FISHERY CRUISERS

OUT-YANKEE SHIPS.

American Vessels Driven Away From Our Coast Fishing Grounds.

VICTORIA, B. C., Jan. 6.—The activity of the Canadian government fisheries steamer Kestrel, and the chartered steamer William Joffe on the halibut banks off the northern coast of British Columbia has resulted in practically driving the nondescript American fishing fleet into Alaskan waters. During the past few months the Canadian fisheries protective steamers have been closely guarding the banks inside the three-mile limit in Hecate strait. Dixon entrance and other northern waters, keeping American boats on the move and ousting them from the shelter of Canadian harbors when the weather was such as to permit them to take to the open.

This forcing of the American fishing boats out of the harbor has caused them no end of worry and financial loss, a number of steamers having lost anchors and chains lately while trying to weather out storms in the open. Whenever the weather will permit the Kestrel and William Joffe go outside the American steamers are forced to leave the protection of any harbor they may be found in. Practically all the smaller halibut boats flying the American flag have left Canadian waters this winter because of the activity of the Canadian cruisers. They are nearly all auxiliary gasoline schooners, and are now operating on the banks of the Alaska coast. The American steamers, which are better fitted than the power boats for weathering storms in the open, are still fishing in Hecate strait, but are being kept outside the three-mile limit by the cruisers.

RHEUMATISM

I want every chronic rheumatic to throw away all medicines, all salves, all liniments, all leeches, and give MYNOR'S RHEUMATISM REMEDY a trial. No matter what our doctor may say, no matter how repulsive you may find it, no matter how many remedies you have tried, no matter how long you have suffered, if you are afflicted with rheumatism, go at once to your drug store and get a bottle of the MYNOR'S RHEUMATISM REMEDY. If it fails to give satisfaction, I will refund your money—Money back guaranteed. Remember this remedy contains no salicylic acid, no opium, cocaine, morphine or any harmful drugs. It is put up under the guarantee of the Pure Food and Drug Act.

"Madam, do you believe in woman's rights?" asked the man standing in the car. "I do," she replied shortly. "Excuse me," he went on. "I am but an ignorant male seeking light. May I ask you if you construe these rights to include the privilege of spreading your really becoming skirts over three seats?"

The housewife who condensed herself, took a seat and the conversation lagged.

BROOMS.

A heavy broom should always be selected in preference to a light one for thorough sweeping, as the weight aids in the process. In buying a broom, test it by pressing the edge against the floor. If the straws brittle out and bend, the broom is a poor one, for they should remain in a firm, solid mass.

CURL IN THE PIG'S TAIL ADDS DOLLARS TO VALUE

The curly-tailed Porkers are sought for by the Experimenters in Kansas.

Everyone is familiar with the old nursery rhyme of the pig with the curly tail. But few indeed have attached any importance to the fact that the curly-tailed pig was generally a favorite. It has remained for modern scientific agriculture to find out the reasons and utilize the results. So much for book-farming.

It is well known to all farmers at least, that hog cholera has cost the farmers of the United States immense losses. Even in Canada where corn feeding and hot weather prevail as in Essex and Kent counties, the scourge means much loss to the farm owner.

Toronto residents have had cases of wholesale herds being affected right at their doors recently. The curly-tailed pig is never sick. That is, a sick pig will not carry those peculiar kinks in his tail.

But it has remained for the Kansas Agricultural College to discover that the more kinky a pig is in his tail, the more valuable he is. Here is their schedule of probable prices based on the length of the tail:

CURLY-TAILED PIGS IN DEMAND.
One kink, actual value, say \$12
Two kinks \$18
Three kinks \$24
Four kinks \$30
Five kinks \$36
Six kinks \$42
