Four Facts For Sick Women To Consider

Lydia E. Pinkham's Vegetable Compound
Has an Unequalled Record of Cures—Mrs. Pinkham's Advice Is Confidential, Free, and always Helpful

FIRST.—That almost every operation in our hospitals performed upon women becomes necessary through neglect of such symptoms as headache, irregular and painful menstruation, leucorrhoea, displacements of the uterus, pain in the side, burning sensation in the stomach, bearing-down pains, nervousness, dizziness and sleeplessness.

SECOND.—The medicine that holds the record for the largest number of absolute cures of female ills is Lydia E. Pinkham's Vegetable Compound. It regulates, strengthens and cures diseases of the female organism as nothing else can.

For thirty years it has been helping women to be strong, curing headache, nervousness, kidney troubles, all uterine and ovarian inflammation, weakness and displacements, regulating menstruation perfectly and overcoming its pains. It has also proved itself invaluable in preparing for childbirth and the change of life.

THIRD.—The great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time published by permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

FOURTH.—Every ailing woman in Canada is asked to accept the following invitation. It is free, will bring you health and may save your life.

Mrs. Pinkham's Standing Invitation to Women.—Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only. From symptoms given, your trouble may be located and the quickest and surest way of recovery advised. Out of the vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Surely, any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

HEAVEN'S ARTILLERY LET LOOSE OVER GRAND FALLS.

Worst Electrical Storm in the History of the Town—One Man Struck and Stunned by Lighting—Horses and Cattle Killed—A Big Log Jam.

Grand Falls, July 9.—Ted Parent has a crew of men engaged in attempting to break the log jam in the narrows. At the wells and rocks are piled six feet deep and extend from wall to wall of the canyon. There are over 3,000,000 feet of logs in the jam. Dynamite will probably be used. Drivers working on the jam take lives hands owing to the swirling rapids and whirlpools, and hemmed in by the rocky walls of the gorge, should the drive take a sudden start they would never reach shore.

On Saturday, July 1st, Grand Falls experienced the worst thunder storm in its history. About five o'clock there was a terrific thunder storm—the flash of the lightning was blinding and the rain came down in torrents. The thunder and lightning

lasted half an hour, but the rain continued, and people thought the worst was over. Shortly before dark another terrific thunder storm passed over the town. However, thunder storm succeeded thunder storm, and for four hours bolts of chain lightning zigzagged in every direction.

Alfred McMillan, who resides a few miles below town, took refuge from the storm under a tree, and was struck or stunned by the electric fluid. Dr. Puddington was summoned, and according to last accounts, he was still unconscious. A span of horses were struck and killed on Comeau Ridge. In several instances cattle were killed grazing in the fields. It was a terrible display of the forces of nature.

SCIENCE HUNTS FOR ADAM.

COLLEGE ETHNOLOGISTS DIGGING IN MARYLAND CAVE.

ES TO FIND REMAINS OF FIRST MAN.

Washington, D. C., June 27.—Ethnologists are continually making excavations in cave in the hope of discovering evidence of a race of men supposed to have inhabited North America in prehistoric times.

One of the recent investigations has been completed by Dr. Charles Peabody, of Phillips Academy, Andover, Mass. A large cave at Cave town, Md., was the scene of the exploration, and Dr. Peabody, with Warren Moorehead and ten men, dug more than a month.

No fossil human bones were found but in the quarry three hundred feet from the mouth of the cave fossil bones of animals were unearthed. Some were of the early cave bear and the elk.

The cave is about one hundred feet wide by one hundred feet long. The upper stratum of the floor consists largely of camp ashes &c., and excavations by Mr. McGuire revealed large quantities of broken pottery, arrow heads, bone and stone tools which had been left by the early Indians.

Underlying the camp ashes is a layer of stalagmite, six inches to several feet in thickness, and underneath this is real cave earth, similar to the formation found in caves of Europe in which fossil bones of animals and ancient man have been found.

THE MANWHO WORKS HARD

Perseverance and will power he must have, but whether he has strength and vigor is another consideration. Hard working men usually have irritable nerves and should fortify the system with a course of Pains Expeller, a tonic that rebuilds and revitalizes beyond all things. It's just wonderful the strength that Pains Expeller imparts to the downcast man. It tones the blood, supplies the system with abundant treatment, and where formerly there was weakness and listless Pains Expeller establishes a reserve of energy and vim. Try Pains Expeller,—price 50c. per bottle.

OFFICIAL REGRETS.

London, July 11.—An official expression of regret has been conveyed to the American Embassy that the members of the Cabinet will not be able to attend the memorial services at St. Paul's to day, owing to the fact that their presence will be required in Parliament.

No, replied the lady who had received degrees from three colleges, I do not object to marriage per se. It is merely the fact that one cannot get married without having a husband that one dislikes.
