

NEW WESTMINSTER

BRITISH COLUMBIA

The Pacific Centre of

AGRICULTURAL PROGRESS MANUFACTURES AND INDUSTRIES

NO CITY IN CANADA

possesses more varied opportunities for the capitalist or man of enterprise.

THE WEEKLY MARKET

is easily accessible and offers a quick sale for the general producer, farmer or fruit-grower in

THE FAMOUS FRASER VALLEY

which contains a population (largely agricultural) of from 60,000 to 75,000 people.

EIGHTY SEPARATE INDUSTRIES

are now operating, and their steady growth gives ample proof of the commercial and manufacturing advantages possessed by New Westminster. These are particularly noticeable as regards power supply, transportation facilities, deep-water-frontage with wharf sites extending to the ocean, on both sides of the North and South Arms of the Fraser River.

THE NEW "FRESH WATER" HARBOR

of New Westminster will provide the largest class of ocean-going vessels with a safe harbor, whilst the permanent jetty, now being built by the Dominion Government at the mouth of the Fraser, will make access easy at all times.

THE CANADIAN PACIFIC AND THE GREAT NORTHERN TRANSCONTINENTALS

provide all necessary facilities for transportation in Canada and the United States.

THE NEW CANADIAN NORTHERN PACIFIC RAILWAY

will be completed within two years to its terminals (opposite New Westminster) at Port Mann.

THE BRITISH COLUMBIA ELECTRIC RAILWAY

This line runs four trains daily to and from New Westminster, up the Fraser Valley for a distance of seventy miles.
