

Hobart Town, to the great disgust of the colonists. It was resolved to adopt some steps to put a final stop to the contaminating influence of the refuse of the mother country.

THE NEW ZEALAND.

Accounts from Auckland to the end of March notice the discovery of extensive beds of coal in several places on the Waikato River. This discovery is of great importance in the contemplated steam arrangements between the mother country and the colonies.

UNITED STATES.

CAPTAIN PECK, OF THE ISAAC NEWTON.—Capt. Peck is the Commander of the Steamer Isaac Newton, running on the North River, from this city to Albany. We learn from the Tribune that one evening this week, he had an anti-Popery prayer-meeting on board of his boat, of which Dr. Cox, of Brooklyn, (of Irish-children-kidnaping notoriety) was the presiding spirit.

DISTURBANCE AND BROKEN BONES AT A METHODIST CAMP MEETING.—In returning from the neighborhood of Montrose, Pa., I called at Union, in York State. About one mile east of Union I heard a most terrifying noise; looking round, I perceived it came from the woods.

I will pull the shoes right off my feet, Blessed be the Lord. And walk along the golden street. Blessed be the Lord.

The minister seemed to be in a swoon all the time they were singing, and when the song was over he stood on the platform; shouted and called on them to repent; that moment, he said, when he laid down, God told him he was his Elect; they all shouted and groaned; but the worst shout was to come yet; it was then about 7 o'clock p.m., and at 8 o'clock the fight commenced between Niggers and Palefaces.

In New York, Mrs. Muldoon, the wife of a printer, gave birth to female twins connected together like the Siamese twins. They and the mother died in an afternoon.—Boston Pilot.

DEATH OF COAL MINES.—A telegraphic dispatch from Halifax, of the 11th inst., states that the Albion coal mines of Pictou have partially fallen in.—Boston Traveller.

JENNY LIND'S MONIFICENCE.—Mr. Barnum, at the conclusion of the first Concert being loudly called for; came forward and stated that he would announce a circumstance, which he felt bound to make public; although Mademoiselle Lind had begged him not to do it.

Messrs. Williams: I have just been informed by Mademoiselle Jenny Lind, that it is her intention to give her share of the net proceeds of the present Concert, amounting to \$10,000, to the various charities in the city of New York.

Table with 2 columns: Charity Name and Amount. Total: \$10,000.

In case the money coming to her shall exceed this sum, she will hereafter designate the Charity to which it is to be appropriated.

The American political news continues to be very interesting. The Fugitive Slave Bill has passed both Houses of Congress; but so far we have no fresh news of the bill to suppress the slave trade in the District of Columbia.

Mexico, which Congress has made a Territory, but which the people have voted a State, has knocked loudly at the door of Congress by sending their Representatives to Washington, and making a formal demand for their admission by way of memorial.

LATER FROM CALIFORNIA.

By arrivals at New York, dates from California up to the 1st of August have been received. The steamers bring two millions and a half of gold dust.

The rivers are yet too high to work advantageously and the ravines have not dried up. Companies of miners are at work turning the rivers throughout the gold regions, and we may expect good reports from them in the course of another month.

The troubles at the Southern mines, particularly in the neighborhood of Sonora, still continue. The accounts of the murders committed are really frightful, and the end is not yet.

The Indians and Chilians will be driven from the diggings, and armed forces have been ordered to carry such a proceeding into effect. At the Mormon Gulch, the foreigners have received formal notice to leave in one week.

The fact is settled that the Americans and foreigners cannot work together in harmony; and if either party must succumb, the side to which American sympathy will be given cannot be doubted.

There are those who trace all these disturbances to the foreign mining tax, imposed by the last legislature. The foreigners resisted the payment of \$20 per month, and the consequence was, that wherever they had a good claim they were driven away by individuals, who urged the non-payment of the tax as an excuse for such proceeding.

The steamer Panama, on her way from Acapulco to Panama, lost forty persons by cholera.

CANADA.

THE GOVERNOR-GENERAL.—His Excellency returned to Toronto on Wednesday morning last. Having visited the mining regions and the adjacent localities, he landed at Penetanguishene on Thursday, and proceeded thence to Barrie, at both of which places he was received most enthusiastically.

Telegraphic despatches announce the arrival at Quebec of two of the regular traders to this port, on their second voyage, viz., the ship St. Andrew from Liverpool, and the bark Home from Glasgow.—Herald.

We have received a fine specimen of iron ore, dug up at Brudé's Mills, near Smith's Falls, on the Rideau Canal. A quantity has been brought down by the steamer Charlotte to be smelted. We believe that large beds exist in the locality where this has been found, and that if the first experiment is successful, means will be taken to work them.—Montreal Transcript.

An emigrant, named Timothy Neal, a native of the County Tipperary, Ireland, and who has been in this country but a few days, was drowned yesterday morning, in the river, in rear of the emigrant sheds.

Several incendiary fires have occurred at Cobourg last week; but little damage was done on account of the early arrival of the firemen. A reward of £100 has been offered by the Mayor for the conviction of the perpetrators of these diabolical acts.—Jb.

The Reverend Messire Baillargeon, formerly R. C. Curate of Quebec, who, being appointed at a convocation of Bishops in Montreal, Representative of the Church in Canada at Rome, set out for the holy city a month or two ago, has, we regret to learn, become so seriously indisposed, since his arrival there, that he has at his own request been recalled.

THE TELEGRAPH TO HALIFAX.—The sum of £3000 only needed to complete this line. That the sum will be obtained we are fully persuaded, seeing that already £2000 of it have been subscribed.

EXHIBITION OF MINERALS.—Mr. Logan, Provincial Geologist, arrived here the latter part of last week on his tour collecting specimens of ore for the Exhibition at Montreal. Specimens of iron ore from McNab and Hull, and we believe, from several other places, have been obtained. One from the former place is a rich piece of specular oxide, and weighs about 700 lbs., and from Hull there are several pieces of the magnetic oxide, some of them weighing over 300 lbs.

exists here, as well as elsewhere, for employing capital to the best possible advantage. All are interested in having the Mineral resources of the country fully developed, and all should render due assistance in furthering the great object of the Exhibition.

The potato blight is very extensive on the peninsula of Halifax, not a field or garden, we believe, has escaped. We regret also to learn that it has struck deep in the country. It is now evident that the potato crop will be a failure this year.—Halifax Church Times.

THE RAILWAY IN NOVA SCOTIA.—The prospects of the Railway in Nova Scotia are very encouraging. The Nova Scotian says that the proposed line to Portland is the engrossing topic of conversation, and the spirits of the people have already risen to a pitch commensurate with the importance of what they know and feel will prove the salvation of the Provinces.

LITTLE CHILD'S MORNING HYMN.

The morning bright, With rosy light, Has waked me from my sleep. Father! own Thy love alone Thy little one doth keep.
