Liquozone—liquid oxygen—is the only way that any man knows to kill germs in the body without killing the tissues, too. Its results in a germ trouble are absolutely certain, for it always destroys the cause of the trouble. To prove this—if you need it—we will gladly pay for a bottle and give it to you to try.

for the rights to Liquozone for America. We did this after testing it for two years in 3,000 difficult cases, and proving that the results were inevitable. We state this price to show the value of Pauli's discovery. To-day the best physicians, the world over, use Liquozone alone in any germ disease. If you suffer from a germ trouble, you must use it, too: else germ trouble, you must use it, too; else rely on Nature alone to get well.

Germ Diseases.

These are the known germ disease All that medicine can do for these troubles covery of Pauli, the great German chemist, who spent 20 years on it. His object is to help Nature overcome the germs ist, who spent 20 years on it. His object was to get such an excess of oxygen in staple form into the blood that no germ could live in any membrane or tissue.

Liquozone does that. We spend 14 days in making every bottle, but the result is liquid oxygen—a germicide so certain that we publish on every bottle an offer of \$1,000 for a germ that it cannot kill.

Is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone kills the germs, wherever they are, and the results are indirect and uncertain. Liquozone kills the germs, and such results are indirect and uncertain. Liquozone kills the germs, and such results are indirect and uncertain.
