BLUE RAMBLER A Sensational and Valuable Novelty \$1.50 EACH, OR \$2.75 PER PAIR

VEILCHENBLAU (Violet Blue)—The new rambler, "Veilchenblau" (Violet Blue) which is hailed by the German rose growers as the forerunner of a genuinely cornflower blue rose, is a seedling of Crimson Rambler. The blossoms, massed in large umbels, are semi-double, of medium size. The color, on first unfolding, is either reddish pink or purplish pink, then turns amethyst, and finally steel blue as the flower fades. The general color impression is that of the March violet. The yellow stamens appear in sharp contrast to the blue petals.

The plant is vigorous in growth, with shining green foliage and few but sharp thorns. So far it has not suffered from mildew and is considered one of the most hardy ramblers.
