**OTHER POINTS ACCEPTED AS BASIS FOR DISCUSSION**  
**Czar's Reply is an Absolute Non Possumus.**  
Portsmouth, N. H., Aug. 11.—Russett's reply to the Japanese terms of peace will be delivered by Mr. Witte to Baron Komura at 2:30 o'clock to-morrow morning. The reply is written, there being two texts, one in French and the other in English.  
Upon the two crucial points, indemnity and the cession of the island of Sakhalin, the reply is an absolute non-possimus.  
Other points are accepted as basis for discussion, while still others are accepted conditionally.  
The reply is rather long, because, in enumerating the conditions upon which discussion is admitted, and those upon which consideration is declined, reasons and arguments are given. The Japanese plenipotentiaries are expected to ask for an immediate adjournment to examine and prepare the reply. Mr. Witte will probably intimate that the Russian plenipotentiaries expect the Japanese to display as much expedition as they (the Russians) have shown in the preparation of their response. Monday, therefore, is expected to be the day on which the real discussion will begin. Neither side wants to indulge in diplomatic sparring. The time for fencing is over, and less than a week must decide whether a basis of peace is possible.

**Inscrutable Japs.**  
The tactics of the Japanese are inscrutable. They have shown through their military, naval and diplomatic secrets—and now not the remotest clue comes behind the closed doors as to whether they are prepared to make substantial concessions on the main issues will be made in the next few days in Russian and Japanese circles.  
**Pessimism Reigns.**  
To-night the inner camps of both plenipotentiaries the deepest pessimism reigns. Mr. Witte, it is positively known, believes the Japanese will not be so remiss as to be practically nil. He has no desire to prolong the agony, and instead of fencing when the plenipotentiaries come together after the Japanese have had the opportunity to examine the reply, he will not only welcome but insist upon an immediate discussion of all the proposed bases. So

**Quebec Conservative Leader to Retire and Judge Ouimet May Replace Him.**  
A Montreal man who is conversant with the political situation in the city yesterday. He told the world that Sir Wilfrid Laurier is in better health than he has been at any time during the past ten years, and that his most intimate friends now hope and believe that he will be able to lead the party in another general election. He stated also that a change is likely to soon take place in the Quebec leadership of the Conservative party. Mr. Monk has been only a figurehead for some time; he is taking no part in matters of importance. The Conservatives think it will soon be in order to replace him with a name which is more actively canvassed is Judge A. Ouimet, who was minister of public works in the Conservative government, and who is now a judge in the court of appeal in Quebec. Judge Ouimet is one of the most prominent business men in the province, and his position is well known to the Montreal man, who has no thought

## NO SAKHALIN BANK MERGERS NOT GOOD COUNTRY WILL SUFFER

**WITTE TO KOMURA**  
**CZAR'S REPLY.**  
Two points—the payment of an indemnity to Japan and cession of Sakhalin—are absolutely not debatable. Other points are accepted as a basis for discussion. Still others are accepted conditionally, in other words, Russia yields nothing.

**M. Witte, the Russian envoy, will deliver the momentous document to Baron Komura at 9.30 this morning, and will ask for a speedy response.**  
In the inner camps the deepest pessimism prevails, as prospects of peace are said to be practically nil.

## Czar's Subjects Unite to Resist Jap Demands

**All Declare Continuance of War to Be Better Than Acceptance of Terms.**

St. Petersburg, Aug. 12.—(2.55 a.m.)—The news of the speedy completion of M. Witte's reply came as a surprise to the Russian public, as a delay at least until Monday was anticipated to permit a consultation at Petrohof.  
The M. Witte had ample powers to draft a reply at Petrohof, the foreign office shared the view that the response would be withheld until Monday. M. Witte's initiative and decision have evoked the admiration of Russians accustomed as they are to delays in matters of a similar nature.  
Japan's demands, as predicted, have served to array the Russian government and people under the same banner for the first time since the beginning of the war, and it is evident that M. Witte will find almost solid support at his back in whatever answer he may make to Baron Komura's communication.  
The government permitted and encouraged the publication of the full Associated Press despatches containing the Japanese conditions, which, like a fiery cross, rallied Russia's disunited clans, reactionary, Conservative, Liberal and Radical. With scarcely an exception, every voice is raised urging the government to hold out against Japan's principal demands.  
The Associated Press correspondents talked yesterday with leading members of the various classes, and all declared that a continuance of the war would be better than the acceptance of such

## LAKE SUPERIOR BRANCH TO BE BUILT RIGHT AWAY

**G.T.P. Anxious to Bring Winnipeg into Touch With Lake Superior.**

Montreal, Aug. 11.—(Special.)—It is now well understood in Grand Trunk Pacific inside circles that the delay as possible, as it is most important that the great prairie country shall be brought into touch with Lake Superior with as little delay as possible. The end of the 275-mile section is a few miles west of Indian Head on the C. P. R., and from this point it is said that the company have secured a straight line to Edmonton.  
All this section will be put under contract in the early spring, while the portion of the 45 miles between the City of Winnipeg and Fortage la Prairie will depend on the entrance which the C. T. P. will secure into the Manitoba capital.

**Insurance Chronicle Refers to Rumors of Amalgamation of Big Institutions.**  
Montreal, Aug. 11.—(Special.)—Speaking of the proposed Merchants and Royal Bank merger, the Insurance Chronicle says:  
Recent rumor has it that joining forces with the Royal is not the only project discussed. It is alleged that some of the directors of one of the banks are ambitious of becoming associated with a much larger institution. The Chronicle has pointed out, in regard to this now very popular business, it is the amalgamation or taking over of any eminently strong bank is in the best interests of the country.  
We are referring chiefly to the Merchants Bank of Canada, which is one of the oldest and strongest banks in the Dominion, and which has a well-established and prosperous business. It is the third largest bank in Canada.  
"Bank amalgamation is not desirable when it would lead to the concentration of bank business in a few institutions which naturally and necessarily would employ a large amount of their assets in outside countries. It is not advisable that the general financial policy of this country, commercially and otherwise, should be dictated by a few banks."  
"Canadian interests ought to be dominant. The banks of Canada ought, as a result of the general financial policy of this country, and to be in no danger of having their policy subject to outside influences and dictation."

**GRIMSBY BEACH RESIDENTS GAVE EVERY ASSISTANCE.**  
Considerable concern is felt by the directors of the Grimsby Park Company over the stories of the casting adrift of Annie and Irene O'Connor, the two little Hamilton girls. The reports of the affair neglected to mention the strenuous efforts put forward by the residents at Grimsby to find the lost ones. As a matter of fact the beach in the vicinity was patrolled all night long. The directors also deny that the boys who pushed the boat out were restless youngsters, but say that they might have belonged to the separate school picnic with which party the little girls were visiting the park.  
"It looked very much like as if the cottagers had set the children adrift," said a director last night, "and had put forth no effort whatever to find them. It is for that reason we ask this statement be made."

**CZAR'S MANIFESTO.**  
Portsmouth, N.H., Aug. 11.—M. Witte, before leaving St. Petersburg, saw the imperial manifesto. He then said: "Nicholas will issue to-morrow on the occasion of the czar's birthday. As they drafted it did not mention the war or peace negotiations. M. Witte believes the manifesto is fraught with great consequences for Russia and mankind. It will be," said he, "one of the most important documents in history."

## GLASGOW'S FRANCHISES IMPRESS SIR WILLIAM

**Question of Municipal Control of Great Interest to Canada," Mulock Says.**

London, Aug. 11.—Sir William Mulock was the guest on Thursday of the Glasgow corporation. The meeting was presided over by Lord Provost Sir John Ure Graham. In a short speech Sir William congratulated Glasgow on its public franchises. The question of municipal control was of great interest to Canada, and in regard to it he would take away important information from Glasgow.  
He listened with close attention to a discussion on corporation contracts and the standard rate of wages. During his progress he handed Lord Provost a memorandum, stating that in Canada there was a resolution providing for government inspectors paying the prevailing rate to competent workmen of a fair wage, officers being provided for the purpose of securing this.

New Orleans, La., Aug. 11.—Up to noon to-day a dozen cases of yellow fever had been reported by doctors, while official inspectors reported none. Dr. White is much pleased with the evidence of improvement in the situation.

Surgeon T. Berry of the marine hospital staff to-day was stricken with yellow fever. He was one of the first to reach New Orleans to fight yellow fever. Because he had been thru the Cuban campaign and had had yellow fever in Texas he was thought to be immune. He was put in charge of the work in the originally infected area, where yellow fever had raged most severely. Dr. Berry has been doing yeoman service in disinfection. He was taken sick yesterday and to-day his case developed into one of yellow fever. He is expected to recover.

One hundred men were engaged to-day in disinfecting lower part of the city. Every room in every house that far reached has been treated to one course of disinfection, and the whole ground is to be covered again and again until the mosquito disappears. Enormous quantities of sulphur have already been burned in this work.

Paterson, La., has thirty cases of yellow fever, and in regard to it he would take away important information from Glasgow.

He listened with close attention to a discussion on corporation contracts and the standard rate of wages. During his progress he handed Lord Provost a memorandum, stating that in Canada there was a resolution providing for government inspectors paying the prevailing rate to competent workmen of a fair wage, officers being provided for the purpose of securing this.
