

### Makes the Neatest, Smoothest Bales

The city dealer or exporter will pay you more for your hay if pressed into bales by the Dain Pull Power Press, because Joseph Dain's patented tucker makes bales that no other hay press can duplicate. They are smoother, neater, more firmly compressed. The skeleton drawing will give you an idea of the principle of the Dain tucker, and we advise you to study it carefully.

A is the tucker. It is a plate, the width of the bale chamber, with a flange at the top and a lip at the bottom. The tucker is pivoted on B, which is a strong rod attached to the top of the bale chamber. C, C, are two coil springs. One end is attached to the flange of the tucker, the other to the top of the baling case. D is the plunger that compresses the hay. The bottom of the tucker is a little above the top of the plunger.

When the plunger starts, the tucker is straight up and down. As the plunger moves in, the hay draws the tucker inward, as shown in the illustration. When the plunger moves out, the coil springs, C, C, force the tucker back to its former straight up and down position, and, as it returns back, the lip at the bottom folds the overlap down flat and even without wadding. The completed bale is smooth on both top and bottom.

The Dain does the fastest baling—and without overtaxing either man or beast. It has a wide feed opening. You have lots of time to put in a big charge of hay. The feed table is convenient, and the plunger remains still and the feed chamber open its full length on one-fifth of the circle. The immense leverage, 160 to 1, allows us to use the short nine foot sweep, thus, in the same time, the team travels around the circle more often and more hay is baled than when horses have to complete a wider circle. For greatest convenience in operating, moving and setting, for greatest durability, buy the Dain Pull Power Full Circle All Steel Press. But, first send for our catalog and prices. Also tell us how much hay you will have to bale this season, and we will show you how you can secure more money for it by taking advantage of our Co-operation plan. A great many farmers are going to make bigger profits by this plan this season. There's no reason why you should not, so write for particulars this very day.

DAIN MANUFACTURING COMPANY, LIMITED,

World's Largest Hay Tool Makers.

90 Dain Ave., Welland, Ont. 2

# Dain Pull Power Press

Dain Mfg. Co. Ltd. Welland, Ontario.

The Favorite and the Best Value for the Money of Them All is

### TOLTON'S NO. 1 DOUBLE ROOT CUTTER

#### POINTS OF MERIT:

1. To change from pulping to slicing is but the work of a moment.
2. There are two separate wheels, one for pulping and the other for slicing.
3. The united force of both wheels is always used in doing the work in either capacity.
4. The hopper is between the wheels and does not choke.

THE ONLY DOUBLE ROOT CUTTER MANUFACTURED. Fitted with Roller Bearings, Steel Shafting and all that is latest and best in principle, material and construction. SEND FOR DESCRIPTIVE CIRCULAR AND PRICES.

TOLTON BROS., LIMITED, DEPT. F., GUELPH, ONT.

### Galvanized Heavy Steel Hog Trough

4, 5, 6, 7, 8, 10, 12 FEET IN LENGTH.

This trough has no equal on the market. Made full length without a seam or rivet. Ends are cast iron, and will never wear out, and fastened to our trough by a patented device. Clean, sanitary, durable.

It pays to use up-to-date goods. Hogs are paying the highest dividends on the farm. Why not fit up the pens with the best improved devices and increase your dividends.

ERIE IRON WORKS, LIMITED, MANUFACTURERS, ST. THOMAS, ONT.  
If your dealer does not handle the goods, write to us for full information.

### Domo Cream Separators

Are better than all other separators, and cost less than half. Six sizes, from \$15 and upwards. SIMPLE, EASY-TURNING, DURABLE, CLOSE-SKIMMERS, and GUARANTEED. Not simply as good, but BETTER. We send them to YOU on approval, freight prepaid, and you are out nothing if not satisfied. Write to-day for our circular "A," which gives remarkably low prices. It's free.

J. H. MORROW, BRIGHTON, ONT.

## Pays for itself in fuel saved

Don't allow a few extra dollars to prevent you from taking the perfect-cooking, sure-baking, easily-regulated Pandora in place of a cheaper stove. In a season or two Pandora will pay the difference in the fuel it will save—and it will keep on saving until it has paid for itself.

Pandora special flue construction makes fuel do double duty. Wide fire box is another fuel-economizer. The steel oven heats quicker than a cast oven, thus saving still more fuel. Further economizing features will be explained by the McClary Agent.
