FEBRUARY.

[hath 28 days.

The cherished fields
Wear now their winter robe of purest white—
'Tis brightness all; save where the new snow melts
Along the mazy current. Low the woods
Bow their hoar head; and e'er the languid Sun
Faint from the West emits his evening ray,
Earth's universal face, deep hid, and chill,
Is one wide dazzling waste, that buries wide
The works of man.
