A mistake occurred in No. 9 assessment notice, regarding the date of initation of John Murphy in Branch No. 114, Niagara, Out. He was initated Dec. 23, 1889 (not 1892), and was forty-nine years of age when admitted.

Meeting of the Board of Trustees.

A meeting of the Board of Trustees of the Grand Council of Canada was held in Tronto on the 18th and 19th inst.

There were present: Grand President O. K. Fraser, Grand Secretary S. R. Brown, Trustees Revd. M. J. Tiernan, T. P. Tansoy, P. J. O'Keefe, Lasalle Gravelle and J. J. Behan. There were also present Assistant Gran! Secretary J. E. H. Howison, Supervising Medical Examiner Edward Ryan and Solictor F. R. Latchford.

Considerable business was transacted. The Board recommends to the coming convention the omission of the medical form attached to the application for membership. Hereafter the report of acceptance or rejection of candidates may be sent direct from the Supervising Medical Examiner in the Exame of the official Examiner in the first of the official Secretary of the Branch instead of the Recording Secretary. It was proposed to add to the constitution that hereafter the credentials of the representatives be sent to the Grand Secretary at least a month prior to the Convention.

The Grand President and Grand Secretary were empowered to have official blank ballots printed for the convention election.

Only such delegates as are present at the opening of the convention and remain during all its sessions will be allowed their expenses. The Board recommends to amend the constitution so as to make all medical fees payable to the Branch Financial Secretary, and the supervising medical examiner's fee for warded by him to the Grand Secretary who will keep an account with the Supervising Medical Examiner, and local medical examiner's fee to be paid by the branch.

The Board recommends also that only thirty days be allowed to members to replace their advance beneficiary. Appeals from Dublin, Calgary and Caroquette branches were approved and allowed to be issued.

Several other appeals were disallowed.

from Dubin, Caigary and Caroqueries branches were approved and allowed to be issued.

Several other appeals were disallowed. Signs and passwords were recommended. The Grand President was instructed to perfect arrangements for St. John's convention forthwith.

Solicitor F. R. Latchford submitted the altered form of certificate which the superintendent of insurance desired should be filed before his license issued, and the Board being of opinion that they had no power to alter the form of certificate recommends for adoption by the convention the form of certificate proposed, and that the consideration of this matter be the first brought before the convention, and that in the meantime copies of the proposed certificate be filed with the Superintendent of Insurance.

The proposed changes in certificate will not affect any certificates already issued.

The Grand Secretary was instructed to procure the vault room necessary to protect the property of the Grand Council and also to place \$100.00 of insurance on the C. M. B. A. property of the Grand Council.

The Treasurer's Bond.

To the Editor of the CATHOLIC RECORD— Dear Sir and Brother—If it is not too late to make a suggestion to the Committee on Laws with a view to action thereon at the coming meeting of the Grand Council, I would respect-fully submit for their consideration the sub-ject of this letter, as it appears to me a mat-ter of much importance to our association.

meeting of the Grand Council, I would respectfully submit for their consideration the subject of this letter, as it appears to me a matter of much importance to our association. I refer to the treasurer's bond.

Let me not be misunderstood. To the treasurers of our branches I make no personal reference whatever, nor would I be thought to hint the faintest suspicion regarding their honesty and integrity. They are worthy men, all of them, taking much pains and no little responsibility to oblige their brethren and further the ends of our association, and that without any reward. But men are only mortal, and often are unable to control circumstances; and whereas, with the best of intentions they assume the performance of certain duties, a reverse of fortune may take away the means of discharging them, or, at least, prevent their full and satisfactory accomplishment.

The constitution speaks as follows regarding the treasurer's bond: "Before entering upon the duties of his office he (the treasurer shall give to the President of the Branch his bond, with at least two approved surelies, for the faithful performance of his duty, for such amount as the branch may deem satisfactory." This clause would seem togically the security required, but as a matter of fact it does not. Cases may arise in which this requirement of the constitution is no guarantee whatever that the branch funds will be sufficiently accounted for.

In most of the branches I know of, the branch will be sufficiently accounted for.

In most of the branches I know of, the branch will be sufficiently accounted for.

In most of the branches I know of, the branch will be sufficiently accounted for.

In most of the branches I know of, the branch will be sufficiently accounted for.

In most of the branches I know of, the branch will be sufficiently accounted for.

In most of the branches I know of, the branch will be sufficiently accounted for.

In most of the branches I know of, the branch will be sufficiently accounted for the proper sufficient to a subject

sult of the fellowship begotten of brotherhood. Besides this it is difficult and often inpossible to get outsiders to act as sureties, and refusal from outsiders submits a respected officer to some humiliation. Where outsiders will act it puts an officer who receives no salary under an undue obligation to persons who have no interest in the C. M. B. A. The treasurer naturally looks to fellow-members as his sureties; and if the question of the location of bondsmen was looked up throughout the country, the result would prove the truth of what I have stated. Now, \$uppose that a treasurer, with the branch funds placed in his general bank account, or in a special account subject to withdrawal by himself (it matters not which, since ho has given bonds) becomes involved in outsiness from any cause and unable to pay the branch what he owes, what will the result be? The bondsmen, members of the branch, are of course liable. And this is where the ack of security attaches to the treasurer's bond. I maintain most positively that there is not a branch under the jurisdiction of the Grand Council that would oblige bondsmen, members of the branch, to make good the loss.

It is useless to say it would be only just to enforce the bonds. It would be the proper

oblige bondsmen, members of the branch, to make good the loss.

It is useless to say it would be only just to enforce the bonds. It would be the proper thing to do, of course. But what branch would do it? Human nature acts on the same manner in parallel circumstances; and the same fallacy we have heard so much of late from our brethren of the C. M. B. A.—that charity is the basis of our association—would come into play in the case I suggest (this time perhaps with some show of reason), and the bondsmen would be liberated. Business principles are the foundation of our association; charity comes later as its beautiful and admirable superstructure. The present system of taking bondsmen from the branch is not in my opinion a business method, and while I do not know that such a calamity as I lay down has occurred, I see that it is possible. If there is a better plan for placing our funds it should be discovered, and I shall be glad if the Committee on Laws or some thoughtful brother will evolve a solution of the difficulty.

MEETING OF DIVISION NO. 1.

Toronto, July 16, 1894.

The regular meeting of Division No. 1, held in the Temperance hall, on Sunday atternoon, July 15, was largely attended and made as interesting as usual for the members. Several important matters of business were taken up and transacted: a very encouraging report came from the delegates of the excursion committee, stating that all final arrangements were completed for the grand union excursion to Buffalo and Niagara Falls on Saturday, August 4, per palace steamer Empress of India and Erie railway. On arrival at Buffalo they are invited to attend a grand union picnic to be held under the auspices of the brothers of Buffalo, in honor of the Toronto visitors. It promises to be a grand day's outing for the members of the order and their friends. The remainder of the election of officers and the appointing of different committees, left over from the last regular meeting, was then taken up. The newly - elected officers were installed for the ensuing term by retiring President Jos. Rutledge and conducted to their respective places by the sergeantat arms. A hearty vote of thanks was tendered the retiring officers for the capable manner in which they dispensed the duties of their respective offices during the past term, to which Brother Jos. Rutledge, the retiring president, teplied, thanking the members in very appropriate lauguage for their kind vote of thanks and the generous support he had received from them during his term of office and paying many high tributes of respect to his successor, T. McKeague. Brother M. J. Ryan, Secretary of Division No. 2, and Brothers T. Marshman and G. Richardson of Division No. 3, were present at the meeting. With a few remarks from the president, instructing all the members to meet at Temperance Hall on Sunday afternoon, July 29, for the purpose of attending a church parade in conjunction with the several other Division No. 1. was brought to a close.

LETTER OF CONDOLENCE.

At the last regular meeting of 8s. Patrick Branch No. 12 the following resolution of condolence was unanimously adopted:

Whereas, the all wise Providence in His infinite wisdom having called to his Eternal reward the beloved Brother of our esteemed friend and brother, Wm. Burns, Resolved, that we, the members of Branch No. 12, fully recognizing the sad loss that Brother Burns has sustained, wish to tender to himself and family our sincere sympathy in this the time of their sad berevement; and we pray the all-wise Providence will give them grace to bow with Christian fortitude to His divine will.

Resolved, that a copy of this resolution be spread on the minutes of this meeting, and sent to brother W. Burus, and one sent to the Grand Secretary-Treasurer for insertion in the official organ.

Toronto, July 20, 1804.
At the last meeting of Sacred Heart Coart No. 201. Toronto, five candidates were initiated members of the order and of this Court, and proposition was presented for membership. An excellent time was spent. As it was the eve of holding our annual excursion, further arrangements were made for that occasion.

A few remarks being made by several members an enjoyable evening was brought to a close with prayer. Several candidates will be initiated next meeting, which will be held August 2nd.

initiated next meeting, which was a grand August 2nd.
Catholic Foresters of Toronto spent a grand time at Oakville on Saturday. Although the morning looked rather unfavorable, there were quite a number out to catch the early boat leaving Yonge street wharf. As the day passed on larger crowds gathered to go on the later boats, every one seemed to enjoy themselves and returned home satisfied.

HON. J. J. CURRAN, SOLICITOR GENERAL.

The following eloquent speech, delivere by Solicitor General Curran, at the Board of Trade banquet, in Montreal, in honor of the Colonial delegates, is well worthy careful perusal. Mr. Curran is at all times imbued with the most lofty ideas in regard to the future of our great country, a quality which should animate every son of Canada, whether native or adopted, or whether in public or pri vate life. The hon, gentleman rep toast "The Parliament of Canada." The hon, gentleman replied to the

vate life. The hon, gentleman replied to the toast "The Parliament of Canada,"

Hon. Solicitor General Curran, who was greeted with cheers, said: His first duty was to thank the chairman for his kind invitation, and then to extend, on behalf of the body he spoke for, a welcome to the distinguished guests of the evening. A welcome had already been extended in brilliant expression by His Honor the Lieutenant Governor, and the language in which he addressed them indicated the branch of the great Celtic family to which he belonged. (Hear, hear.) His honorable friend, the Hon. Mr. Bowell, had told them that he was an Englishman, and now to make matters as complete and comfortable as possible his welcome would be comprised in three words, "Caed mille jailthe." (Cheers.) Mr. Lee Smith, who might rest assured that he was much more popular in Canada to-day than his namesake Goldwin (laughter), had told them something of the ways and ideas of the colony he so worthly represented, and amongst other things he had informed them that the glorious privilege of female suffrage was in full force and effect in that happy land. (Hear, hear.) Looking at the specimens of female loveliness, now on the floor of the banquet hall, who accompanied the delegates on their mission, was it surprising that female suffrage had been granted to them? In fact, nothing could very wall be rejused to such a bevy of beauty. (Cheers.) In extenuation of any fancied remissness of the Parliament of Canada, in that regard, he would say at once, that there was no indisposition on the part of our legislators to grant the suffrage, but the charming daughters of Canada

and the responsable control of the process of the control of the control of the process of the control of the process of the control of the process of the control of the control of the process of the p

egis' ators were diverted from the consideration of great issues by crotchety people, who would see nothing good outside of one language. Their gathering had got along pretty agreeably with the use of two that evening. (Cheers.) The Canadian people would not object to

QUADRUPLE THE LANGUAGE
by the addition of the Dutch and the Maori, with which they had been threatened by the distinguished guest from the Cape of Good Hope, and his colleague from Victoria. (Cheers.) It mattered not what language sentiments of loyalty to the Empire were uttered in. Words of unity, of consolidation, of cordial feeling, sentiments of brotherhood amongst all Her Majesty's subjects in every clime and beneath every sky fell gratefully on the ear of the patriot however spoken, and it was the ardent hope of all, that in the Parliament of Canada an overwhelming majority of men would always be found why would rise equal to the duty they have to perform, and be worthy of the noble heritage confided to their keeping. (Prolonged cheering.)

of all the ills that flesh is heir to perhaps none causes the sufferer keener anguish, and few are more persistent and more difficult to eradicate from the system than that nervous disease known as sciatica. The victim of an aggravated form of this malady suffers beyond the power of words to express, and it is with the utmost reluctance that the disorder yields to any course of treatment intended for its cure. Hearing that a rather remarkable cure had been effected in the case of Mr. William Baptist a respected resident of the township of Culross, a News reporter called upon that gentleman to ascertain the facts. Mr. Baptist is an intelligent and well to do farmer. He is well-known in the section in which he resides and is looked upon as a man of unimpeachable integrity. He is in the prime of life, and his present appearance does not indicate that he had at one time been a great sufferer. He received the News representative with the utmost cordiality, and cheerfully told the story of his restoration to health, remarking that he felt it his duty to do so in order that others afflicted as he had been might find relief.

Up to the fall of 1892 he had been a healthy man, but at that time while harvesting the turnin croo during a spell of wet, cold and disagreeable weather, he was attacked by sciatica. Only those who have passed through a similar experience can tell what he suffered. He says it was something terrible. The pain was almost unendurable and would at times cause the perspiration to ooze from every pore. Sleep forsook his eyelids. His days were days of anguish cand high trought no relief. Reputable physicians were consulted without any appreciable benefit. Remedies of various kinds were resorted to and his condition was worse than before. The limb affected began to decrease in size, the flesh appeared to be parting from the bone, and the leg assumed a withered aspect. It appeared as a dead thing and a sit grew more and more helpless it is little wonder that the pope of recovery began to fade and proper se

WESTERN FAIR.

Our exhibitors should know from past experiences that those who apply early have choice of accommodations, as provisions are made on receip: of entries. Many have found in the past that to their own delay they might attribute the cause of dissatisfaction, if any, as it is almost impossible at the last moment to accommodate all. In this respect the Fair of 189 promises to require even more attention, as a number of our exhibitors have already made their entries.
