**NEW YORK.**—Sept. 8.—While the government crop report on grain and cotton is expected to show a decrease from last month it need not cause any great disturbance as the prices for these commodities are reaching a high level which will be the means of bringing money here in payment for the export of these commodities.

The payment of the Indian Pacific bonds by the syndicate should cause no real disturbance for just as soon as the money has been paid out to the company it will also be redeposited and made available for the street ordinary purposes.

The speculative world looks upon this as a favorable omen in the way that it will bring about an increased movement of prices there ought to be a purchase for a turn away.

### THE DEGAN PERJURY CASE IN COUNTY COURT

Evidence of Police Court Officers and Two Policemen Heard Today—Mr. Mullin Spoke Too Loudly.

In the county court this morning proceedings were commenced against Mary Deagan charged with perjury. The docket was exhausted after eight jurors had been chosen, the others being objected to by Daniel Mullin, who appeared for the Deagan woman.

The court was adjourned until eleven o'clock to give the sheriff a chance to hunt up some more men and then the police court was completed.

Arthur Branscombe, Arthur Foster, Jas. Wales, A. E. Hart, Timothy O'Brien, Jas. H. McLaughlin, W. H. Carrell, M. J. Cullinan, H. McFarlane, W. Howie, Wm. H. Drake, W. L. McEwaine.

Police Magistrate Ritchie and Police Clerk Henderson gave evidence as to the evidence given before them in the police court.

Police Joseph Scott was called and testified that he arrested Mary Deagan along with Mamie Ferrish and Jack Francis in connection with the theft of \$408 from Wm. Lonsbury, of Bath, Me. He said when the arrest was made that Mary Deagan told him that Mamie Ferrish stole Lonsbury's money and had given it to a woman, that she would not go to prison for truth, later on the stand she said that the Ferrish woman had given the stolen money to Amelia Francis.

He heard the Deagan woman swear in the police court that she never said any such things as quoted.

In cross examination by Mr. Mullin along Scott said he asked Lonsbury if the Ferrish woman was the one he was with, while in the other depositions he was quoted as saying "is this the woman who took your pocketbook and money?"

The police man was not sure just which state of mind he was in when he saw the Ferrish woman, but he said that she would not go to jail for any black woman. He heard her swear in the police court that she did not say any such words.

The court adjourned until two o'clock.

**FRENCH CABINET CONSIDERS THE MOROCCAN SITUATION**  
Government of the Disturbed Country Is Responsible for the Massacre—Claims Must be Impartially Decided.

PARIS, Sept. 8.—A special meeting of the cabinet was held today to consider the Moroccan situation. These conclusions were reached: first, the Moroccan government is responsible for the massacre of July 30 at Casablanca as well as for the massacre of the French at Fez.

Second, the identities should be fixed by an international commission. Incidentally this is France's demand for the Moroccan government to be held responsible for the massacre of July 30 at Casablanca as well as for the massacre of the French at Fez.

The cabinet requested Foreign Minister Pichon to examine the general question of Morocco and to prepare a note on the subject to be issued as soon as possible.

**THE HAGUE CONVENTION**  
The Hague, Sept. 8.—All the articles concerning the treatment of the subjects of neutral powers in the territory of belligerents to which Germany objected at the plenary conference last Saturday, were suppressed today by the committee on land war after a long and interesting discussion.

The delegate of the Grand Duchy of Luxembourg, which, according to the treaty of London of 1867, is neutral territory introduced a motion which was unanimously adopted, that the powers under the convention should be held responsible for the massacre of July 30 at Casablanca as well as for the massacre of the French at Fez.

### THEFTS WILL AMOUNT TO ONE THOUSAND DOLLARS

Bridge Foreman at Moncton Got Away With Quite a Large Sum—The Men Will be Paid.

MONCTON, N. B., Sept. 8.—The thefts of Herbert Finley, foreman here for the Dominion Bridge Co., who has disappeared, are much larger than at first believed, and will amount to over a thousand dollars. Men here about work for six weeks on the structure and in that time had received no pay, although Finley had received three checks for various amounts from the company, arrangements having been made to pay the men fortnightly. The other amounts will total over a thousand dollars. The only men whom Finley paid were several who left. The men are nearly all back at work today, having been assured that the company will make good the defalcation and that they will receive their wages.

**LOOKING UP RAILWAY PROJECTS FOR SEVERAL BRITISH CAPITALISTS**  
HALIFAX, Sept. 8.—Walter A. Harper, an English engineer, has been Nova Scotia for about a week investigating the Nova Scotia Eastern Railway project for a line from Halifax to the Atlantic coast. He is in the city for some London brokers, and came from Sydney today to see Premier Murray. To a reporter this morning Mr. Harper would only say that he was investigating this proposition for some London people and the report he would make would decide whether or not they would enter to build the road. During the past week Mr. Harper has not gone over the line of the proposed railway and has thoroughly investigated the matter. He will remain in Canada for about six weeks, as he has other propositions to look into. Mr. Harper is the managing director of the Nova Scotia Eastern Railway Co., Ltd., of London, and his firm Harper Bros. & Co., Ltd., is widely known. They are consulting engineers to the Buenos Ayres Mountain Railway, the London and Port Stanley Electric, the St. Thomas Electric, the Shanghai Tramway and the Atlantic Coast Railway.

Miss Edna Frances Driscoll, second daughter of Mr. and Mrs. Michael Driscoll, died at the home of her parents, 100 St. John street, on Sunday. Miss Driscoll was seventeen years of age and had been ill for two weeks with appendicitis. She is survived by her parents, four sisters and five brothers. The sisters are Mary E., Elizabeth, Josephine and Florence. The brothers are John, Samuel, Rupert, Howard and Russell.

General sympathy is extended to the bereaved family. The funeral will take place tomorrow at noon and interment will be in the Catholic cemetery at Sand Cove.

A public meeting will be held in Zion Methodist church tomorrow evening at 8 o'clock in the interest of the sustentive fund. Speakers will be Mr. Dr. Rogers, Rev. H. D. Marr, Rev. Jacob Heaney.

Mr. B. VanWart, of the North End, yesterday while looking through his strawberry vines at his summer cottage at Brown's Plains, came across a very large ripe strawberry. This is certainly a freak of nature, as those berries have not been leaving for over a month now.

**PERSONALS**  
Mrs. Arthur M. Irvine and little son left Saturday evening for Montreal to join Mr. Irvine, who has taken up his residence there.

The Misses Rachel and Esther McAffee will go on a visit to relatives and friends in Boston. The cottage will be left on Thursday afternoon. Helbing and Imfeld pressed forward, a return to the Italian coast will be made tomorrow. After intense suffering they arrived yesterday evening at Zermatt, having spent the previous night near the shore of the lake. Helbing was little the worse for his experiences.

**RHEUMATISM**  
MUNYON'S 3X CURES  
Think of a remedy that relieves sharp, sudden pains in any part of the body in from one to three hours and effects a permanent cure in a few days. It purifies the blood. It neutralizes the acid and takes all inflammation and pain away. Have you a lame or aching back, limbs or joints? Do you suffer from rheumatism? Ask your druggist for Munyon's 3X Rheumatism Cure and see how quickly you will be cured. If you have any kidney or bladder trouble, or if you are suffering from rheumatism, ask if it falls. Munyon's 3X Rheumatism Cure is a strong and reliable remedy.

Snobs in high places assume great airs and are pretensions in all they do, and the higher the elevation the more conspicuous is the incongruity of the position.—Samuel Smiles.

### LOST FOR 4 DAYS ON MOUNTAIN RANGE

With Leg Broken Man Could Not Move and Lived on Crusts and Water.

CARDIFF, Sept. 7.—An Irishman named James Hurley is now undergoing treatment at the Pontypridd Workhouse Infirmary after a terrible mountain experience. Hurley has been engaged for some time on the tunnel which is being driven through a portion of Glyn Nyrant mountain, above Treherbert, in connection with the water scheme of the Rhondda District Council.

On Saturday night he set out to walk down the mountain side to Blaenrhondda. He lost his way and stepped over a cliff and fell a distance of about thirty feet.

Here he lay unconscious for nearly twelve hours. When he awoke he discovered that his right leg was broken above the ankle and he could not move. The pain was intense. Hour after hour passed away without any one passing his way, and when darkness again set in on Sunday night he lay down, trusting that the morning would bring him help. The rain that fell on Sunday night added to his trying ordeal.

Dawn broke, but still there was no sign of human beings. Hour after hour he lay in agony. Owing to his weakened condition, he was unable to move. The pain was intense. Hour after hour passed away without any one passing his way, and when darkness again set in on Sunday night he lay down, trusting that the morning would bring him help. The rain that fell on Sunday night added to his trying ordeal.

Gradually gaining strength, the man made determined efforts to crawl along the mountain slopes to the tunnel, and the arduous task of dragging himself along was accomplished by Wednesday night, when, to his great joy, he found some of his comrades near the mouth of the tunnel. They attended to his injuries, and found him shelter in a hut until Thursday night, when he was removed to the infirmary.

**SHE LIVED ON GRASS FOR TWENTY DAYS**  
Terrible Experiences of Woman Who Fell Into Alpine Crevice and Was Prisoner There.

GENEVA, Sept. 7.—An almost incredible story of human endurance comes from Loèche.

A Swiss woman who was staying at Loèche Hotel went alone to visit the gorges of Dala, who precipices have an altitude of over 4,000 feet, on the 10th of last month. As she did not return, search parties were sent out. These were unsuccessful, a large reward was offered for her recovery, but it was not until yesterday that she was found.

It appears that the unfortunate woman fell down a crevice, and was imprisoned in the chasm. There she remained for twenty days, living on grass and water.

When found she was in a semi-starved condition and raving like a maniac, her privations and the terror of her situation having destroyed her reason. She was taken to the hospital at Loèche, where she lies in a critical condition.

Her relatives have arrived at Loèche.

Three tourists who ventured to climb the Matterhorn unaccompanied by guides, have had a terrible experience. One of them dying from exposure.

The three men, whose names are Heinrich Spoerli, Dr. Rudolf Kappeler and Karl Imfeld, were on their way to the summit of the mountain when they were overtaken by a violent storm. They were forced to descend, and on their way back they were overtaken by a violent storm. They were forced to descend, and on their way back they were overtaken by a violent storm.

A horrible moment. "It was a horrible moment when their hammering ceased and I was left there alone."

"I had nearly given up altogether, and once I slipped from my foothold, but was fortunately borne back again to the surface, where I caught hold of the projecting ledge of the framework. I held on to it for some time like grim death, wondering and watching for what was to happen next. I thought I should never see land again. My heart sank within me and I was beginning to despair when I noticed the water began to ebb. We had apparently sunk into shallow water. Down and down it went, and with every inch my hopes grew stronger. I was chilled to the bone but I held on, and presently was able to reach the cabin door."

"By degrees I pulled it inward—inch—then two—and then three—until it came open wide, and the water rushing out carried me with it in safety to the upper deck."

"The force of the water was so great that my feet never once touched the steps of the companion way."

"The vessel was deserted but I could see the ship's crew and sent a boat to fetch me and with my comrades who had given me up for lost, I was taken back to Hull."

More than an hour elapsed during Willey's exciting adventure. The cabin is, as usual with all steam trawlers, in the middle of the ship, with the bunks placed on either side, and it is lighted from above with an iron skylight which proved Willey's salvation. The dynamo crashed into the Quail's cabin on the starboard side, and caused a great inrush of water, which eventually closed the door and held Willey a prisoner.

**TEARS.**  
"On the right," said a Killarney guide to a party of tourists, "you'll see a cascade called the Maiden's Tears, and on the left a cascade called the Widow's Tears, 'cause it dries up the quickest."

### IMPRISONED IN CABIN OF A SINKING SHIP

Mate of Steam Trawler in Terrible Position, With Death Looming Nigh.

Ebb of the Tide Brings a Remarkable Rescue Fled.

LONDON, Sept. 7.—Harry Willey, the mate of the ill-fated Hull steam trawler Quail, sunk in the Humber after being run into by the Wilson liner Dynamo, was sufficiently recovered from the effects of his exciting fight for life in the cabin of the sunken ship to be discharged from Hull Infirmary yesterday.

Under careful nursing he speedily recovered and, although still weak from severe shock, he bears himself quite modestly, and as is characteristic of most of his class, he looks upon his thrilling experience in the most matter-of-fact fashion.

"I had turned in about three-quarters of an hour," he said yesterday, "when I was awakened by a violent convulsion, which made the vessel tremble from end to end. Before I had scarcely time to realize what was happening I saw water rushing into the cabin from all sides."

"FOUND CABIN DOOR CLOSED."  
"My comrades had died, and I tumbled out of my berth and made for the cabin door as quickly as my legs would carry me. The weight of the water, however, kept it closed. I pulled at it desperately, but I could not move it. It was offered for my recovery, but it was not until yesterday that she was found."

It appears that the unfortunate woman fell down a crevice, and was imprisoned in the chasm. There she remained for twenty days, living on grass and water.
