Apple Shipments.

The shipments of apples from America to Great Britain from October to date this year have reached about 800,000 barrels against about 400,000 barrels the same time last year.

The heaviest shipments have been made from Montreal during the last half of November footing up over 75,000 to Liverpool, Glasgow, London all of which with the heavy shipments made from Boston and New York (in all about 150,000) will be put on the markets in December, and must keep prices from advancing if not cause a decline before Xmas.

Fortunately the shipments from Nova Scotia for the past three months have been almost nothing. Since the S. S. Belair left Kingsport on the 14th November to date not a single shipment of apples has been made.

Dr J. R. McLean, who confines his practice to the Eye, Ear, Throat, and the different forms of catarrhal diseases, is now in Kentville and will remain for several weeks.

The 9th annual meeting of King's County Agricultural Society was held Tuesday, November 6th, at 7 p. m., in Evangeline Hall, President Turo in the chair.

Shipment of apples made at this time of year (January) should be guarded against frost in land and rail carriage or being exposed over night in rail cars at stations or yards.

Apples can be sent here any fine day in car load lots for storage in the fruit warehouse cellar at 2 cents per barrel per month.

The freight will be put as low as it can be done and pay a fair commission, only shippers must send in promptly about what quantity they will guarantee to ship by a January 8. S. from Annapolis to THOMAS S. WHELAN, Annapolis Royal.
