

THE MALAYSIAN COMPUTER SOCIETY

The Malaysian Computer Society was registered with the Registrar of Societies in the 1960's and to date it has more than 850 members. Its objectives are:

1. To extend amongst members the knowledge and appreciation of computers, automatic data processing systems and computer based automatic control systems and of theory related thereto.
2. To establish and maintain the professional standing of members by developing a code of ethics and defining standards of knowledge in the fields referred to above.
3. To foster an informed public opinion regarding computerisation and computing machinery and technics related thereto.

The Society's principal activities are:

1. To serve as a national organisation for persons concerned with and interested in the application and practice of Information Technology, Computer Science, Information Processing and related disciplines.
2. To promote and develop the science of Information Technology.
3. To hold Conferences, Exhibitions, Seminars, Workshops, Evening Talks, etc. for disseminating information.
4. To maintain standards of knowledge and code of ethics for computing professionals.
5. To provide career guidance to members.
6. To conduct examinations.
7. To establish regional centres.
