JOE C. THOMPSON & Co.,
 416 Notre Dame Street, Corner St. Peter, Montreal.

ONCE IN TEN YEARS THE EAGLE LOSES HIS PLUMAGE, and during this period, much debilitated, he sits quietly on some rocky shelf until his feathers are sufficiently grown as to enable him to cleave the air again. Man, like the eagle, has his periods of weakness—some say as he approaches the ages of twenty, forty, sixty, etc., while others place it earlier; but, owing to his artificial mode of living, he cannot, like the eagle, submit his case solely to nature for successful treatment, and it generally requires great care to enable the subject to pass safely through the critical periods. Fellows' Compound Syrup of Hypophosphites, by its great tonic and health-renewing properties, will restore tone more quickly than any other preparation known, it being the surest remedy for all debilitating maladies.

EPPS' COCOA.
