Contention of Richard Olney, Former Secretary of State, That United States Is Not Repudiating Obligations Is Opposed by Other Authorities on International Law.

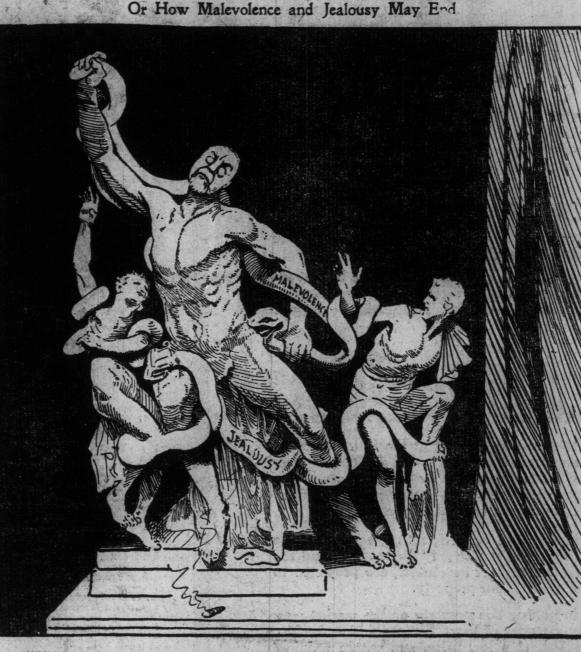

WASHINGTON, April 25.-(Can Press)-Divergent views regarding the the country and the empire is finished right of the United States to exempt its coastwise vessels from the payment of Panama Canal tolls were expressed today in papers read before the sev-enth annual meeting of the American Society of International Law. Most of the principal speakers, however, agreed with Richard Olney, former secretary of state, who held this country was entirely within its rights, as the owner of the canal, to make whatever rules Equally divergent views were ex-

pressed as to whether the payment by the government of a subsidy equal t, the amount of tolls to American ships would be a violation of existing treaties. The right to grant subsidies, when not expressly prohibited by treaty, was not controverted.

In the discussions that followed, nany of the extemporaneous speakers opposed the idea that the United States had a right to exempt its vessels from tolls, and contended that such an act would be contrary to all existing treaties and would bring dishonor upon the

THE LAOCOON OF TORONTO

While he spake, a fearful scene presents itself, and strikes terror and confusion into our minds. Laocoon, chosen by lot to act as a priest of Neptune, was sacrificing a buil at the old customary altars, when two huge serpents [Malevolence and Jealousy] with fiery eyes and blood-stained crests, speed across the sea from Tenedos. With undeviating course, they make straight for Laocoon, and, first enveloping in their coils his two sons and burying their poisonous fangs in the hapless lads, they selze the priest himself, when he comes to their aid, in deadly embrace;—Virgil.

PROROGATION AT EARLY DATE PROBABLE

Special Session of House May Be Called in September -Hon. Mr. Cochrane Wants Wide Powers to Acquire Branch Lines as Intercolonial Railway Feeders.

OTTAWA, April 25 .- (Special)-The house despatched a good deal of business today, advancing every government bill brought up for consideration, including the highway act, which now stands for a third reading. So zealous indeed were the Liberals in expediting the business of the house that the government found time to consider public bills introduced by, private members, something almost without precedent at this stage of the session. Beginning Wednesday the house will sit in the forenoon, which is one of many signs to combine with the hot weather in foreshadowing an early prorogation.

Session in September.

Perhaps it is on this account that the talk is revived of a special session, to be called in September, which will deal with redistribution, the rules of the houses, and the naval aid bill, in case the latter is thrown out at this. session by the senate.

The senate, by the way, returns on. Fuesday, when a joint caucus will be held composed of Liberal senators and M.P.'s. The house will not sit on Thursday as it is Ascension Day, and the naval aid bill may therefore not pass thru the sommons until week after next. The bank bill is pretty well thru committee and Finance Minister White stated today that it would be reported to the house by Wednesday next.

during the year.

THE NEW PROGRESSIVE MOVEMENT

The men who have been steadily working toward public ownership of public franchises in this Province of Ontario begin to see a great light in the distance which may spell success. At all events, it is a beacon well worth steering for. They have their greatest hope in the City of Toronto and the other cities and towns that have supported the Hydro-Electric policy. That has been a success; and other things are soon to follow.

Toronto is now about to seek to recover control of her street railway and to extinguish in a fair way the local electric light company. The railway to be the centre of radials running to the east, the north, the west, and to link up with other municipal lines in existence or about to be constructed under the guidance of the Hydro-Electric Commission, as by the legislation All records were beaten today at cock, Mr. Sinclair regulated it, and of this session provided. Guelph is a leader in the field. If Toronto suc- Christie's when the well known deal- the illumination could be seen for ceeds, Hamilton will follow. Winnipeg and Montreal will not stand silent er, Lockett Agnew, who acted for J. several blocks in the northern end of spectators.

Bigger still is the dream that may soon also be realized that the Hydro-Electric will take over one of the power companies at Niagara and perhaps the Cataract Company; and that Hamilton and Toronto, thereby controlling all the local lines of railway and radial entrances and power distribution, will be the seats of two great municipalities that will be able to offer power and traction at cost, where service to the public, not profit to shareholders, will be the predominating guide.

Those who seek these things need not fear the little Appollyons of the Gloster at the Duke of Cambridge's Theatre. You had better see it than wayside. 24
