

## CHANG IN THE COMMONS

Salisbury's Alarm Regarding the Land Bill—Matabele Rebels Surrendering.

Financial Difficulties of the Port—International Memorial to the Original Cable Promoters.

LONDON, Aug. 4.—Li Hung Chang, the Chinese envoy dressed in a yellow robe and accompanied by a number of attendants, was present in the House of Commons to-day. He was escorted to a seat beneath the gallery and listened to the debate on the Scotch agricultural rates bill. The parliamentary secretary for the foreign office, Mr. George N. Curzon, explained the leading features of the house to the distinguished traveller, who appeared to be much interested. Later Li Hung Chang engaged in animated conversation with the Secretary of State for the Colonies, Mr. Joseph Chamberlain. He then, after noon Li Hung Chang had an audience lasting three-quarters of an hour with the Marquis of Salisbury at the foreign office. The Chinese statesman was borne into the audience by a chair in order to avoid the fatigue of mounting the stairs. He wore a yellow jacket and claret colored skirt.

The Times says in an editorial: "When definite proposals are made, England will be ready to discuss them on a business footing. If, on his return to China, Li Hung Chang will make a beginning by insisting upon an efficient protection of Europeans in the interior, the abatement of internal import duties and guarantee equality in treatment between the seaboard and land frontier trade and by satisfying us that the concessions will not be used to carry out secret understandings with our rivals, he may be assured that England will not fail to respond in a practical manner."

In the House of Lords to-night, that body by a vote of 25 to 19, inserted a clause in the Irish Land Bill which the government resisted as it would endanger the bill in the House of Commons. The defeat of the government caused a stir in the lobby. It has disconcerted the government, which fears that the Irish Land Bill will suffer considerably at the hands of the Irish lords, among them the Marquis of Londonderry, the Earl of Winchester and the Duke of Abercorn, whose strictures on the land bill promise amendment in committee which is likely to cause trouble when the measure is returned to the House of Commons.

A war correspondent returned to Cape Town from Matabeleland reports that Cecil Rhodes displayed great courage in the field while bullets were raining round him. The former premier said he could not see that anything was to be gained by his going into a hot corner, but if he did not do so, he would be branded with cowardice, therefore he exposed himself unnecessarily to keep the mouths of his enemies closed. The correspondent declares that the Matabele rebels are surrendering. The fighting is now on a small scale. At Salisbury a famine is feared.

A Bulawayo despatch to the Chronicle, touching upon several recent skirmishes with the Matabele with only trifling losses to the British, says: "Our recent blows on the rebels are evidently telling."

The financial difficulties of the Turkish government are most acute. The officials on the civil list have not received their salaries for seven months and when some of them complained they were arrested. The Sultan is paying some of the officials out of his private purse and the negotiations in progress with London bankers to capitalize the Cyprus tribute have been broken off owing to the excessive demands of the Turkish government which counted upon getting from this source the sum of £450,000 with which to replenish its coffers.

A dispatch to the Novoe Vremya, of St. Petersburg, from Vladivostok announces that Korea has conceded to a syndicate of Americans the right to construct a railroad from Seoul, the capital, to Chemulpo, the main port and harbor. The Americans in addition have the right to work the mines along the line of this road. Other concessions have been granted to France and Russia. Seoul, it is stated, is now quiet. The British sailors who were landed for the protection of the consulate of Great Britain have been withdrawn, and the American sailors who were sent ashore to protect the U. S. consulate will be withdrawn in a few days.

The Marquis of Tweeddale, as chairman of the American-Anglo and Eastern Telegraph Companies, has requested the Associated Press to publish the following dispatch: "An influential committee is about to be formed to inaugurate an international memorial to commemorate the inception and extension of submarine telegraphy connected with the names of O. W. Field, Sir James Anderson and Sir John Pender. In view of the great importance of the subject, you may think the desirability of establishing such a memorial suitable to be dealt with in your leader columns."

The Arctic expedition headed by Sir Martin Conway and his nephew, says a Tromsø, Norway, dispatch, accomplished the first crossing of Spitzbergen from east to west. In the central portion of the island was found a vast ice plateau.

Serious fighting is reported from Macedonia. Two hundred insurgents inflicted severe losses on 800 Turkish troops at Sarantopori Pass, near Bitola. Two bodies of insurgents at Kastranitsa, after two days' battle, were driven back, but they way through towards Serrai. Hassan Pasha has been reinstated as governor of Heraklion in the island of Crete as being the only man able to cope with the situation. On his refusal to admit to the town a mob of Musulmans, who were bringing in the bodies of two Musulmans shot by the insurgents, he was torn from his horse and severely maltreated. The situation is critical.

A decree published by Captain General Weyer announces that the crews of filibustering vessels as well as their captains will be considered exempt from responsibility to enjoy immunity from punishment if they deliver up the mem-

bers of such expeditions or cause them to be seized by Spanish cruisers, in which case they will secure the rewards of \$24,000 for steamers and \$9,000 for sailing vessels. The police have suppressed a number of conspirators with arms in the suburbs of Havana. Three were killed while resisting arrest and four others escaped. Captain Ballester, in the Holguin district of the province of Santiago de Cuba ambushed a number of insurgents and killed twelve of them. Maximo Gomez is reported to have arrived in Puerto Principe and to be contemplating marching shortly with reinforcements for the insurgents into the province of Santa Clara.

## AT SHOEBOURNNESS.

SHOEBOURNNESS, Aug. 4.—The Canadian Volunteer artillery team won the Marquis of Londonderry's cup. For the Derris cup contest, a new prize offered for a contest between a picked British team and the Canadians, the British volunteers selected the first six who had won in the ranging competition. The conditions were those of the Garrison group firing. The Canadians scored 24 points for effectiveness and 39 for discipline, total of 63, but their aggregate was reduced to 48 owing to their exceeding the time allowed. The Essex men, on the other hand, scored 44 for discipline, and nothing for effectiveness and were thus defeated. Col. Minden commanded the Canadians, the group commander being Col. Bridgeford. The two detachments were composed as follows: First—Follock, Dickson, Rousseau, Nott, Vanforme, MacGuinness, McGowan, and Corning; second—Lettice, Sprague, Marshall, Theakstone, Thomas, Morrison and Gillis.

## MINING DEVELOPMENT.

Lillooet, Fraser River & Cariboo Gold Fields Company Working Their Mines Vigorously.

Already Expended Three Hundred Thousand Dollars and Prepared to Double the Amount.

Messrs. R. M. Horne-Payne, the chairman, and Mr. F. S. Barnard, managing director of the Lillooet, Fraser River & Cariboo Gold Fields Company, are in town. The company in the last few days have paid \$100,000 cash for the Oak Leaf and Maple Leaf mining claims at Illecillewaet, and have also purchased the assessable stock of the Lanark Consolidated Mining & Smelting Company, and a proposition is now on foot for an amalgamation between the Lanark company and the Oak Leaf and Maple Leaf claims. An aerial tramway and a conveyor have been ordered from Chicago by the Lillooet, Fraser River & Cariboo company and development work is now going on on the 400-foot level. The company expect next year to ship 100 tons a day. The Lillooet, Fraser River & Cariboo Gold Fields, Limited, have also placed machinery on the City of Spokane at Roseland, another of their properties which they have purchased for \$55,000, and extensive development work is being done upon the mine. A large body of rich ore has been struck and in the course of a few days shipments will begin to the Trail Creek smelter.

Machinery is being placed to run drills by compressed air. The same company have bought three groups—in all about twenty-five claims—among them the famous Apache, Aaron and Waterloo groups, at Montgomery's landing, a few miles south of Robertson on the Columbia river. A large force of men under Mr. Cunningham are employed doing development work. In the Lardeau country the company have purchased the Broadview, Old Sonoma and Phillipsburg claims and are actively developing them. The Illecillewaet and Lardeau mines are silver lead ores, and others mentioned being copper and gold properties.

A ten-stamp mill for the treatment of ore from the Ample and Dandy claims, at Lillooet, the original properties of the company, has been purchased. The company are energetically developing their various properties. Already the Lillooet, Fraser River & Cariboo Gold Fields Company have expended in British Columbia this year \$300,000 and have set aside another \$300,000 for working and developing the properties they have acquired.

## MYSTERIOUS CASE.

TORONTO, Aug. 4.—A mysterious case of a missing nurse girl has been reported to the police. Christine Tullera, a nurse girl in J. M. Lounes' family, 519 Huron street, has been missing since Thursday last. The girl complained on Thursday night of being ill and Lounes advised her to see a doctor. She left, saying that she would consult Dr. McDonald, and shortly after a telephone message, presumably from the doctor's office, stated that the girl had typhoid fever and had been taken to the Western hospital. But she is not in any of the city hospitals and no doctor by the name of McDonald can be discovered who knows anything about the affair. The girl was very attractive in appearance and it is feared she has been abducted for immoral purposes.

## STRIKES AT ROSSLAND.

TORONTO, Aug. 4.—(Special)—A Rossland, B. C., despatch says: Three big gold strikes are reported to-day. The first and perhaps the most important is on the Georgia claim, where a tunnel 120 feet long has been cut in a ledge of high grade ore at a depth of 100 feet from the surface. This ore is running \$40 a ton on the surface and has improved 20 per cent. with this depth. The second strike is reported from Red Mountain, where ore is running fairly well. Gold has been found in a shaft down forty feet. The third shaft is on the Coxy claim.

If you once try Carter's Little Liver Pills for that biliousness or constipation or headache or dizziness or nervousness or indigestion or any of those troubles which are purely vegetable, small, and easy to take. Do it right this time.

## MARTIN STILL HOPES.

The Winnipeg Liberal Association Urges Laurier to Take Him—A French Rival.

Defective English Ammunition—Tarte Denies the Sending of a School Delegate.

(From Our Own Correspondent.)

OTTAWA, Aug. 4.—The latest report as to the vacant portfolio of the Interior is that which comes from Winnipeg, to the effect that the position will be offered by Mr. Laurier to Mr. J. E. Prendergast, ex-provincial secretary of Manitoba and a prominent French Catholic.

There was a meeting of the council to-day, presided over by Hon. R. W. Scott in the absence of the Premier. The other ministers present were Sir Oliver Mowat and Messrs. Fisher, Tarte and Mulock.

The date of the bye-election in North Grey will not be fixed until the Liberal association has selected a candidate. Mr. Patterson has not yet accepted.

Full returns of the Manitoba census have not yet been received at the statistical office here. Two enumerators' books are yet to arrive, and this is delaying the compilation. Ottawa trades and labor council will wait Mr. Laurier on Saturday and request him to deliver an address here on Labor day.

Sir Mackenzie Bowell arrived to-day and this evening he and Sir Adolphe Caron dined with Sir Charles Tupper.

OTTAWA, Aug. 4.—The department of militia is now in correspondence with the Imperial war office over half a million rounds of ammunition which has just been received and which has proved defective. If possible, the Canadian government would like to return that part of it which has not been used, but it is not likely this can be done.

OTTAWA, Aug. 4.—(Special)—At a meeting of the Liberal party to-night, the purpose of adjusting the accounts of the late election in this city, the question of the interior portfolio was introduced and discussed, with the result that it was decided to offer the portfolio to Mr. J. D. Maresden, who is just down from Pilot Bay. The decision of the meeting will be communicated to Mr. Laurier at once.

MONTREAL, Aug. 4.—In a speech at his re-election for St. John and Ipperley, Mr. Tarte, minister of public works, referred to the story of the late election that Mr. Laurier had sent a delegate to Manitoba to treat with the religious authorities for a settlement of the school question. "I declare here," said Mr. Tarte, "that Mr. Laurier has not authorized anybody to approach the religious authorities in connection with the schools. We are confident that in a few months the question will be settled by the religious authorities. Mr. Laurier has adopted the policy of conciliation. We don't pledge ourselves to satisfy Roy, Lariviere or Senator Bernier. We will do what we think is right. We are doing what we think is right. We are doing what we think is right."

HALIFAX, Aug. 4.—The election prospects in Nova Scotia include Colchester, Victoria, Yarmouth, Digby, Inverness, Cape Breton, Richmond and Lunenburg. The Liberal party are against Conservatives, including Pictou and Cape Breton. The Digby one is against the Liberal member, A. J. Copp. The Conservatives have a petition in Cumberland against the election of the Liberal, who defeated Hon. A. E. Dickson. CHARLOTTETOWN, Aug. 4.—The Liberal also have filed petitions against Hackett in West Prince, McDonald in Kings, and Martin in East Queens.

OTTAWA, Aug. 5.—The Liberals of this section tendered to Hon. Wilfrid Laurier a great reception to-night on the occasion of the formal taking up of his residence here. Thousands welcomed him at the station and cheered him along the streets. Among the many transparencies shown was one reading "Protection to the Working Class." Senator McKeown, in a speech, congratulated the new leader. Replying to addresses Mr. Laurier said: "The government would endeavor to relieve agricultural distress, to promote trade and commerce, to develop our native industries, to encourage literature, letters, arts and science, and to make Ottawa a seat of learning, a part of letters in the Dominion." (Cheers.) He had spoken elsewhere of his desire to see Ottawa become the Washington of the North. (Cheers.) He had not forgotten those words; he intended to live up to them as much as he could. No nation but was proud of its capital city. No Frenchman in France or Frenchman in the North of France but was proud of Paris, while all Americans were proud of Washington. It would therefore be the endeavor of his government to make Ottawa as far as possible a capital of which Canadians should be proud. (Cheers.) It would be their aim to make Canada such a country that whenever a man left his shores it should be the pride of his heart to proclaim that he was a Canadian. (Cheers.) The Premier having spoken in French the proceedings closed with cheers for the Queen, Mr. and Mme. Laurier, and Sir Oliver Mowat.

The executive of the D.R.A. met to-night and decided that the ammunition to be used at the forthcoming matches should be the Royal Laboratory issue of 1895. This decision was come to upon the report of Major Parley, who made a thorough examination for the purpose. Lieut. Col. Hodgins, G. G. F., was elected executive officer and Dr. James Grant, surgeon. Major Walsh will again be statistical officer. The Montreal ammunition purchased from the home government last spring will not be returned to England but a formal complaint will be made of its defective condition.

The nominations in North Grey and in Queen's and Sunbury will be on Aug. 18, polling a week later. Mr. King, Liberal, will be the opponent of the Conservative, Mr. James, in the North-west. Mr. H. Dwyer, Conservative, is a candidate in Ontario at a salary of \$10 a year in order to vacate his seat.

OTTAWA, Aug. 4.—(Special)—A Rossland, B. C., despatch says: Three big gold strikes are reported to-day. The first and perhaps the most important is on the Georgia claim, where a tunnel 120 feet long has been cut in a ledge of high grade ore at a depth of 100 feet from the surface. This ore is running \$40 a ton on the surface and has improved 20 per cent. with this depth. The second strike is reported from Red Mountain, where ore is running fairly well. Gold has been found in a shaft down forty feet. The third shaft is on the Coxy claim.

If you once try Carter's Little Liver Pills for that biliousness or constipation or headache or dizziness or nervousness or indigestion or any of those troubles which are purely vegetable, small, and easy to take. Do it right this time.

pleased at his re-election by acclamation. One of the first questions to be taken up in connection with his department is the Behring Sea problem. Justice King of the Supreme court and his American colleague appointed to adjudicate upon the claims of Canadian sealers, will hardly get down to work before the first week in October, as they must wait the return of the sealers. Meanwhile in official circles great satisfaction is felt at the decision given by Chief Justice Davis in the Beattie case, which must be a precedent in the settlement of old standing claims.

H. W. Watts, a leading fish merchant of London, England, is at present visiting Canada investigating the possibility of building up an export trade in frozen fish from the Atlantic provinces, chiefly in salmon and lobsters. The export trade in frozen salmon from British Columbia, via Australia, has led to Mr. Watts' visit to this country.

TORONTO, Aug. 5.—(Special)—Reports were current yesterday that Premier Laurier would hold his seat for Saskatchewan and take the ministry of the interior, letting a friend of his run for the vacant seat in Quebec city. It is rumored also that Dalton McCarthy will elect to sit for Brandon and ask North Simcoe to return his friend, Colonel O'Brien.

## THE STORM IN MANITOBA.

WINNIPEG, Aug. 4.—(Special)—Further reports indicate that the damage done to the crops by hail on Saturday and Sunday was very considerable. Wherever the storm struck the grain was more or less injured, and in some instances reports say the farmers had their crops almost entirely ruined.

## THE COPPER KING.

Extensive Development in Progress—The White Mountain Mining District.

Many Men at Work and a Wagon Road Building to Kootenay Lake.

Some splendid samples of copper ore, carrying gold, have been presented to the Board of Trade mineral cabinet by Mr. J. D. Maresden, who is just down from Pilot Bay. The ore is from the White Grouse Mountain and St. Mary's mining districts in West Kootenay. White Grouse Mountain district lies about 18 miles east of the new town of Saneas, which is on the east shore of Kootenay lake 18 miles south of Pilot Bay. Here the Copper King Mining & Smelting Company have 14 different properties and on six of them are doing development work. Besides, the company have 150 men making a first class wagon road from the mines to Saneas. Already a considerable quantity of ore has been taken out running from \$20 to \$250 a ton in copper and gold. The copper is principally in the form of copper glance and pyrites. The ore belt of this district has been traced for a distance of five miles and is about half a mile wide, with these ore ledges running through it, and the showing is highly satisfactory. The Copper King Company at first will ship their ore, but their intention is to put up a smelter of their own at Saneas. By September 1 they will have 40 men at work on the Mountain and the new town of Saneas, which is already on the various properties. The Tiger, Gold King, Storm King and Big Four are among the claims working. A great many locations have been taken up on Black creek and the St. Mary's district, and Mr. Maresden brought down several samples from there among them one from the Alberta on Black Creek creek, somewhat similar in appearance to the Copper King ore. The new town of Saneas, which has only been in existence a few weeks, has already three stores and the outlook for a substantial mining town is remarkably good as there is a large area of fine mineral country tributary to it, and the wagon road now under construction will give easy access for shipping by water on Kootenay lake.

## CANADA'S TWO TRUNK LINES.

TORONTO, Aug. 4.—A despatch from London says a prominent member of the stock exchange denies that Lord Hamilton and Sir Henry Tyler are endeavoring to corner the stock of the Grand Trunk and the Canadian Pacific in order to bring about a change of management. There is so much stock of the Grand Trunk believed to be impossible to corner it. Shares were advancing on the rumor.

## NEWS OF THE DOMINION.

(Special to the Colonist.)

TILSONBURG, Aug. 3.—James A. Allan, an old and prominent citizen, died Saturday from blood poisoning, aged 65.

TORONTO, Aug. 3.—The provincial board of health in its annual report just issued shows that the province is comparatively free from contagious diseases.

MONTREAL, Aug. 3.—An interview with Louis Borneo shows that the state-gold being mined in the Canadian is the legitimate requirements of the Canadian banks.

MONTREAL, Aug. 4.—Rev. Abbe Leclerc has been appointed superior of the Canadian college in Rome, to succeed Rev. Abbe Debaillie, who has returned to Montreal owing to ill health.

SEVEN BARONS, Aug. 4.—Angus McCracken, of Sparrow Lake, was found hanging by the neck in his bar. He was 45 years old, a bachelor and in comfortable circumstances.

HALIFAX, Aug. 4.—Thomas Wilkinson, aged 35, a farmer, died yesterday from paralysis. One of his sons, Thomas, is a British Columbia newspaper man, and another son, James, is in the North-west.

PORT HOPE, Aug. 4.—Fred Smith, aged nine, was drowned yesterday while bathing.

SAULT STEPHEN, Aug. 4.—Moses, the six-year-old son of O. Russell, was drowned yesterday while bathing.

## MANITOBA CATHOLICS.

They Will Insist on Separate Schools and Expect Nothing Less From Mr. Laurier.

Archbishop Langevin Says the Liberals Are Pledging to Make Generous Concessions.

WINNIPEG, Aug. 5.—(Special)—Rev. Father Allard, administrator for the archdiocese of St. Boniface during the absence of Archbishop Langevin in Rome, denies in the Nor'Wester the report that a commissioner is now in the province endeavoring on behalf of Hon. Mr. Laurier to bring about a settlement of the school question.

"What is the present position of affairs?" was asked.

"Exactly as it was when his Grace left for Rome."

"Is it true that his Grace appointed three of the priests to represent him should the school commission come to Manitoba during his absence?"

"Yes, quite so, but nothing further has been done, except perhaps the selection of a committee of Catholic laymen for the purpose of laying all the facts before the school commissioners."

"What do you think of the report that when the Archbishop returns, his views upon the school question will have undergone a decided change?"

"In what respect?"

"In respect to accepting a very modified measure of redress." "There is not a word of truth in it. I can tell you authoritatively that the Catholics of Manitoba will never cease to fight for their rights. Since 1890 we have been fighting for them, and we propose to continue fighting until we win. We want our own schools, and Mr. Laurier is pledged to give them. Even such a measure as that which the remedial bill would have given will not be entirely satisfactory. We are quite willing that our schools should be under government control and that they should be up to the standard, but in all other respects we want separate schools."

"Do you suppose Mr. Greenway will settle this question?"

"I cannot say; but it seems to me that he cannot very well now give us a satisfactory measure of redress. Perhaps Mr. Laurier shall be forced to carry out his pledges to the Quebec electors by passing remedial legislation at Ottawa."

Archbishop Langevin contributes a letter to a Paris journal reviewing the causes which led to the defeat of the Conservative government in Canada. His Grace says the Liberals are in accord with the hierarchy and pledged to more generous concessions to the Catholic minority.

## FELL A THOUSAND FEET.

CALGARY, Aug. 5.—(Special)—The Canadian mountain wonderland penetrated by the C.P.R., and so often compared to the Alps of the old world, has witnessed its first fatal accident of which a pleasure-seeking tourist is the victim, Philip S. Abbott, assistant attorney of the Wisconsin Central railway, of which his father, E. H. Abbott, of Cambridge, Mass., is the president, having met with instant and terrible death Monday morning not far from Laggan. A little station between Buff and Field, in the heart of the Canadian national park, the day in the ascent of Mount Lefroy, which has hitherto defied the touring peak-climbers.

When about eight miles from the chalet, and while passing around a rough spur of the mountain by a narrow ledge, Mr. Abbott lost his precarious footing, and being unprovided with the ropes commonly used in Alpine exploring, was over the precipice, which at this point is a sheer thousand feet in height, and almost before his companions could realize the full meaning of his absence from among them, all was still again.

The lifeless body crashed beyond all semblance of humanity, was lying on the glacier below. There it remains, for the descent of the precipice is fraught with extreme danger and difficulty. A force of expert mountaineers, equipped with the ropes, were working faithfully all to-day and it is expected that the body will be recovered by them to-morrow and sent for burial to Milwaukee, where Mr. Abbott made his home.

LI HUNG CHANG.

LONDON, Aug. 3.—The Times has an article regarding Li Hung Chang's views and the object of his mission to England. The Chinese statesman considers that England could have prevented China's disastrous war with Japan. He desires as an evidence of sympathy that England should concede to China the right to make a substantial addition to the duties charged under the treaty between them upon goods entering Chinese ports. The fall of silver, Li Hung Chang says, has rendered the revenue derived from these duties half of its original value. Japan has already secured a similar relaxation of the old restrictions. China's revenues will be devoted to the purchase of warlike stores in Europe.

He assures the Times, "that he has great reforms ready to be put in operation, including provision for a fleet and an army which, within five years, will place China in a position that would recently endure."

The first day in England of Li Hung Chang was quiet. His occupation was confined to a drive round Hyde Park and Pall Mall. He stayed at home for the remainder of the day.

SOURCEVILLE, Aug. 4.—Moses, the six-year-old son of O. Russell, was drowned yesterday while bathing.

SAULT STEPHEN, Aug. 4.—Moses, the six-year-old son of O. Russell, was drowned yesterday while bathing.

## "Early Northern Pacific Voyages."

This most interesting work is a reprint from the Literary Magazine, published in London in the year 1821. It contains valuable information of the early history of this coast, and also of the Hawaiian Islands. Several names are mentioned whose descendants are now prominent members of our community. The account of the visit of the Pirate Ship to Hawaii, and the execution of some of them by the famous (and famous) Hypolyte Bonchard, the destroyer of all the towns on the Pacific Coast, are especially interesting. It gives also an authentic account of the secret doings of the Russians in the Hawaiian Islands before they were forcibly expelled by King Kamehameha.

PRICE 50 CENTS EACH.

T. N. Hibben & Co.

No. 237.

CERTIFICATE OF THE REGISTRATION OF A FOREIGN COMPANY.

"Companies Act," Part IV., and Amending Acts.

"Cariboo Mining and Development Company" (Foreign).

Registered the 27th day of July, 1896.

I HEREBY CERTIFY that I have this day registered the "Cariboo Mining and Development Company" (Foreign) under the "Companies Act," Part IV., "Registration of Foreign Companies," and Amending Acts.

The head office of the said Company is situated at the City of Seattle, in the State of Washington, U.S.A.

The objects for which the said Company is established are:—To carry on the business of mining in all the States and in all the branches of the business in any way connected with mining, including prospecting, mining, smelting and reduction works, mill sites, real estate, lease, purchase, sale, mortgage or otherwise, and to operate and maintain the same, and to acquire and hold the same, and to do all such other things as may be necessary or convenient in and about the business of the Company.

The capital stock of the said Company is three hundred thousand dollars, divided into three hundred thousand shares of the par value of one dollar each.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 27th day of July, 1896.

(Sd.) B. Y. WOOLTON,  
Registrar of Joint Stock Companies.
