The limportance of having the instinction further of public health available day and night for those wishing to obtain information was urged, and arrangements were made for having someone on duty 24 hours daily, instead of closing someone on duty 24 hours daily, instead of closing someone on duty 24 hours daily, instead of closing someone on duty 24 hours daily, instead of closing someone on duty 24 hours daily, instead of closing someone on duty 24 hours daily, instead of closing someone on duty 24 hours daily, instead of closing someone on duty 24 hours daily, instead of closing someone on duty 24 hours daily, instead of closing someone on duty 24 hours daily, instead of closing someone on duty 24 hours daily, instead of closing someone on duty 24 hours daily, instead of closing someone on duty 24 hours daily, instead of closing someone on duty 24 hours daily, instead of closing someone on duty 24 hours daily, instead of closing someone on duty 24 hours daily, instead of closing someone on duty 24 hours daily, instead of closing someone on duty 24 hours
