WINNIPEG CONVENTION.

The fifteenth convention of the Canadian Forestry Association for the presentation of addresses and papers and the discussion of forestry matters will be held in Winnipeg, July 7, 8 and 9, 1913. Problems of the greatest importance to the whole of Canada will be discussed. While special attention will be given to prairie conditions the program will bear testimony to the national character of the work in that the problems now pressing for solution in both East and West will be carefully considered. Assurances have been received from the Dominion and nearly all the Provinces that they will be officially represented, and a number of the men in the United States best qualified to give assistance in regard to our conditions have already signified their attention of coming to Winnipeg.

While the exact details of the program cannot be outlined for some little time it is expected that the proceedings will be opened by His Honor the Lieutenant Governor on Monday evening, July 7, at an official reception in which the delegates will be welcomed by the representatives of the Government of Manitoba, City of Winnipeg etc. The following two days will be devoted to the work of the Convention along with such entertainment features as shall be arranged.

The public sessions will be held in one of the halls of the Winnipeg Industrial Bureau, which is well adapted for handling conventions of all kinds, being centrally located and having the necessary offices, committee
