## Drug Reports.

### Canada.

Providence, in the shape of plenty of snow and cold weather, has somewhat interfered with business during the past month, but there is no reason of complaint for this season of the year. The report from those lines of business, in which March 4th is a settling day, has been very favorable this year, and all along the line prospects are bright. These indications will, no doubt, have a set back, pending the elections; therefore it is to be hoped these will come on and be got over speedily, for they have a very unsettling effect on trade.

Bals. Peru is scarce, consequently has advanced fully \$1 per pound.

Camphor has made a triple advance lately, and, as the season of large consumption is near at hand, higher prices are looked for.

Cod liver oil (Norway) maintains its high price. It will not likely be lower for

a season, with a good prospect of being still higher.

Cocaine muriate higher.

Salicylic acid and salicylate of soda are lower in price.

Green acacias are all tending higher.

Cubeb berries easier.

Castor oil still very low.

Croton oil dearer.

Nitrate silver, another decline.

Acid citric lower; tartaric firmer.

Boschees' German Syrup, and Green's August Flower samples have been withdrawn from the market.

Gibbon's toothache gum has been reduced to 65c. per dozen.

### England.

LONDON, February 27, 1895.

There has been some improvement in the drug market during the month, and an extraordinary rise in the price of cod liver oil. Old 1894 oil has doubled in value within a few weeks, and the new season's oil is quoted at a phenomenal figure.

Citric acid is firmer on the spot, as lemon juice is dearer.

Camphor is in a similar position, owing to advance of raw material.

Saffron is moving upward, and cascara bark is advancing.

Sulphate of ammonia is lower.

Chlorate of potash continues on the down grade.

Oil of aniseed is also easier.

During the month there has been a complete drop in salicylic acid and salicylates.

Ordinary drugs have been very quiet, and chemicals remain, for the most part, unchanged in value.

### Kind Words from Cape Breton.

"I think the druggists of Canada are deeply indebted to you for the trouble you take in supplying the trade with such an excellent periodical."

A. D. MACGILLIVRAY.

Sydney, C.B.
