NOT DOWN TO A PRICE

The 1913 Russell "30" is Ready

There will be a big demand for this car. We are prepared to accept orders for it now, thereby ensuring late fall or early spring delivery.

The 1913 Russell "30" surpasses in grace and elegance all previous models. Its many improvements both in design and construction enhance its outward beauty, provide greater riding comfort, give smoother running power, and add to the simplicity of its control.

You will be charmed with this model—it is so essentially a Canadian's car. There is about it a combination of dignity and power, plus that "something" which immediately denotes the owner's refinement and good taste. As a town car it is incomparably luxurious. For hard touring service, its strength is immense.

Briefly, the New Features Are:

- 1. Absence of all working parts on the body, allowing unbroken graceful lines to sweep the whole length of the car.
2. New self-starter, electrically operated. Press a button and your car is ready to go.
3. Electric lighting by current generated in car's own dynamo. Press a button and you "light up."
4. 28" wheels and 4" tires, a combination to absorb all shock and cause less wear on tires.
5. Demountable rims, so that road repairs may be avoided.
6. A spare rim with each car.
7. Motor fresh air pump, driven by the car's own power.
8. Electrically lighted speedometer and clock in each car.

\$325 worth of extra equipment and labor has been built into the 1913 Russell "30," as compared with the 1912 model. Send us your card for an advance descriptive pamphlet.

Table listing Russell '30' models and prices: Russell '30' Model "R" 1913 Touring Model \$2,500; Russell '30' Model "R" 1913 Torpedo Model \$2,600; Russell '30' Model "R" 1913 Torpedo Roadster Model \$2,500.
