SUNDAY IS 89TH ANNIVERSARY OF DISASTER HERE

Bridge Across River at Strait Shore Fell; 7 Killed

SEVEN OTHERS WERE INJURED IN CRASH

Council in Session for Proclaiming Victoria When Tragedy Occurred

Tomorrow will be the 89th anniversary of the fall of the bridge being built from Portland to Carleton, at the Strait Shore, in which disaster seven men lost their lives and seven others were injured. The following account is from the records of the late Rev. Dr. W. O. Raymond, in the local office of the Dominion Archives, Princess street:

"On Tuesday, the 8th of August, 1887, about 9 o'clock in the morning, the scaffolding erected for the purpose of carrying over the bridge from Portland to Carleton, together with the iron chains on which the same rested, and a great body of materials, fell with a most tremendous crash into the River Saint John. About 80 of the workmen were on various parts of it at the time, of whom, including the engineer and three superintendents, were fortunate enough to be on either part of the work which stood, or retreated thereto on the first alarm of danger. The remaining number were precipitated with the mass of timber, chains and materials into the water below. Seven were either killed or drowned and the remainder more or less seriously injured. The following is a list of the sufferers: 'Dead—Michael Watts, of Portland; George Buckley, Daniel Leahy, David Mallory, Carleton; Henry Lord, Carleton; John Farris, a native of England, and John Maberry.

"Injured—William McIntyre, dangerously, both legs broken and otherwise seriously injured; Denis Morrison, severely, the broken leg of the deceased George Buckley, shoulder broken and otherwise injured; Job Farris, seriously; James McConnelly, third, Mrs. Stone, Gentlemen, first, William Murray, second, Thomas York, third, A. McDonald, door prize, John McHale.

"The unfortunate bridge was intended to span the harbor from the 'Short Ferry' to Carleton, and was well completed when the end came. The bridge was a chain structure, and the cause assigned for the falling was the snapping of one of the chains. The crash of the bridge was heard throughout the entire city, and on the moment people were started and alarmed, not knowing the cause, but conjecturing an earthquake or another mighty commotion.

"About the hour at which the accident occurred, the Common Council of the City of Saint John had assembled to make arrangements for proclaiming Her Most Gracious Majesty, Queen Victoria, that day having been officially appointed for that purpose. Before they arose from their seats they were informed of the occurrence and requested to appoint some place for the reception of the dead and wounded.

"This was promptly attended to and while the unfortunate sufferers were being conveyed to the place appointed, attended by medical men, minutes were commenced for the commemorative to the death of His Late Majesty, William the Fourth, and colors on the 80th anniversary of the death of the late monarch, were in port were waving half mast high, altogether one of the most heart-rending scenes the city has ever witnessed. The Supreme Court was sitting at the time, and His Honor Justice Parker, who presided, very properly adjourned it.

"At 2 o'clock, agreeable to the arrangements made by the Common Council, that body, together with the chief justices and members of the court, the sheriff and coroner, magistrates, bar, military and a large concourse of the inhabitants, assembled at the Court House and its vicinity, where the Proclamation of Her Majesty's accession was read by the herald appointed for the purpose. It was agreed to hold a public dinner at the harbor and in the Parish of Portland."

HAYING WEATHER AFFECTS MARKET

Vegetable Supply Not so Large—Prices This Morning in Various Lines

While there was a good supply of vegetables in the city market this morning it was not so large as usual, owing to the fine haying weather, the farmers preferring to keep at their haying.

There was a good assortment of fruits, with the supply of strawberries falling off. These berries were quoted at 20 to 25 cents a box; raspberries, 25 to 30 cents; blueberries, 20 to 25 cents; red currants, 15 cents a box; cherries 15 to 20 cents a box; rhubarb, 8 cents a pound. Native cucumbers were 10 cents each. Native celery was 10 cents a head, or three for 25 cents, and cabbage was cheaper this week at 8 to 10 cents for large heads. New potatoes were plentiful at three cents a pound and beans and peas at six cents.

SEE THE FALLS

At high tide the water of the Bay of Fundy reaches a higher level than the water of the Saint John River and forces its way through the gorge of the Falls, creating a "Falls" running up river.

At low tide the water in the Bay comes so much lower than the water of the Saint John River that the fall of water is the river, that the fall of water is the river, that the fall of water is the river.

The best time to view this phenomenon is:

SAINT JOHN TO SEND 30 OR 40 TO PYTHIAN MEET

Grand Lodge of Maritimes in Halifax August 17, 18, 19

PROPOSED HOME ONE MATTER TO DISCUSS

Good Program Being Mapped Out for Important Gathering

Saint John delegates to the Grand Lodge Knights of Pythias, Maritime Domain, which will meet in Halifax on August 17, 18 and 19 are making ready for this meeting which is expected to deal with some matters of much importance in the order in these provinces. The Pythian Sisters' Grand Temple will also meet at the same time and Adilia Temple, No. 187, D. O. K. K., will hold a grand ceremonial on the night of August 18.

IMPORTANT MATTERS

The grand chancellor, Capt. J. Arnold Mowry, will present resolutions, the most important of which will deal with the proposed Pythian Home for the Maritime Provinces. He will be able to report that during the year there have been received from the subordinate lodges generous contributions to this cause and that much assistance, both moral and financial, has been received from the Pythian Sisters. Another important matter which is to be discussed is the future of the Pythian Senator, the official organ of the Grand Lodge.

GOOD PROGRAM

The Halifax lodges have prepared an excellent program of entertainment for the visiting Knights and Sisters. This includes dances and receptions on Monday evening, August 16, and Tuesday evening, August 17, and sports on the Wanderers' Grand Temple, Pythian Sisters, will be held in the Y. M. C. A. hall with the grand circle, Mrs. F. S. Croston, presiding. On Tuesday afternoon at 2 o'clock there will be a memorial service for the departed sisters, conducted by Mac Dougal Temple, assisted by the grand officers and at 8 o'clock that evening the history degree will be exemplified by Jubilee Temple of New Glasgow.

EXHIBITION SPACE IS WELL TAKEN UP

Some Changes on Groups and in Departments at This Year's Fair

Preparations are proceeding apace for Saint John's big 1926 fall fair and from present indications it will be one of the best ever staged here. The space in the main building is about all taken and the exhibitors are planning to have very attractive booths. Some changes have been made this year about the grounds which will add much to the convenience of the patrons. On the north side of the grounds, below the poultry house, some of the stalls have been built and on the lot leased from the city there has been erected a bunk house for the use of the men caring for the live stock.

Also charges have been made in the grand stand. Concrete footing has been placed on the supporting posts and a new front built. Instead of the ticket booths outside the gates there have been built booths under the grandstand and the patrons will proceed straight on from the booth to the entrance. The dressing rooms for the performers have been moved nearer the centre of the grand stand and have been enlarged.

EDUCATIONAL FEATURES

Special emphasis is being laid on the educational features of the fair this year and in the poultry house a room has been partitioned off which can be darkened and used as a lecture room with moving pictures and for demonstration purposes.
