President Gravy is credited with having recently beaten Vignaux, the French cham-pion billiard player, in a match at the Klyzes. The president, remarks the Lon-don Truth, is a good man with the cue, but if he really beat Vignaux, we must con-clude that the skill of the latter is not con-fined to the board of the green cloth. Catarrh-A New Treatment.

Catarrh-A New Treatment. Perhaps the most extraordinary success that has been achieved in modern science has been attained by the Dixon treatment for catarrh. Out of 2000 patients treated during the past six months, fully ninety per cent have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent of the patients presenting themselves to the regular practitioner are benefitted, while the patent medicines and other ad-vertised cures never record a cure at all. Starting with the claim now generally be-lieved by the most scientific men that the disease is due to the presence of living parasites in the tissues, Mr. Dixon at once adapted his cure to their extermination; this accomplished, the catarrh is fractically cured, and the permanency is unquestioned,

No one else has ever attempted to cure catarrh in this manner, and no other treatment has ever cured catarrh. The application of the remedy is simple and can be done at home, and the present season of the year is the most favorable for season of the year is the most havorable for a speedy and permanent cure, the majority of cases being cured at one treatment.
