## HOW LABOR DAY

MANY EXCURSIONISTS WENT TO VANCOUVER

Victorians Were Hospitably Treated in Terminal City-Y.M.C.A. Among the Islands-Other Outings

(From Tuesday's Daily.) Labor Day was celebrated very quietly in Victoria. There was no public demon stration yesterday, and those who did not participate in the festivities at Vancouver or join the excursionists in a pleasant outing among the Gulf Islands by the steamer City of Nanaime, speut the day at the Gorge or at other neighboring resorts. From early morning until late in the evening the business part of the city
was practically deserted, excepting for
the occasional pionic parties.

Without a doubt the excursion to Vancouver attracted more general attention than any other feature. At about 7 o'clock the representatives of the different local unions could be seen making their way to the steamer Princess Victoria at the C. P. R. wharf, and the crowd continued to arrive until the last minute. Very shortly after the schedule time, 7.30 o'clock, the vesel drew away, the Fifth Regiment band playing an appropriate selection. The trip to the Mainland was a very pleasant one, and the run was made in exceptionally good time, despite the fact that a bank of fog within a short distance of the Terminal City caused a brief delay. When the Victorians arrived they were welcomed by the management committee, and all officials were given places in carriages, while the local unions joined the procession, which had been prepared for a start, and was waiting the visiting contingent. No time, therefore, was lost in commencing the parade, which proceeded by the folowing route: Granville street, Hastings street, Westminster avenue, Cordova street, Cambie street, thence to the Cambie street grounds.

The procession was signally successfully. It included representatives of all the different unions of Vancouver, Victoria, Nanaimo and Westminster, be-sides floats designed as advertisements by various business firms of Vancouver. Reaching the Cambie street grounds prizes were distributed by the judges, who took occasion to congratulate those in charge upon the splendid showing. Immediately after the conclusion of this ceremony the Victorians were taken to the Leland restaurant for lunch.

In the afternoon there were the sports at the Brockton Point grounds, which attracted, according to a Victorian in at-tendance, "the whole of Vancouver." The grand stand was crowded, and the programme was enlivened by selections by the Sixth Regiment and the city bands of Vancouver. One of the prine match between Vancouver and This match was refereed by Geo. Coldwell, of Victoria, who describes it as an interesting exhibition from a spectator's standpoint despite its unevenness. In the first half Westminster scored nine goals to the Terminal City team's two, but in the last the Vancouver boys held their opponents down much more effective. The interior of Canada:

Then there were competitions of various kinds, the most novel of which were a baby contest and another between married union men for a valuable prize offered to the one with the largest family. It is understood this was captured by a gentleman with nine children.

Most of the Victorians left on the steamer Charmer at 11.30 o'clock reaching home early this morning. Many, over privilege offered by the C. P. R. on steamer Princess Victoria to-day.

It was a big task which the ladies undertook, and the successful nanner in which they performed it was he subject of much favorable comment.

Bitterly Attacks the Bench of This Province For Its Failure to Send Back Fugitive.

The failure of British Columbia courts o turn Geo. D. Collins over to the state of California has evoked several hysterical attacks by San Francisco newspapers on the bench and bar of this province. The latest outburst is from the Bulletin, which under the caption, "British Columbia courts in a ridiculous position," thus delivers itself:

"Let us hear no more from boasting Britons in America about the superiority of British justice to the American article and of the expeditious and workmanlike character of British legal procedure in criminal cases.
