy Sullivan will not bask in rays of the sunshine on the Market Square this winter, as he has done for many winters in the past, owing to a little scheme of his which failed to materialize.

Just a week ago today Tim was enjoying his freedom in his favorite haunts.

Two Oneida Indians happened along and informed Timothy that they want a firewater. Tim said he was the man to get it, and they gave him 35 cents. He purchased one bottle, and the two went over to the Market House and drank it.

All agreed that it was good, especially the red men, who wanted more. Again Tim said he was the man to get it for them. While he was gone Tim had an idea. Why not keep it all and drink it himself?

Sullivan is a man of action when the consumption of whisky is concerned, and in vain the bravest waited in the dark corner of the market house for his return.

After an hour or two the Indians started on the warpath after Tim.

He was nowhere to be found, so they told their troubles to a policeman, and laid a charge against one Timothy Sullivan for procuring them liquor.

Tried It on Colored Man.

In the meantime Timothy was having a great time.

The success of his scheme on the Indians induced him to try it on others. He met a colored friend of his named Harris, and Mr. Harris also sent Tim to buy a bottle of whisky.

They drank it and then decided to buy another.

Once more Sullivan disappeared, and Mr. Harris was left waiting at the market.

The police by this time were watching for Sullivan, and about 4 o'clock in the afternoon rounded him up.

At the court this morning there were two Indians, Wesley Elms and Samson Cornelius, and one colored man, Frank Harris, who were extremely anxious to give evidence against Sullivan.

Mr. Harris was somewhat of a surprise to everyone, especially to Sullivan, but more especially to Mr. Sullivan, son, father of Timothy.

Mr. Sullivan, son, was under the impression that Mr. Harris was going to testify something in his son's favor but when he unfolded his story it only piled up evidence against the prisoner.

Magistrate Love said he was afraid there were a number of men in town who bought whisky from Indians.

Will Protect Indians.

"I intend to protect these people," said his worship, "and as an example to others not to engage in this sort of business, I sentence you to five months in the Central Prison."

Other Cases.

Edgar Fletcher was drunk and disorderly and annoyed people on the street by his remarks. Mr. Fletcher paid \$5 for his offense.

Charles Tagg paid \$1 for riding a bicycle on the sidewalk.

In the juvenile court eight small boys appeared charged with playing football in the street. They were let go with a reprimand, the magistrate remarking that it was a pity there were no public playgrounds or lots where the little fellows could play.

HOW'S THIS MR. SKEPTIC?

An Incident That Goes to Prove Honesty of London's Butchers.

Everybody has heard of short weights in bread, in butter, in potatoes, and, in fact, in almost everything that we are compelled to buy. But who has ever heard of the short-weight butcher?

The butchers of the London market are proud of their reputation for honesty, and point with pride to an absolutely clean slate on that score.

This morning as a well-known Dundas street butcher was driving through the market, he saw a customer of his purchasing vegetables. "I say," he yelled, "I made a mistake of three cents in change with you this morning, and if you will call at the store, we will make it right."

A skeptic, who happened to be an eyewitness of the incident, threw up his hands in surprise.

"We'll have to hand it to the butchers," he said.

Married in Toronto.

On Nov. 2, at the residence of Mrs. Burnam, Toronto, Mr. W. C. Turkel, of Arva, Ont., was united in marriage to Miss Violet Hubert, of Midland. The bride, who is a dainty of cream, looked charming in a gown of cream cashmere, with lace and chiffon trimmings. After receiving the congratulations of their friends, Mr. and Mrs. Turkel left, amid showers of rice, for their home on 403 Dufferin street, where they will be at home to their friends after Dec. 1.

The Divorce Bill.

Detroit Free Press: Esther Milnes, married to John Milnes, Leanington, Ont., in March, 1894, testified in the divorce court Monday that her husband deserted her in 1898 and had contributed nothing to her support or that of their daughter.

Pauline Wirth, aged 18 years, went to Windsor on March 2, 1907, and was married to Albert Rieger, aged 20 years. She said that when she went to Windsor, she didn't know she was going, and didn't realize that she really was being married, because Albert had told her that "a marriage in Windsor did not mean anything." Pauline was 17 years old at the time. She also said that just after the ceremony, up on finding that she was married, she went straight home to her mother in Detroit and has remained there since. Pauline's mother appeared as complainant, asking for annulment of the marriage.

Niagara Power.

Toronto Globe: The engineers of the hydro-electric power commission have completed the surveys for the main transmission lines from Niagara Falls to the municipalities in the Western Power Union, and are now engaged in the survey of several of the branch lines. The main lines are from the Falls to Hamilton, from the latter place to Toronto, from Hamilton to Brantford, Woodstock, Ingersoll and London, and from Hamilton to Guelph, Hespeler, Galt, Berlin, Stratford, St. Marys and London. It will thus be seen that, as stated in The Globe of a few days ago, a loop system is contemplated in the event of all of most of the municipalities being decided upon the adoption of the power scheme. As the lines would be duplicated a breakdown in the service would be a practical impossibility. The total length of the main loop will be about four hundred miles. The branch lines for which surveys are now proceeding are from London to St. Thomas, from St. Thomas to Brantford. It is thought that these will be finished in about fourteen days.

The King of Siam has become Europeanized in most respects, but he still maintains a large harem in a special town, to which no man but himself is ever admitted.

DR. ENGLISH AND THAT ASYLUM JOB

Says There Is Nothing Doing So Far as He Is Aware.

Dr. English was in the city this morning and stated to The Advertiser that he was somewhat uncertain regarding the rumor that he was to be appointed head of the asylum in this city.

"It is impossible to say at present just what changes will take place," said the doctor.

Regarding the appointment of a London nurse to a position in the Hamilton Asylum, Dr. English said that he had written to Superintendent Heard asking him if there were any nurses he could recommend for the position.

No appointment has as yet been made.

When questioned regarding the matter Superintendent Heard said that requests for graduates from Victoria Hospital to fill positions were quite frequently received.

He had suggested to two young lady nurses, Miss King and Miss Wilson, that they write Dr. English, as he thought they were quite competent to fill the position.

"We receive quite a number of requests, especially from American institutions," said Mr. Heard, "asking if we have graduates for good positions in hospitals on the other side. All the nurses we have recommended have given excellent satisfaction."

ENGINEER EDWARDS SEVERELY INJURED

Had Leg Badly Crushed at G. T. R. Depot.

Engineer Edwards, of the Grand Trunk, had his leg badly crushed yesterday afternoon at the Grand Trunk depot about four o'clock. No bones were broken, and it is expected that he will be on duty in a week or so.

He was preparing to take out the engine to fix something. The fireman apparently did not miss him, and backed the engine a little. Edwards' knee was caught between the tender and the baggage car, and was crushed.

Dr. Seaborn was called in, and the man was taken to his home.

WILLIAM WATSON HAS PASSED AWAY

Well-Known House Mover Dies After a Short Illness.

Mr. William Watson, an old and esteemed resident of this city, passed away at his home, 194 Hamilton road, yesterday, after a short illness.

The late Mr. Watson was 79 years old, and came to this country from Aberdeenshire, Scotland, 60 years ago. For a short time he lived in the United States, but returned to Canada, and for more than thirty-five years had been engaged as a house mover, a business which he founded in this city.

Mr. Watson was a Liberal in politics and a member of the Presbyterian Church.

Mr. Watson is survived by three sons and five daughters, William, of Detroit; John, of St. Thomas; James, of London; and Elizabeth, at home; Mrs. Wm. Brown, Mrs. John Mooney, and Mrs. A. Dunham, of this city. The funeral will take place from his late residence on Wednesday afternoon to Mount Pleasant Cemetery.

A GREAT SHOE SALE

The Big Neill Stock Thrown on the Market.

We call the attention of our readers to the splendid half-price advertisement on page 8 of today's Advertiser. The entire stock of today's old and well-known Neill Shoe Stores, 123 Dundas street, and 8 Market Square, is now in the hands of C. M. Grover & Co., Canada's greatest bargain givers. We understand that this stock is valued at about \$30,000, and must be sold in 30 days.

A careful reading of their advertisement will convince the most skeptical that the prices of all kinds of footwear, trunks, bags, suitcases, etc., are lower than the wholesale market prices of such goods today. It certainly seems to us that every buyer will find good goods and good values at this sale, which opens on Thursday morning at 10 o'clock.

THE SEWALL TURNS UP

Ship Was Eight Months in Sailing From Philadelphia to Seattle.

Seattle, Wash., Nov. 4.—The four-masted ship Arthur Sewall, which left Philadelphia in March for Seattle with coal, was reported off Cape Flattery today, and is expected to enter the straits within a few hours.

The sighting of the vessel relieves anxiety over her, since the steamer Prior sighted the wreck of a four-masted bark in the Straits of Magellan Aug. 1. From the description of this wreck it was believed to be that of the Sewall, and high premiums were offered for her reappearance at Lloyd's.

Since the Arthur Sewall is safe, the mystery of the wreck which the Prior sighted in the Straits remains. The crew lay between Cape Pillar and Horn Island, halfway between Cape Horn and Cape Pillar, off the southwest coast of Terra del Fuogo. Even if the crew of the wrecked bark reached shore it would have been difficult for them to reach civilization. The land about is uninhabited, and ships rarely pass that way, except occasional sealers.

CAN'T GET MONEY TO MOVE CROPS

A Decline in Prices Causes a Serious Financial Situation at Winnipeg.

Winnipeg, Nov. 4.—A special to the Toronto Globe says:

The unsatisfactory condition of the grain market is arousing general apprehension throughout the west, and is hampering business severely. The buyers shift all responsibility for the situation upon the banks, who, they claim, will not extend the necessary credits, but, on the other hand, the banks absolutely deny that it is due to any action of theirs. In the meantime, however, farmers find themselves forced to sell their grain on a declining market, with practically no buyers for cash at a time when low grades must be rushed forward in order to prevent loss. The damp and tough condition of the bulk of the wheat aggravates the situation, as it practically prevents storage in primary elevators, and the unheard-of spread between cash and track makes it almost impossible for the farmers to sell at present, and to obtain the money necessary to discharge their obligations, which they must do.

Elevators have been threatening to close at many points, and while this curbs and we do not see any practical effect through the system adopted of making the spread between cash and track wheat practically prohibitive for transactions in the former.

The Ogilvie flour mills and the Lake of the Woods Milling Companies told the Globe correspondent tonight that they are not buying any grades of wheat below No. 3. They cannot get cash sufficient to handle it without seriously hampering them in their purchases of milling grades, when such are offered. The manager of the Ogilvie Company stated that while the export basis had remained practically unchanged for ten days, assuring them the great profit of four and a half to five cents a bushel, they found themselves unable to take advantage of this remarkable opportunity, because the necessary funds were not available. He sympathized with the banks in their position somewhat, but could not see why they did not co-operate with the dealers in getting wheat across the lakes and thus securing the return of the cash.

"The Western Canada Flour Mills Company has ceased for the present to buy wheat." This is the official statement of Mr. W. J. Lindsay, manager. When asked regarding the case Mr. Lindsay said: "It is true that we have ceased for the present to buy wheat. Our reason is that we have about \$1,000,000 tied up in wheat at present, and are not care to get in deeper on a falling market, particularly in view of the general financial situation. Farmers are themselves partly to blame, for the new grain act is hard on the elevators, giving the farmers and the privileges to an extent that hampers our smaller elevators."

"Some firms have stopped buying inferior grain, while taking the higher, but we do not make any discrimination, and so for the present we will refuse it."

Conditions, it will thus be seen, are very different from those which prevailed in former years, when the elevators and grain-buying companies secured sufficient lines of credit to enable them to deal largely in cash wheat. The effect of the new order of things will be, of course, to compel buyers to turn over the wheat quickly, and greatly to increase the volume of business done on a commission basis. Grain stocks, in short, will have to be liquidated at whatever price they will bring in order that the liabilities may be met.

It is a situation well calculated to arouse anxiety in all departments of commercial life. Banks may argue as they like, but the fact about which there is no question is that the exigencies of the financial situation have compelled the revision of a system by which the former grain crops have been marketed and have brought about the conditions which make it difficult for the grain-buying company to buy grain for speculative purposes unless they have themselves sufficient financial resources to fortify the enterprise.

YOUNG HEINZ ELOPES

Pittsburg, Nov. 4.—Another young Pittsburg millionaire has been captured by a poor but pretty nurse, Clifford S. Heinz, youngest son of H. J. Heinz, who, according to the information made public and printed here this evening, on last Saturday eloped from New York with Miss Virginia Campbell, a trained nurse, to New London, Conn., where they were married. They are supposed to be now at the Jamestown Exposition.

Mr. Heinz, the father, is fairly proscribed over the story, and is confined to his room.

M'LOGLEN DEFEATED

South African Wrestling Champion Loses to Dr. Roller.

Tacoma, Nov. 5.—Dr. R. F. Roller, of Seattle, Wash., threw Sharkey McLaglen, the South African champion, twice last night in forty-two minutes of fierce and clean wrestling. Dr. Roller won the match on superior strength and skill. The first throw McLaglen made, and the second fall came after a fifteen-minute struggle, and resulted from a scissors hold with the legs about the neck and a body hold. Dr. Roller used Gotch's toe hold and a knee hammer-lock to throw McLaglen the second time. He threw McLaglen three times through out the match. He repeatedly broke seemingly deadly holds, but combined little science with his great strength.

Analysis of Strong's BAKING POWDER

by the analytical chemist of the Dominion of Canada.

"Strong's Baking Powder is found to have very high aerating power. It is a cream of tartar powder, containing no alum or phosphate, and it is not adulterated."

Alum baking powders are sold to consumers at from 10c. to 20c. a pound. So detrimental to health are alum baking powders considered that in many countries their sale is prohibited. Strong's Baking Powder, 25c. per lb.

FRANCE CLAMORING FOR THE GUILLOTINE

Crime on the Increase Since Death Penalty Was Abolished.

Paris, Nov. 5.—The increase of crime in France has aroused a popular demand for the restoration of the death penalty, which has been practically abolished by the systematic commutation of the sentences of criminals condemned to death. The Government desires to formally abolish capital punishment, and has been commuting death sentences to imprisonment at hard labor for life. During the present session of parliament it was the intention of the ministry to secure the adoption of a measure formally doing away with the executions of criminals, but recently juries throughout the country have recommended having recourse to the guillotine, as being the only means of stopping the atrocious murders which are of daily occurrence in Paris and in the provinces.

A popular vote, taken by a local newspaper, has resulted in 1,083,655 persons pronouncing themselves in favor of restoring capital punishment, while 328,692 announced themselves as being opposed to it.

GREENLAND COAL DEPOSITS

May Revolutionize Domestic Affairs of the Esquimaux.

London, Nov. 4.—That Greenland possesses considerable mineral wealth including coal, has been known for many years, but until now no serious attempt has been made, owing to adverse climatic conditions to extract anything like a big scale these natural riches from the soil. Extensive coal deposits have been discovered by a German mining expert on the mainland near Disko Island, and an exhaustive report is being drawn up for the Danish Government setting forth the conditions under which these coal fields could be profitably worked.

The production of coal would revolutionize the domestic arrangements of the native Esquimaux who still depend on blubber and train oil for heating and lighting purposes. As regards the mineral wealth, a company has been formed recently at Copenhagen which has secured a twenty years' concession from the Danish Government to work the mineral deposits in Greenland; but coal will probably be made a state monopoly.

ASSAULTER SUICIDES

Brest, France, Nov. 5.—A local paper today printed a story to the effect that on Oct. 28, during a voyage of the Hamburg-American line steamer from Hamburg to Brest, a student broke into one of the cabins and attempted to assault Mlle. Bazaine, daughter of the late Field Marshal Bazaine and god-daughter of the ex-Empress Eugenie. The screams of the young woman, it is added, brought passengers to her rescue, and the steward leaped overboard and was drowned.
