TROUBLES FACE ITALIAN PARLIAMENT BUT THE WAR WILL BE FOUGHT ON

Turin, Oct. 18.—The Italian parliament has re-opened its sessions in Rome under peculiar circumstances, two facts being so prominent as even to make a ministerial crisis possible. Owing to their nature they will probably be discussed only in separate session. One has to do with serious riots in Turin, in the latter part of August, due in part to the delay in providing the town with sufficient bread, and in part, to political discontent.

The other question concerns the general food crisis throughout Italy, which led to the resignation of the food controller, Giuseppe Canep, whose place has been taken by General Alfieri.

Whatever the result, whether with the present ministry in power or under

a new cabinet, the nation is determined to carry on the war to a victorious end and defeat the efforts of the intransigent Socialists, who are trying to spread dissatisfaction among the troops and induce them to cease fighting after October 31.

LABRADOR TRAVERSED FROM SOUTH TO NORTH FIRST TIME

Pittsburg, Oct. 18.—The Peninsula of Labrador has been crossed from the south to the north for the first time by a scientific exploring party, according to an announcement last night by Dr. W. J. Holland, director of the Carnegie Museum, following the receipt of a telegram from St. John's, Nfld., announcing the arrival of an expedition which in last April undertook to cross the peninsula from the Bay of Seven Islands on the Gulf of St. Lawrence, to Ungava on Davis Strait.

Saving Substitutes

Canadian Food Controller's Suggestions of War-time Dishes For Friday

To save beef tomorrow try Tomato Ranchit

Tomato Ranchit
2 tablespoons butter; ¼ cup milk; ¼ teaspoon soda; 1 cup finely rolled bread crumbs; ½ teaspoon salt; 2 tablespoons flour; ¼ cup stewed and strained tomatoes; 1 cup grated cheese; ½ teaspoon mustard; Cayenne to taste. Heat the tomatoes in a saucepan, and add the soda. Make a sauce of butter, flour, milk, and add the tomatoes. To the cheese add the salt, mustard and cayenne and bread crumbs. Just before serving combine these with the sauce and, when thoroughly heated, serve. Do not allow to boil or the cheese will become leathery.

Save bread and flour by mixing graham flour with white occasionally.

Try Graham Muffins
Graham flour, 1½ cups; white flour, 1 cup; sour milk, 1 cup; molasses, 1-8 cup; soda, ½ teaspoon; salt, 1 teaspoon. Mix and sift dry ingredients; add milk and molasses; beat well and bake in muffin tins.

LEARN MORE OF GERMAN PLOTS IN THE STATES

Promotion of Revolution in India and Siam—Scheme to Blow up Munition Plants in Canada

Chicago, Oct. 18.—William Wilms, a dealer in timber and lumber here for twenty years, testified yesterday that he had been financial agent for Baron Kurt von Reisswitz, alleged promoter of a revolution of Hindus when he was German consul in Chicago. Wilms was a witness in the trial of Gustave H. Jacobson and others on charges of conspiring in this country to foment a revolution in India. According to Wilms' testimony, he wrote three checks for von Reisswitz in order that the latter's name would not be connected with the financing of the uprising in India. Wilms swore that he had given his personal checks to the amount of \$40,000 to the then German consul, which he since learned had been used to further the work of the revolutionists.

Joseph Reider testified to having quit his job with a switchboard company in April, 1915, at the request of Jacobson to serve his native country, Germany. He said he was drilling soldiers for a revolution to be started in Siam. Reider told of attending meetings at the American embassy and of hearing plans discussed for revolutions to be conducted by German agents in India. He said he had received money at different times while the various plots were being worked out. Bogus citizenship papers were furnished him by Jacobson, he said, to facilitate his traveling about the world.

Max Jarrasch, a sergeant in the 122nd Field Artillery at Houston, Texas, testified that he had been offered a trip to Germany by Jacobson as an inducement for him to join the forces of the revolution. He said it was planned for him to go to Detroit and from there into Canada to blow up munition plants. He was stopped, he said, by a telegram from Jacobson.

Rigid Physical Exam For Returned Men

Veterans Examined as Carefully as Recruits on Return to Canada to Resume Civil Life

To get into the army is one thing, and to get out is another, but the process is the same—a physical examination that takes count of every hair on a man's head, and leaves absolutely nothing to conjecture.

While the physicians are examining hundreds of young men liable to draft for the new army, others in the discharge depots of the Military Hospitals

Commission are going over the unfits and misfits returned to Canada after service, with the same appraising eye.

For the protection of the man as well as the country, every precaution is taken that a man shall be restored to the best possible shape before he is discharged from service to civil life. No chances are taken with incipient ailments which might be overlooked by a cursory examination. The man who returns is stripped and thoroughly examined, every wound recorded, and the exact state of his health noted on records which are filed in the department headquarters.

Unknown Weaknesses

A man whose disability is due primarily to the amputation of an arm or leg, may have contracted other weaknesses from service which could be remedied by treatment before his discharge. He may be ignorant of the condition himself, but it becomes immediately evident to the physician.

On the other hand in future years the man may suffer from some disease which he will attribute to his service, but which will be due to other causes. The exact record of his health at the time of discharge will determine what basis there is for such a claim, if there is any.

The M.O.'s at the discharge depots examine about 100 men a day in this way, and upon their report and recommendation the interviewers whose business it is to take a man's vocational history and make recommendations for his vocational retraining if such a course is necessary, base their advice.

Authentic Fall Fashions in

Costumes Dresses and Coats

COSTUMES

Many of the new Suits feature the straight line effect. Velvets fur trimmed are very smart. Broadcloths and Gabardines are among the most popular fabrics. Buttons, braid and embroidery are used for trimmings. Buckles as novelty ornaments.

DRESSES

Many of them shown in the one-piece effect, with panel skirt. Serge in various shades of Burgundy, Green, Navy, and Brown is a favorite material. Colored embroidery trimming is used effectively.

COATS

The three leading characteristics of the Fall Coats are the loose straight lines, the belts of various kinds, and the big comfortable collars. The large collars cut square in the back are most popular. In cloths the tendency is toward solid tones, except when tweeds or blanket cloths are used.

PRESENTING the most exclusive styles in Women's and Misses' Ready-to-Wear Garments. The variety and beauty of the different models, the quality of cloths used, and the methods of ornamentation and trimming introduced must be seen to be appreciated.

DOES NOT REPORT WHAT KAISER HAD

Preaches Frugality After Luncheon on Train—Says if France Wants Alsace-Lorraine She Must Take It

Chronicle from Amsterdam, sends the following to his newspaper: "His majesty sat down to the table with the observation that he had just read Professor Painleve's first speech as French premier.

"So M. Painleve wants Alsace-Lorraine does he?" exclaimed the emperor. "Good; but he must come and take it!"

"The emperor then treated the company to a eulogy of the late King Carl and Queen Elizabeth of Roumania, whose good work, he said, 'had been undone in a few months by the hunger for gold and power of certain agitators.'

"At the conclusion of the lunch, the Kaiser said: 'It is unworthy for any German to live well when even the best people go without things. What we have of foodstuffs is common property, which, by just division, is sufficient to keep us alive for an unlimited time and which permits us to await final victory with calm. He who takes more than his share sins against those who serve the fatherland.'

Famine-Bread From Trees

According to a German report (says a writer in the London Daily Chronicle) permission has been given the inhabitants of Finland to cut down 1,000 trees in order to make bread. This is no new departure for Finland, as during times of stress and famine bread has frequently to be made from both pine bark and moss. The Chinese make a curious form of bread from the pith of the fatsia tree. This is not baked, but is laundered out in long, narrow strips with a hot iron, somewhat after the fashion in which a collar is finished at a laundry.

London, Oct. 18.—The correspondent of the Berlin Lokal Anzeiger, who was permitted to travel on a train which took Emperor William to the Balkans and to lunch in the restaurant car with the Kaiser, says a despatch to the Daily

High-Grade Furs

The Jones' Furs have a reputation for quality and distinctiveness and they sustain it.
