MINES OUTPUT

The mining shipments for the past wee with the exception of the Boundary a about up to the average. At Phoenix ti Granby output was about 10,000 tons let than usual for the week, owing to alter ations and improvements being made. A rich strike is reported from Sandor were, according to the Kootenaian, tw feet of clean ore has been cut into on the Ya-Ya of the Dayton group.

All Sandon is agog over the discovery and the citizens have taken a look at it. The Dayton property is located on the Sandon side of the Payne, and consists of four crown granted claims. Located in four crown granted claims. Located in the early days of the Slocan sliver ex-ottement, it did not figure much as a ship-per and with the boom crash the property closed down. Most of the development has the early days of the Slocan silver excitement, it did not figure much as a shipper and with the boom crash the property closed down. Most of the development has been confined to the Altoona claim, and tunnel portal which is within a few feet of the main K. &. S. track. Abut 450 feet was driven in on the lead, but only a zincy-iron mineral was exposed. This was of little value at the time, and the Dayton like many another Sandon property was crown granted and closed. About two years ago Dr. W. E. Gomm took a lease and bond on the group, and to suit some fancy of hisown he changed the name from Dayton to Ya-Ya.

The Dayton group is located in a good mineral belt. It adjoins the Payris, and experts declare that the leads of that noted property traverse the Dayton.

The following are the ore shipments for the past week and year to date in tons.

TO WITHHOLD JUDGMENT

WHAT MR. BEESTON ASKS FRUIT GROWERS TO DO

DEPRECATES CRITICISM AND EX. PLANATIONS PENDING MEETING

E. K. Beeston, who has been engaged for some time in adjusting the accounts of the Kootenay Fruit Growers' association and who recently visited Revelstoke in the interests of the local association to arrive at a settlement of ac counts with the Central Exchange, was asked by a reported of The Daily News to express himself in regard to the attacks on the Central Exchange which have been given publicity in Nelson. Mr. Beeston stated in reply that he

had had the opportunity of going fully into the affairs of both the Kootenay Fruit Growers' association and the B. . Fruit and Produce exchange, and that he is preparing a report which will enter fully into all the causes which appear to have led to the results of the present season's operations.

Without the knowledge of the facts and a thorough explanation of the financial transactions of both associations t would seem impossible, he said, for any one to pass a correct judgment upon either association. The criticisms and defences that have made or offered were to be deplored.

At the meeting to be held next Thursday these facts and figures would be aid before the public and until then no one should attempt to lay blame upon or apologize for any particular individual

It should be the duty of every one interested in the welfare of the district to be present at the meeting as the success of the fruit grower is of importance to the trade and prosperity of the whole community.

Middleweight Wrestlers.

SYRACUSE, Dec. 11-Walter Willughby, middleweight wrestler, defeated Joh Perelli, in a mixed wrestling match here tonight.

VANCOUVER, Dec. 7.—Differences between Dominion officials and Hindus over the project of the former to remove the latter to Honduras reached an acute stage yesterday and nearly ended in a clash between the Sikhs and the white delegation. The Hindus, led by Teja Singh, who has now assumed the leadership, outwitted the officials who did not give a report of the conditions in Honduras arranged for delivery at the meeting in the Sikh temple. Teja Singh demanded that the deputation should come into Sikh temple. the sacred portion of the edifice to hold the deliberations, but commissioner Harkins' advisers warned him that ich action would lead to reports in ndia that Canadian officials had enared the holy precincts to force indus to emigrate. The deputation, ter sending word to Teja back and orth for an hour, left amid victorious louts from the Hindus in the upper mple. A few moments after the ndus ran after them, promising to ear the report. On reassembling in e lower room Teja Singh declared hat the conference would not be binddis pute arose between immigration ofionro and Teja in which many Sikhis arose as though to defend the latter. Finally commissioner Harkin said evidently the Hindus did not want to hear the report and left saying that nereafter the government would dethe government would deport Hindus coming under the immi-

VANCOUVER, Dec. 7 .- "In the first place we will not remove our shoes, in the second place we will not give you a chance of saying we invaded you to leave British Columbia. We have come here by appointment, and we shall meet you in the lower part of your building as we met you before, or the commissioner will be

of your building as we met you before, or the commissioner will be compelled to report to the Dominion government that you refused, upon a technicality, to hear his report."

That was the ultimatum sent to Teja Singh yesterday afternoon while the Sikh leader, acting as priest, was conducting services in the upper or sacred part of the Sikh temple. It was the refusel of Teta Sinch and the two sacred part of the sikh temple. It was
the refusal of Teja Singh and the two
hundred Sikhs and Hindus assembled
to depart from what they claimed to
be a custom handed down through
misty ages that will in all probability
arouse the wrath of the Dominion
government and result in the withdrawal of all further favors and the
deportation of all East Indians found
to be public charges.

to be public charges.

The evidence of yesterday afternoon when J. B. Harkin, Dominion government commissioner, and other officials visited the temple were at first seriocome in their nature, but suddenly approached a startling climax which, for a few seconds, seemed to narrow the part of the two hundred East Inwas an insult delivered by Dr. Monro to Teja Singh.

BIGGEST WEEK OF YEAR

SNOWSHOE'S SHIPMENTS ARE STEADILY INCREASING

GRANBY COMPANY IS MAKING IM-PROVEMENTS

(Special to The Daily News.) PHOENIX, B. C., Dec. 5—The Canadian Consolidated company's Snowshoe mine tonnages which have been showing a steady increase lately, averaged about 450 tons daily during the past week. It shipped 1220 tens to the B. C. Copper company's smelter at Greenwood and 2144 tons to the Consolidated smelter at Trail, the total of 3364 tons being the largest weekly shipment this The force at the mine is being gradually increased and it is expectd that after the beginning of the new year the Snowshoe shipments will show still greater increases. At Consolidated company's Phoenix Amalgamated, work is about to be commenced on a tunnel which will tap the shaft and cut off the grade to the proposed aerial tram for shipping purposes.

H. Johns, who is in charge of the derelopment work on the B. C. Copper company's Wellington camp proper-ties, returned yesterday from a trip to the company's Napoleon and Lone Star mines in Washington, of which he is also manager. The Napoleon is now employing about 30 men and shipping 150 tons of ore per day, part of which is shipped to the company's smelter at Greenwood, and the balance to the Granby smelter. Diamond drilling is being carried on at the Lone Star, where only a small force of men are employed. No shipping is being done at present though it will probably be rened in the near future. It is expected some test ore will shortly be

shipped from the Wellington camp pro-The Granby block has just been purchased by the company from Messrs. Graves and Williams of Spokane. The building was erected some years ago by the late owners as a business block, part of which has been used as the ocal offices of the Granby company. Since acquiring the property the comting as well as enlarging it for the convenience of the different departments. A steam heating system has

been installed throughout.

The old bucket tram conveyor at the No. 3 Granby tunnel is being replaced by a new 42-inch rubber belt conveyor, similar to the one in use at the Victoria shaft which has given excellent

satisfaction. The installing is now about completed, and the new conveyor will have a capacity of 150 tons per hour. At the No. 3 crusher a new 150horse power Westinghouse motor has been installed, replacing two 75-hor power motors. A new electric pump has also been installed in the No. 3 tunnel. Owing to these improvements going on the shipments from the Granby ware considerably under the average his

A contract has just been let for another 25 feet on the Columbia group in-cludes the Tredwell, Mascott, Rio Tinto No. 1, and Calumet claims on which a large amount of money has already been expended in development work. expected to tap the leads which had a splendid showing on the surface.

FRUIT GROWERS' ASSN.

OPEN LETTER FROM PRESIDENT JAMES JOHNSTONE

MAKES REPLY TO SOME LOCAL CRITICISMS

has handed in the following self ex-

planatory letter for publicaton:
A marked copy of a local publication
of Dec. 4th has been sent to me in which a number of statements are made not Gourman Wood variety, which which are absolutely incorrect and are were the variety which only brought made up not from facts but out of the imagination of the writer who styles was that if exhibition packed cherries imagination of the writer who styles himself "we." I have a great objection to rushing into print in reply to every absurd accusation which may be made, but as some of the questions asked in this article are of the most vital importance to the fruit growers of this district I will endeavor to answer the most important ones as they occur.

The local association was entirely responsible for the proper loading of the cars at Kootenay Landing and for the condition of the fruit when loaded.
Had the strawberries been in a cool condition when loaded and had the cars been properly loaded the season's erop would have netted the growers about two dollars f. o. b. at the wharf. The Victoria F G. A. shipped their strawberries through the Central exchange to the same wholesale houses and through the same agents as Kootenay and the rebates charged against the Victoria fruit on the season's business are less than \$175, in fact the percentage is so small that it is not worth considering. The Victoria delegate, Mr. Puckle, stated in reply to questions at the recent convention at Revelstoke that they took a day to load a car of fruit and that he considered it impossible to properly load a car in less than from four and a half to five and a half hours and that it is impossible to brace a car of fruit when in motion. The statement of Mr. Puckle was corrobor-ated by all experienced shippers present. Some of our cars were loaded in fifty minutes. In the case of one car remaining unloaded or unopened for the market at Calgary was flooded at he time by a shipment from outside the Exchange. The car bunkers were examined and found to be well iced, and had the fruit been in fair condition when shipped from Kootenay Landing it should have stood holding over under the circumstances for forty-eight Hood River cars have been held over under similar circumstances with no

bad result. The case of two cars lost is as follows: The local association reported two cars to the Central Exchange as sent to Revelstoke until Mr. Beeston brought it with him this week. great many mistakes are made by receipt accompanied the letters from Nelson the central office had no proof of receipt of cars to work from when the Express company stated that the cars had not been received from the Kootenay association. It will be a very simple matter now for the Central to trace up now these cars. I ex-

The statement that other associations than Kootenay have had similar trouble and have turned down the which were shipped as No. 1 grade for export to Australia as an advertise meeting of the delegates was the most harmonious. The only serious grievance outside Kootenay was a case of produce shipment, the dispute being in the name of a certain variety of potatoes. The white Burbank variety grown in the dry belt of Ashcroft, is known as the Ashcroft potato and has long commanded a price of \$5 per ton in advance of Early Rose or any other variety in the Vancouver market. A shipper forwarded several sacks of red potatoes last season in a car which was sold as Ashcroft potatoes at Ashcroft prices. The wholesaler, when he saw the red potatoes, investigated the way bill and found that although shippay Ashcroft prices for any potatoes in that car or for any potatoes which have since been shipped from any dry belt point outside of Ashcroft station. This whole matter is now under arbitration. In a point of law the Central Exchange may be wrong in spite of common practice in the past as to the name Ashcroft potato, but had the shipper in the first instance not attempted to secure Ashcroft prices for

tion was notified by the Central Ex-change and the officers of the Domin-ion Express company for the strawberries were arriving in bad condition owing to being improperly loaded in the cars, but the letters and telegrams remained in the office and no means were adopted to remedy the trouble until too late to save the season's crop. I knew that fruit was arriving in poor condition but also knew that at least one car, most of which I saw on the steamer Kuskanook, should never have been shipped out, but what could be done with the 700 crates it contained? The Nelson market was glutted and we had no jam or canning plant. Had they been shipped back to Nelson from the Landing the price received would not have covered return express-charges. Had the weather been cooler and the car properly packed they might have reached destination and paid exhave reached destination and paid expenses to the grower; but they did not have either of these conditions and they were worthless on arrival and condemned by the government inspec-

I now come to the second paragraph James Johnstone, president of the and will state that it would not surse. C. Fruit Growers' association, has prise Mr. Brandrith to know that cherries were sent to the Calgary fair and were sold at \$1.50 per box. I received \$1.75 for some varieties of cher-ries sent to Calgary fair but they were only brought 60 cents when he sold the locomotive and themselves ran it them the Central Exchange did well enough to sell the same variety cherry

it to a stop, rifled the mail car, and for the same price or more. Last year I received \$2 from the Central Exchange for my Gourman Wood cherries on the track, and proceeded three miles and this year I did not average 65 to Mead. There a rig was awaiting cents. This was caused partly through low market prices and to a great extent through being in the same cars is supposed that they were on their way with heated strawberries.

I am told that I should have gone known.

week or ten days after Kootenay ship-

ments commenced, Mr. Bryden of Vic-toria passed through Nelson and rang me up on the telephone to tell me that they had marketed their fruit through the Central Exchange this year to bet ter advantage than on any previous occasion. Mr. Bryden was my predecessor as preident of the B. C. F. G. A. but was opposed to Victoria joining the Central Exchange because he considered that they had a local market in Vancouver and that they had had experience enough to take care of them selves. When, therefore, Mr. Bryden of his own accord was good enough to call me up to tell me that the Central Exchange had given him and his association satisfaction I knew that I did not require to go to Revelstoke to investigate trouble, but that I would find the cause nearer home. I have paid out more towards the funds of the local association and received in pro-portion less for fruit shipped than any other member, as the books will show. So I can afford to ignore the false accusations which are often made by ir-responsible parties. The Central Exchange has been at a serious disadvantage owing to lack of capital. It is impossible to do business without sufficient capital. We had estimates of a \$400,000 business but several associations shipped part of their fruit and produce through us because they were afraid of our financial standing. The result is that we only did a \$120,-000 business, and we had prepraed for one of three times the size our cost of handling the business has been in exbeing shipped. The Dominion Express company at point of destination denied having received the cars. It is distinctly pointed out in the margin of the Central Exchange shipping form that the original receipt from the Dominion Express company must accompany all statements of car shipments pany all statements of car shipments before any returns were received. Under these circumstances business men der these circumstances business men has thrice appeared to answer three of has three appeared to answer three appeared to answer three of has three appeared to answer three of has three appeared to answer three of has three appeared to answer three appeared to answer three of has three appeared to answer three among your readers will realize the difficulties which we have had to contend with, which made "Frenzied Fi-nance" tame as compared with Censuippers as to car numbers, and as no tral Exchange finance. I am glad and proud to say that we have a body of splendid fruit growers in this province who see in the Central Exchange sys-tem the only true plan to ultimate and make it the success that it dein circulation as to trouble with our pect the fruit had been transferred into other cars en route by the Express company, so that car numbers did not company, so that car numbers did not correspond.

The ignorance of disnonesty—which assassination of Francis J. Heney, who some of the shippers. Dishonesty it originally had charge of the present undoubtedly is in one glaring case. In this connection six carloads of apples which were shipped as No. 1 grade for ment and sample of what B. C. could produce were in Vancouver last week condemned by the Dominion government inspector as falsely marked and

unfit for export shipment. In conclusion let me say that some those who live in glass houses refrain from throwing stones. JAMES JOHNSTONE. President B. C. Fruit Growers' Assn. P. S.—With further reference to the statement that I should spend more time in Revelstoke. I knew, as facts prove, that the trouble was at home. The writer must also be ignorant of the ped from the dry belt it was not ship-ped from Ashcroft and he refused to ary, commission or emolument of any kind and that I have some business of my own to attend to. The time which

I have spent in Revelstoke and other

districts of our province in the inter-

SPOKANE, Dec. 10-Three men held up an east bound Great Northern train No. 4, a mile and a half east of Hillyard in this state at an early hour this morning, robbed the mail car and made their escape. Only the presence of mind of W. Perrine, the fireman, prevented the looting of the express car which carried a large amount of money, including \$20,000 consigned from a Spokane bank to a Montana town.

The train had slowed down in the

yard at Hillyard when three men all armed with revolvers crawled over the tender, covered the engineer and fire-man and ordered the train to be brought to a stop a little over a mile from the station. The engineer obeyed and when the train had come to a stop the bandits forced the engineer and fireman to. leave their cab. While two of the robbers stood guard over the engineer the other took fireman Perrine back to uncouple the mail and express cars from the rest of the train. In the darkness the bandit failed to note that the first car was the mail, while the second was the baggage car and the express car, which contained the desired booty, was the third in the train. Perrine saw the mistake and quickly taking advantage of it, in spite of the menacing revolver held close to his head, cut off the mail and baggage cars, leaving the express car attached to the dead train.

The robbers then left the enginee and fireman with the train and boarded Mead. There a rig was awaiting there. The amount of the booty is un

to Revelstoke and remained there when I knew that trouble existed. About a SPOKANE, Dec. 10-R. C. Morgan, ssuperintendent of the Spokane Falls and Northern railway has issued the following notice to all the agents of the company: The Great Northern Railway company will pay \$3000 reward for the arrest and conviction of the persons engaged in the hold-up and rob ery of train No. 4 east of Hillyard last night. Agents will advise all local newspapers so that full publicity will be

JURY SAY RUEF GUILTY

CAREER OF THE PRINCE OF GRAFT IS ENDED

MOST NOTABLE TRIAL IN ANNALS OF COURTS

SAN FRANCISCO, Dec. 10-One ... the most remarkable trials in the history of California ended today with the discharge of the jury that has been considering the fate of Abraham Ruef, charged with the bribery of a former supervisor to procure the passage of a trolley ordinance, and which nave delivered a verdict of guilty. Both in duration and by reason of the startling and unusual occurrences that have ettended its progress, the trial nas be come the most important outgrowth of the exposures in the summer of 1906. when a grand jury, after hearing the confessions of sixteen members of the the scores of indictments pending against him. In the first case, wherein Ruef was charged with extorting money from the proprietors of a French rest-aurant, the defendant pleaded guilty. In the second trial on a charge of ray ing bribed supervisors in the application of the Parkside Realty company success, and they will stay together for a trolley franchise, the jury ais agreed after seven hours of delibera The rumors which are now tion. The present trial was on an indictment charging Ruef with bribing for case against Ruef, was perhaps the most startling outcome of the third Ruef trial. Hency was shot while in the court room on Nov. 13, by Morris Haas, a liquor dealer who later com mitted suicide in his cel in the county

Francis J. Heney, appeared as a witness today at the trial of attorney Frank B. Murphy, accused of attemptwholesalers and commission men in ing to bribe a juryman in the Kuef the country may be crooked but let bribery case. The assistant prosecuting attorney who had not been in court since he was shot in judge Lawlor's court room, appeared to be entirely well.

WATER SHORTAGE

Lumber and Mine Mills Closed Down-New Tram Line.

(Special to The Daily News.)
GRAND FORKS, Dec. 9—The Yale Columbia Lumber company's sawmill at Cascade has been shut down for the season, owing to the water being frozen over so that logs could not be got to est of fruit growing is spent entirely for the public good, and I derive no more benefit from the result of such the mill from the boom. The planing mill will, it is expected, run until the end of the month, when it also will shut down until next spring.

work than does any member of an as-sociation who stays home and never Word comes from Hedley, B. C., that spends an hour in the public interest. owing to the shortage of water the have to shut

down the latter end of the month for a period of about five months. This property is owned by the Daly estate, and is the largest producing gold mine in the province, if not in the Dominion of Canada. It is estimated that the net profits for this year will be in the neighborhood of \$450,000 Since the

amount of development work, which can be carried on throughout the winter months.

The Golden Eagle Mining company, which is controlled by Vancouver, B. C., men, is installing an aerial tram line between its mine situated on Valencia.

The Golden Eagle Mining company, which is controlled by Vancouver, B. C., men, is installing an aerial tram line between its mine situated on Valencia.

Companying at a past parted at the

tween its mine, situated on Volcanic mountan, about fourteen miles north of this city, to the tracks of the Spokane & British Columbia railway company's North Fork branch. The tramway will be a single track affair with a crossing in the middle to permit of the cars passing one another and will be worked by gravitation.
