(Received by A. E. Carpenter from Ennis & Stoppani.)

New York, Jan. 7.—The market during the morning ruled firm within a relatively narrow limit. Buying of Un. Pac. and Reading appeared excellent and the support was extended to sugar in conection with the Spreckle attack. Some short covering was in evidence in M. & Pac. Some of the selling of Reading seemed to be important, but a similar seemed to be important. ing seemed to be important, but a similar quality of offerings in N. P. by another house was offset by purchases of U. P. The sharp advance in Silver in London was an influence in Smelters. The stock has been absorbed in large quantity on hand decline, and has devalenced to large volumes on the rise.

The stock has been absorbed in large quantity on hand decline, and has developed no large volumes on the rise, trading yesterday being at about 26,000 shares. Iron prices have been advanced in the South and West. The great was statement of gross for December is remarkably good, the heavy increase supporting the contention of Mr. Hill that his losses are to be first in receiving from the business depression. Four and six months' money is being loaned at 6 per cent. on good railroad collateral, while good industrial collateral brings 7 per cent. for periods of 2 to 4 morahs.

The west is buying commercial paper at 7 and 7½ per cent. This radical betterment in financial conditions is the backbone of the present upward movement. The Nor. Pac. dividend will probably be determined to morrow.—Ennis & Stoppani.
