

## The Phiacs dance-a-thon is arriving

York University and PHIACS will present the first annual 30 hour "Dance For Those Who Can't" Dance-A-Thon, to be held September 28 and 29 in Winters College on the main York Campus. PHIACS (Physically Handicapped Independent Advancement Community Services) is a non-profit organization, concerned with providing transportation services for the more than 100 physically handicapped students on the campus, as well as others who are physically handicapped in Metropolitan Toronto.

All proceeds from the Dance-A-Thon will be used for operating expenses of the two new vans which the students will use for transportation. Dance organizers say they need dancers, sponsors and spectators.

The grand prize to be awarded is a one week trip for two to Nassau, provided by Skylark Holidays and Toronto Travel.

The Dance-A-Thon will begin at 6 pm Thursday, September 28 and continue until midnight Friday, September 29. It is open to the public and dancers are asked to register in the CYSF office 667-2515 in the Ross Building on the main York campus by September 26. Each dancer should be sponsored for at least \$5 per hour in order to participate. There is room for 200 dancers, and the admission fee for all is \$3 which includes refreshments.

Live music will be provided by Dusty Roads, Saul Hellman Orchestra, Westview High School Band, Lady's Finest and Shazam.

# It Sounds Incredible

BUT EVELYN WOOD GRADUATES CAN READ

JAWS IN 41 MINUTES

At That Speed, The 309 Pages Come Across  
With More Impact Than The Movie.  
In Living Blood, You Might Say.

You can do it, too. So far almost 1,000,000 people have done it. People who have different jobs, different IQs, different interests, different educations have completed the course. Our graduates are people from all walks of life. These people have all taken a course developed by Evelyn Wood, a prominent educator. Practically all of them at least tripled their reading speed with equal or better comprehension. Most have increased it even more.

Think for a moment what that means. All of them—even the slowest—now read an average novel in less than two hours. They read an entire issue of Time or Newsweek in 35 minutes. They don't skip or skim. They read every word. They use no machines. Instead, they let the material they're reading determine how fast they read.

And mark this well: they actually understand more, remember more, and enjoy more than when they read slowly. That's right! They understand more. They remember more. They enjoy more. You can do the same thing—the place to learn more about it is at a free speed reading lesson.

This is the same course President Kennedy had his Joint Chiefs of Staff take. The same one Senators and Congressmen have taken.

Come to a free Speed Reading Lesson and find out. It is free to you and you will leave with a better understanding of why it works. Plan to attend a free Speed Reading Lesson and learn that it is possible to read 3-4-5 times faster, with better comprehension.
