

HAS PLANS FOR ONE-LOCK CANAL.

(Continued from Page 1.) lay they will immediately name their candidate. If a contract for a thousand horse power is closed there will be no majority fight. T. J. Stewart, who has promised the Hydro supporters that he will oppose Mayor McLaren if the lower question is an issue, left for Ottawa last night. He has been busy engaged making arrangements so that there will be no delay in getting his campaign under way should he decide to declare himself in the field. Friends of John Hoodless say there is no chance of him running for Mayor. Mr. Hoodless is looking forward to the East Hamilton nomination in the next Provincial election, and his friends say he will not take a chance on making any enemies by mixing up in municipal affairs before then. Dr. Hopkins declared on Saturday that he is still determined that the Mayor shall be opposed. If some other candidate does not loom up after the council deals with the power question he says he will take a whirl at it himself.

The City Hall officials say that it is a good thing for the electors that the ward system will be in vogue at the next election, to avoid confusion. As it is, the electors will be kept busy marking ballots. The indications are that they will have to vote on the following ballots:

- For Mayor.
For controllers.
For aldermen.
On the good roads by-law.
On the police station by-law.
On the power contract.
On the registry office by-law.

Opinion is divided on the probability of the ratepayers voting \$200,000 for good roads. It is believed that most of the property owners on streets that already have pavements will oppose it, and that it will receive little support from people on streets which no provision has been made for paving. In that event the city will appeal to the Ontario Railway and Municipal Board for authority to issue debentures for pavements only on streets where the railway tracks are to be relaid.

When the Street Railway Company agreed to proceed with the re-construction plan next year it did so on the condition that the financial backers of the company should first approve of the specifications and the amount of work to be done. The City officials have been semi-officially informed that this has been done, and that the financial people were well pleased with the work done last year, and the increase in street railway earnings.

The following building permits were issued to-day: Regal Lumber Company, two brick houses on Rosemount avenue, east of Sherman avenue, \$2,600. Joseph Jamieson, frame addition to Macneavey street east, \$200.

Regal Lumber Company, cement and frame work shop on Sherman avenue, near Princess street, \$400. Charles Kidd, two brick houses on Clyde street, between Wright and Cannon streets, \$2,600.

The county judge this afternoon will hear twelve appeals against the sewer system in the annex on Imperial and Arthur streets.

The Markets' Committee this afternoon will open tenders for lighting the City Hall and other municipal buildings.

City Engineer Macallum and a deputation of aldermen are in Ottawa today conferring with the department of railways and Canals about the route for the new Erie-Ontario canal.

The Toronto World says: There will be no interference by the federal government with the Ontario Government's Hydro-Electric legislation. Word comes from Ottawa that the governor-general in council has finally refused to disallow the act. This action is the result of the advice of one of the Ontario ministers. The cabinet, it is said, had decided to yield to the demands of the electric interests, but the Minister in question warned his colleagues against such a course, declaring that the Beck scheme was the most popular policy conceived and carried out by the Whitney administration.

It looks as if the scheme to annex Westmount survey is off this year. W. D. Platt, who with a number of other property owners made the application, asking for an exemption of five years of the township assessments and townships rate, met the annexation committee to-day. He was told that the district would have to come in on the same terms as the newly annexed section in East Hamilton.

Mayor McLaren, Chairman Guy of the Harbor Committee and Mr. J. M. Eastwood, will leave to-night for Ottawa, to interview the government about the completion of the west end of the re-vent wall.

GRAIN PETITIONS.

U. S. Shipping Ring to Control Freight to Australia.

(Special Wire to the Times.) Ottawa, Ont., Nov. 22.—Inspecting returns show the grain movement from the west has been far ahead of last year. Trade and Commerce reports inspection of 51,246,350 bushels at Winnipeg to Nov. 7, and of this 40,516,350 was wheat. To the same date lake ports shipments amounted to 29,806,989. This is about ten million bushels ahead of last year. Canada's commercial agent at Melbourne, D. H. Ross, reports to the Department of Trade and Commerce that on the first of January next heavy freights between Canada, the United States and Australia pass under the control of the American shipping ring, and that merchants are a good deal exercised over the prospects of increased freight rates and consequent interference with business. They are hoping for a subsidized Australian-Canadian line to provide regulating competition. It will be remembered that a delegation of business men recently asked the establishment of a service between Montreal, St. John and Australian ports. The matter is under consideration.

CITIZEN SAYS TIGERS ARE GREAT SPORTSMEN.

"In All My Life I Never Saw Such an Exhibition of Good Sportsmanship and I Call For Three Cheers For Tigers", Said Stronach.

(Special Wire to the Times.) Ottawa, Nov. 22.—Ottawa cleaned up \$2,000 as their share of the Tiger-Ottawa game and after \$200 for expenses have \$1,800 in their treasury. This morning the Citizen says it was a brilliant victory for the Ottawa team and to Hamilton is conceded all the honor of a manly defeat for the contingent of two thousand from the Ambitious City, players and supporters took their reverses like men.

You gave us a square clean trimming and we congratulate you said President Fred Murphy, of the Hamilton Rooters' Club, in a speech to the Jubilant Ottawa crowd in the rotunda of the Prince George, after the game. And that was the spirit with which Hamilton took the result, that Ottawa won on their merits. When the great battle was over and the crowd was surging from the field the Hamilton Rooters' Club marching across to the Ottawa dressing rooms and offered to play the victors off the field with the Ninety-first Regimental Band, which had been brought to Toronto to lead the Tigers chorus. But by that time half the Ottawa men had left for their auto bus.

Then the Hamilton crowd corralled the remaining Ottawa players, and demanded speeches. Bert Stronach had to respond, and, doffing his cap, the big Scotch athlete mounted the club-house steps. "In all my life," he said, "I never saw such an exhibition of good sportsmanship, and I call for three cheers for the Tigers." Stronach's brief speech was the signal for an outburst of enthusiasm from the friends of both teams, Hamilton and Ottawa being repeatedly cheered as they drove out of the grounds.

As a boost for sport it was one of the most remarkable incidents ever noted in Canada. The Ottawa team will leave for Toronto Friday night. The club will likely charter a special train to take their supporters up as cheaply as possible.

At least two bands will likely accompany them and the indispensable Rooters' Club will meet at the O. A. A. C. in the meantime, and it is intended to hold a procession, probably to-morrow night, to celebrate the Ottawa victory over Hamilton. Already arrangements are being made for presentations to the Ottawa team for winning the Interprovincial honors. But no active steps in this direction will be taken until after Ottawa settles with the "Varsity" team. To think that so much Tiger money went begging, each speaker expounded the principles of unionism and exhorted all to work to swell the ranks of the Garment Workers' Union. Mr. Charles Bark brick was chairman.

LABOR MEN.

Gompers and Most of the Others Leave Toronto.

Meeting in New York to Consider Imprisonment Case. Toronto, Ont., Nov. 22.—With the close of the convention of the American Federation of Labor conditions in Toronto labor world have assumed their normal condition. President Gompers and the other members of the Executive Council left for New York yesterday, only Secretary Morrison and his staff remaining to clear things up. Mr. Morrison will join the other officers in New York to-morrow, and an important conference will be held with Judge Parker, the attorney for the American Federation of Labor in the fight against the injunction proceedings taken by the Buck Store Company, St. Louis, Ill. It will be decided at this conference what action should be taken to obtain the right to appeal to the Supreme Court of the United States against the judgment of the Court of Appeals.

MAY BE WAR.

Strained Relations Between States and Nicaragua.

American Warships Hurrying to Seat of Trouble.

Washington, Nov. 22.—The next few days, perhaps one or two, will show whether the strained relations between the United States and Nicaragua are to be snapped off short. The United States Government has not accepted as facts beyond all contradiction the report touching the execution of Grace and Cannon in that republic. All credit is given replies to the State Department to inquiries into the reasons that moved President Zelaya to order the two Americans put to death. Secretary of State Knox is authority for the statement that a demand for reparation will be made upon Nicaragua should these inquiries develop that the allegations touching the death of the two men are well founded.

American ships of war to-day are speeding toward Nicaragua. The gunboat Vicksburg will probably arrive at Corinto, on the Pacific coast to-day, and the cruiser Des Moines may arrive at about the same time at Port Limon. The Marietta, too, is on her way to the Atlantic coast.

The transport Buffalo, coaling at Pichilique Bay, California, is under orders for Panama. There are 500 marines ready to board the vessel, should orders to that effect be issued.

The reply of the Prime Minister was as follows: "Edward, R. I., Windsor. 'Sir Wilfrid Laurier presents his humble duty to Your Majesty and begs to express his deepest gratitude for Your Majesty's kind message on the anniversary of his birthday.'"

WHITE SLAVES.

Happenings in Canada Worse Than in the Congo.

Toronto, Nov. 22.—"Things happen at Toronto, Montreal, Detroit and other Canadian and American cities that make the devilish slave dealers of the Congo appear like gentlemen in comparison," said Rev. A. J. Vinig in a strong protest against the white slave traffic, at the Allot Street Baptist Church last night.

"There are men called men going up and down the country seeking to trap girls to take to American cities there to be held as slaves and to live a life of sin," he said. "At Montreal and Quebec human devils await the arrival of immigrant girls to this country seeking to trap them. Years ago the people of the United States went to war to free the black slaves. To-night there are thousands of young girls on the continent who were once beautiful and innocent, but who are now slaves of sin."

"I have no excuse to offer for mentioning these facts," said Rev. Mr. Vinig, "but I have reasons. If parents only knew, these girls might have been saved. I venture it because of a desire to have parents protect their daughters. It is hardly safe for girls to travel alone on continent of men who are waiting to trap them."

He referred to a case in Toronto, where a young girl from the country had come to the city seeking employment, but really being trapped for the white slave traffic. She had been saved by a kind stranger who was suspicious of the address to which she was going.

"There is a syndicate that extends from the Atlantic to the Pacific," said the preacher, "for buying and selling women." He referred to statistics compiled, in which it was stated that girls were bought for 75 cents and sold for \$2.
