## GOPHERCIDE

(SOLUBLE STRYCHNINE)

as the greatest poison I have ever tried."

So wrote Oliver Y. Nicholson, of Bethune, Sask., on May 5th, 1914, adding:

"I have used all kinds of poison, but I never had so many gophers killed in half an hour as with Gophercide".

Gophercide is a preparation of strychnine which is just as deadly as the drug itself, but is so modified that it dissolves readily in warm water, and has none of that bitter strychnine taste.

The GOPHERCIDE solution is easily prepared—soaks right into the grain—poisons it thoroughly—stays there in spite of exposure to rain—and kills the gophers as surely as they eat it. And because the bitter taste is covered they devour the poisoned grain greedily.

GOPHERCIDE will do more than any other preparation you can use to clear your land of these destructive pests. One 50c. package used according to directions will kill 350 to 400 gophers. Get a package and prove it to your own satisfaction.

## Sixty Years of Protection in Canada

Every Farmer should read this Book and understand what the New Tariff means

By Edward Porritt

This book is acknowledged by all to be the most complete and enlightening history of the Canadian tariff ever written. It stands alone. Nowhere else can one find such a thorough-going treatment of the political and economic facts of protection, the influences which dictate tariff changes, the free trade movement in Canada, the various attitudes taken by the Liberal and Conservative parties and the importance of the Grain Growers' movement. The economic pressure felt throughout all Canada is bound to keep the tariff in the forefront of our national problems, and every Canadian voter should read this book and understand this question. It is written in a fascinating style and is as pleasant to read as a popular novel. No one can claim to be acquainted with the history of Canada who is not familiar with the facts contained in Mr. Porritt's book.

The contents of the book are as follows:—The Grip of the Protected Industries on the Dominion; The Repeal of the Corn Laws and the Fiscal Freedom for Canada; Reciprocity—The Movements for Free Trade and Annexation; Reciprocity—The Movement for the Elgin-Warley Treaty—1846-54; Reciprocity—The Abrogation of the Treaty—1854-1866; Reciprocity—Overtures by Canada between—1866-1900; The Beginning of the Movement for a National Policy; The First National Policy Tariff—1859-1870; The National Policy as a Measure of Retaliation—1870-1874; The Fight in Parliament and the Constitution for the National Policy—1874-1879; The National Policy in Operation—1879-1896—The Era of the Red Parier; The Liberals Adopt and Extend the National Policy—1896-1904; The Tariff Revision of 1906; Mergers and Water-wagon Finance; Home and Export Prices for Farm Implements; The Farmers' Organizations of Ontario and the Prairie Provinces; Sir Wilfrid Laurier and Mr. Borden in the Prairie Provinces; The Reciprocity Agreement with the United States.

Every farmer, editor, clergyman and teacher, as well as every politician and businessman, who is interested in public questions and the high cost of living should have a copy of "Sixty Years of Protection in Canada." The book contains 476 pages, is printed in large type and handsomely bound in red cloth covers, and fully indexed. Postpaid **\$1.25**
