

A. PINK NOTICE

A pink notice attached to this page shows that your subscription is in arrears. We have continued sending you The Guide because we believed you really wanted the paper and in the full expectation that you would pay for it.

THE GRAIN GROWERS' GUIDE

"Equal Rights to All and Special Privileges to None" A Weekly Journal for Progressive Farmers

Published under the auspices and employed as the Official Organ of the Manitoba Grain Growers' Association, the Saskatchewan Grain Growers' Association and the United Farmers of Alberta.

The Guide is the only paper in Canada that is absolutely owned and controlled by the organized farmers—entirely independent, and not one dollar of political, capitalistic or special interest money is invested in it.

No discount for time or space on any class of advertising. All changes of copy and new matter must reach us seven days in advance of date of publication to ensure insertion.

Farm Buildings Book—FREE!

House and Farm Building—Construction—Finishing—Furnishing—Equipment—Maintenance

The Guide offers its readers in this free book a special service outside of the regular editorial columns. This book will form a valuable work of reference to any farmer interested in this subject.

Realizing the difficulties that Western Canadian farmers are up against in obtaining suitable, definite and practical information concerning house and barn building, finishing, decorating, painting and equipping with heating, lighting, water and sewerage systems.

Under House Building ten plans of houses are given. Each consists of complete floor plans drawn to scale and with measurements shown, together with a drawing showing the exterior view of the house.

Under Barn Building five plans are shown, each accompanied by a full description much the same as for the houses. The barns may be described as No. 1, General Purpose Barn; No. 2, Homesteader's Barn; No. 3, Stock Barn, for dairy purposes particularly; No. 4, Stock Barn, for general stock; and No. 5, Metal Barn.

The General Articles section takes up such subjects allied to building as Lumber, its Uses and How to Purchase; Roofing Materials for Farm Buildings; The Use of Concrete on the Farm; Heating Systems for Farm Houses; Lighting Systems for Farm Houses; Water Systems for Farm Houses; Paints and Painting; and Interior Finish for Farm Houses.

The general idea has been to make the three sections link together to make in the whole a complete work of reference on this subject.

It was further decided, in addition to printing the articles in the paper, that the whole series should be collected and put together in a permanent form in the shape of a book and that this book should be offered free to any of our readers who desired it.

The book is entitled "Farm Buildings" and is well printed and bound. It is divided into three parts—House Building, Barn Building and General Articles.

GENERAL ARTICLES

- Lumber—Its Uses and How to Purchase Roofing Materials for Farm Buildings The Use of Concrete on the Farm Heating Systems for Farm Houses Lighting Systems for Farm Houses Interior Finish of Farm Houses Water Systems for Farm Houses Paints and Painting

THE GUIDE'S FARM BUILDINGS BOOK is a complete reprint of the articles on farm buildings, their construction, finishing, equipment, repair, etc., that have been appearing in its columns this winter, together with some new material.

One of the greatest defects of books on building is that they are too general and are, in many respects, not suited to the peculiarities of any one locality such as Western Canada, for instance.

Any farmer who contemplates building a house or barn, rebuilding or adding to any building already constructed, painting or decorating or putting in equipment for heating, lighting, water or sewerage, cannot afford to be without this practical work of reference.

The Guide offers this book, therefore, as a special service to its readers. It will be sent free and postpaid upon request as long as the supply lasts. We have printed a goodly number because we expect that the demand will be heavy.

This is the fourth free book that The Guide has issued this year for the benefit of its readers. In connection with the past three—Poultry, Seed Grain and Livestock—the supply was not equal to the demand.

Grain Growers' Guide, Winnipeg, Manitoba. Please send me your free book, "Farm Buildings."
