

INVESTMENT STOCK MARKET LIFTED ON SUCCESS OF LOAN

Deals at New York on Larger and More Comprehensive Basis. Exchange Again Rose Metal and American Smelting Advanced With Mexican Improvement.

NEW YORK, Sept. 20.—Deals in stocks today were on a larger and more comprehensive basis than at any recent time, to the general accompaniment of higher quotations. To be sure, war operations yielded none of their recent prominence, but the undertone of the market was strengthened by what seemed to be an enquiry from investment sources for the better known securities and other issues of recognized merit.

External conditions, so far as they were upon affairs across the water, exerted little influence in either direction, although London once more reported a very heavy tone for the international list. Metal stocks, notably American Smelting, were up 3/4 to 1 1/2, and the shares of other companies having Mexican interests improved in recognition of latest diplomatic developments affecting Mexico.

New high records, some of which were partly set at the active close, included Hudson at 114, General Motors at 29 1/2, Willamette at 110, U. S. Industrial at 107, and U. S. Steel at 94 1/2. Such recent favorites as New York Air Brake rose 1/4 to 137 1/2, and the stock of the American Smelting and Refining Co. advanced 1/2 to 104 1/2.

Domestic news included western agricultural conditions and improvement in the traffic situation, due mainly to heavier receipts from New York buyers. The bond market was firm, without special feature. Total sales, par value, \$1,000,000.

STEEL STOCKS ACTIVE ON TORONTO MARKET. Steel Corporation Shares Advance on News of Large Profit-Making. The Toronto mining market was stronger yesterday, not in one or two of the issues, but generally throughout the list.

NEW YORK BOUGHT IRON AND OTHERS BOUGHT POWER AND LAURENTIDE. Montreal, Sept. 20.—There were two notable movements in the stock market today when sales footed up over 15,000 shares. The first was a real demand from New York for shares of the second and second strongest in the power group and Laurentide.

LONDON STOCK EXCHANGE. LONDON, Sept. 20.—Money was in plentiful supply, and discount was well maintained to ease off today. Cable transfers opened weak on a demand for gold, but later recovered and closed at 4.68 1/2 to 4.69.
