There are two classes who do not bear prosperity—one of them being those who do not get a chance to bear it.

### It is a Fact

It is a Fact well established that consumption if attend-ed to in its first stages, can be sured. There is, however, no true and rational way to cure this disease, which is really scrofulous ulceration of the lungs, except through purifying the blood. Keep the liver in per-fect order and pure blood will be the result. Dr. Pierce's "Golden Medical Discovery," a purely vegetable compound, does all this and more : while it purifies the blood it also builds up the system, strengthening it against future attacks of disease. Ask for Dr. Pierce's "Golden Medical Discovery." Take no other. Of druggists.
