The Editor has conscientiously endeavoured to prepare a book which shall be found full and accurate, and to be truly representative of Canadian achievement, intellect and worth; still, as mistakes are inseparable from all human undertakings, he is not without misgivings that he may have fallen into errors, but he is not without hope that these will be found few and trivial.

It is intended to make *THE CANADIAN MEN AND WOMEN OF THE TIME* a permanent institution in the land, a new edition, thoroughly revised, appearing every three years. Suggestions for new names, corrections and additional information are respectfully invited.

The Editor feels himself under a great weight of obligation to many gentlemen throughout the country for valuable assistance rendered him in his present task. To one and all he here tenders the expression of his most grateful acknowledgments.
