

Our Duty To Canada and the Empire

HAVE you realized the great responsibility that rests upon us all here in Canada, at this trying period in the history of the Empire? As Canadians, living at home in peace and tranquility, our duty is quite as important as that of our sons who have gone to the front.

That duty is to **PRODUCE**—and in order to provide for the enormous increase in production it is necessary for **YOU**, upon the farm, to put your barns in shape to accommodate your increased production, and for **US**, here in the factories to turn out metal building materials for the proper safeguarding of your increased crops.

We are doing our duty to Canada and the Empire, inasmuch as we, The Pedlar People, have not discharged a workman

nor reduced one man's salary since the War started. Our factories are still running with the same complement of men as employed one year ago, before the war was thought of.

Our warehouses are piled to the roof with raw materials—our stockrooms are filled with an abundance of manufactured articles.

Are you doing **YOUR** share?

Write us for quotations on *Oshawa Galvanized Steel Shingles, Corrugated Iron Roofing and Siding, Brick and Stone-faced Sidings, Corro Crimp Roofing, Silo Covers, Culverts, Eaves Trough and Conductor Pipe, Finials and Ornaments*—anything and everything in Sheet Metal.

Write To-Day for Booklet. L. F. Address Branch Nearest You.

Make Your Farm PAY

WITH a good prospect of high prices for farm products in sympathy with the advance now taking place in wheat and grains, the coming year should be a good one to crowd production, and make your farm *pay*.

You Can Do It With Bradley's Fertilizers

They have been for over fifty years the standard by which other fertilizers are judged. They have always brought good crops and improved the soil. They are "*crop producers and cost reducers.*" Old friends will continue to use them. We invite new ones to investigate their merits. Send for descriptive booklet.

BISHOPRIC SHEATHING

SAVES 25%

does the work of Lumber and Sheathing Paper—does it better—and costs less. Made of heavy sheets of Asphalt-Mastic, reinforced with kiln-dried laths, Bishopric Sheathing is strong and rigid, and absolutely proof against wind and dampness, rats and vermin.

Bishopric Sheathing makes a splendid lining for barns, stables and granaries, and interlining for walls and floors of houses and cold-storage rooms.
